The "Movies" in Philadelphia. PHILADELPHIA, June 10.—Philadelphia is to be the home of the "movies." This is the prediction of Sigmund Lubin, pioneer motion picture producer and owner of one of the greatest "movie" plants in the world. In announcing the future plans of his corporation, Lubin declared today, hereafter only master films will be pictured here and that the standards of art, photography and acting will be raised to the highest possible degree.

Instead of making up a cast out of stock members of the various companies employed by the Lubin company, Lubin asserted, he will cast well-known actresses and actors for the various roles, to obtain the type necessary to convey the illusion to the auditor. He declared that the day had gone by when the photoplay can be staged in any old way, with a scratch cast. Today, he said, the motion picture must be artistic, must tell a stirring tale, and have the necessary "punch."

The yearly payroll of his actors, Lubin emphasized, will be more than \$3,000,000.

If ev'ry man's name described him as well as VELVET'S name describes it, a lot of folks I know would be applyin' to the legislature.
