## CANTINE IS MADE HIGHWAY ENGINEER BY COMMISSION

### JOHN LEWIS IS DEPOSED — NO SUIT PLANNED TO DETERMINE DUTIES.

SALEM, Ore., June 14.—John H. Lewis, state engineer, was deposed as state highway engineer by a resolution adopted by the state highway commission, and E. L. Cantine, chief deputy of Mr. Lewis, was placed in charge of all highway work initiated after May 22 last. State Treasurer Kay opposed the resolution, and Governor Withycombe voted with him for it.

Secretary of State Olcott opposed the resolution on the ground that Attorney-General Brown had held, under the highway law passed at the recent session of the legislature, that Mr. Lewis was the active highway engineer. Mr. Lewis said he would confer with the attorney-general regarding the action of the board, declaring that at present he had no intention of bringing suit to determine his duties.

The resolution is as follows: It is hereby ordered that E. L. Cantine, chief deputy state engineer, take direct charge and supervision of all construction work now being performed upon roads in the several counties under orders of the state highway commission and upon which payments are made from the state highway fund, excepting, however, the construction work in those counties being performed under contracts entered into previous to May 22, 1915, or where the counties are in direct charge of said road construction. It is also ordered that Mr. Cantine make full and complete reports regarding such work monthly to the state highway commission, furnishing copies of same to the state highway engineer.

## WAR CAUSES NEUTRALS NEW TROUBLES DECLARES BRYAN

### EX-SECRETARY OF STATE AGAIN ISSUES STATEMENT REGARDING STRUGGLE.

WASHINGTON, June 14.—Bryan today issued the first installment of his promised three-part statement. The statement said: "War is an international nuisance. Nearly every neutral finds new domestic problems thrust upon it, and old problems are made more difficult. No American citizen can note without deep concern the manner in which the war question has intruded in our politics, overshadowing economic issues and stimulating agitation in favor of enlarged appropriations for military and naval purposes. Business is deranged and expensive readjustments are made necessary owing to foreign commerce being interrupted. Neutrals are put to great expense to preserve their neutrality and are constantly in danger of being embroiled unintentionally.

"If nations are determined to fight they should so far as possible bear the burden themselves and not be permitted to transfer it to nations avoiding war by resorting to reason instead of force. In all history, no such opportunity has ever come to America. No other peacemaker was ever in a position to claim so rich a blessing as will be pronounced upon our president when the time for mediation comes, as come it must."
