Cossacks Charge Works.

PETROGRAD, June 16.—Official reports received here from Russian headquarters in the Caucasus say that the Russians are pressing the Turks back in the direction of ODI and are occupying the Turkish positions. A heavy counter attack made by the Turks at Zintchor was repulsed. The dispatches say that in a successful engagement in the valley of the Otchikal 200 Cossacks charged on horseback to the trenches, where they dispersed the enemy with the sword.

Crops in Austria Suffer.

ZURICH, Switzerland, via London, June 16.—The intense heat prevailing in Austria-Hungary, added to the drought suffered since the end of April, is occasioning much anxiety in military and agricultural departments of the dual monarchy regarding harvest prospects. The fear is expressed that, unless rain comes soon, the grain crops will suffer considerably. Serious riots, necessitating the intervention of the police, have occurred in the Budapest markets, according to reports from that city. The public, angered by the prices demanded, attacked butchers and provision shops, it is said, and beat the dealers and tramped their stocks under foot. The price of flour and meat in Hungary are higher than in Vienna and Berlin. Beef has quadrupled in price and costs 80 cents a pound. Veal and pork are equally dear.

New Covenant Proposed.

BOSTON, June 16.—A covenant among all American nations to supplement the Monroe doctrine and preserve the integrity of the Western hemisphere was proposed by Senator Santiago Perez Triana, delegate from the republic of Colombia to the recent Pan-American financial conference, at a banquet given in honor of these delegates by the Boston chamber of commerce.

"In order to secure the whole-souled support of the Monroe doctrine throughout the length and breadth of the continent," said Sen. Perez, "that doctrine must be carried to the extreme length of its logical development. The Monroe doctrine has closed effectively the continent to European conquest, but it has not prevented the exercise of conquest in both sections of the continent.

"Well, John," he said, "how is it I have not seen you at church for several Sundays?" "Hain't got no Sunday trousers," answered John. "Well," said the clergyman, "I think we can remedy that. I have a pair at home which will just about fit you and I will have them sent to you today." "Thank'ee!" said John. The trousers were duly sent, and the following three Sundays John was seen at church. Then, after being absent for some time, the clergymen again met him.

"Well, John," he said, "you have no excuse for not coming to church lately. How is it I have not seen you there?" "Look here, parson!" said John. "I like a man to speak plain. I know what you mean; you're a-thinkin' about them trousers. I come to church three Sundays, an', if you don't think I earned them trousers, just tell me how many more Sundays I shall ha' to come afore they're mine altogether!"

CARRIED HIS PROOFS. At a political convention in one of the western states two rival delegates got into a serious personal dispute. "Oh, you're crazy!" shouted one. "I'm not crazy!" denied the other. "But you are crazy!" vociferated the first. "I can prove I'm not crazy, and that's more than you can do," came back the rejoinder. "Let's see you prove it, then."

Whereupon the man who was accused of being crazy pulled from an inside pocket his discharge papers from a nearby insane asylum.

"I am formulating no indictment that the territory of the American nation is no longer a subject for conquest, either from within or from among all nations of the continent without the hemisphere."

SAY 'YOU'RE RUNNING MUST BE A MATTER OF LIFE OR DEATH!

YOU BET IT IS. THE BOSS IS ALL OUT OF THE REAL TOBACCO CHEW

THE MESSENGER SURPRISES THE GOOD JUDGE

JUST by the taste and the way it keeps you tobacco satisfied, you can tell that "Right-Cut" is the Real Tobacco Chew.

For the first time in your life you'll get the satisfying taste of pure, rich, mellow tobacco—seasoned and sweetened just enough.

Ready chew—the taste comes steady all the while right from the start.

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is *The Real Tobacco Chew*. That's why it costs less in the end.

It is a ready chew, cut fine and short shred so that you won't have to grind on it with your teeth. Grinding on ordinary candied tobacco makes you spit too much.

The taste of pure, rich tobacco does not need to be covered up with molasses and flavors. Notice how the salt brings out the rich tobacco taste in "Right-Cut".

One small chew takes the place of two big chews of the old kind.

Face Eruptions Have Deep Significance Often They Indicate Impurities Deep in the Tissues.

The results shown by R. N. S. in clearing the skin reveal how searching and how deeply this famous blood purifier attacks blood troubles. Facial eruptions are more often significant of impured qualities resulting from faulty elimination of body wastes. Most people realize this to be true. And yet it is a difficult matter to convince such people they should avoid those harmful drugs such as mercury, iodine, of arsenic, and so on. R. N. S. gives just as good effect without the destructive results, because it is more searching. It goes deeply into the circulation wherever the blood flows, but it does not remain to clog the system. And its effect is complete and thorough as indicated by blood tests. One of the strange things today is that so many people are wedded to the notion that mercury is the one antidote. It is not so. There is in R. N. S. a product of nature that is rated one of the most potent principles known for the complete elimination of blood troubles.

Wherever you go there are people who know this to be true from their own experience, for it has been clearly shown there is one ingredient in R. N. S. as essential to health as the blood is impure as the nourishing elements of the grains, sugars and salts of our daily food. Get a bottle of R. N. S. Today if any druggist, but insist upon R. N. S. accept no substitute. And if your case is peculiar or of long standing, write to the Medical Adviser, The Swift Specific Co., 101 Swift Bldg., Atlanta, Ga.

Klamath Mayor Quits. KLAMATH FALLS, Ore., June 16.—After a row with the council in which the mayor struck O. D. Mathews, acting president, and made charges that the councilmen were in league against him, Thomas F. Nicholas, mayor, presented his resignation, and those of several of the police force.

The trouble grew out of the failure of the council to confirm the appointment of Joseph Smith as chief of police, and the resignation of that official, together with those of Patrolmen Sam Walker and Hank Wilson was presented.

J. H. Carnahan, city attorney, also resigned, saying that \$1000 a year is not enough salary. Mr. Williams named committee and a special police force. A special election may have to be called.

EARNING HIS TROUSERS. (From the Philadelphia Inquirer.) A village clergyman, walking round the parish, met an old parishioner.

"Well, John," he said, "how is it I have not seen you at church for several Sundays?" "Hain't got no Sunday trousers," answered John. "Well," said the clergyman, "I think we can remedy that. I have a pair at home which will just about fit you and I will have them sent to you today." "Thank'ee!" said John.
