PROCEEDINGS ARE TAK'N FOR STREET IMPROVEMENTS

RESOLUTIONS ARE PASSED BY COUNCIL FOR PAVING SIX THOROUGHFARES.

Proceedings looking to the paving of Alta, Chestnut, Garden, Railroad, Willow and Water streets entered upon their semi-final stage last evening at the meeting of the council. The first and second resolutions were passed and ten days will now elapse during which time the property owners affected will have an opportunity to present a remonstrance if they so desire.
The resolutions call for the paving with gravel bitulithic of Alta street from Main to Chestnut, Chestnut from Alta to Webb, Garden street from Railroad to Water, Railroad street from Main to Willow, Willow street from Railroad to Webb and Water street from Main to Garden. An ordinance establishing the grades, and plans and specifications for the work were adopted last evening. In all 23 blocks of pavement are contemplated by the proceedings.
The council last evening decided that something must be done to protect children from the danger of falling in the Byers' tail race at the end of Johnson street where there is a narrow walk in use. The city attorney was advised to investigate the matter to ascertain whether the milling company or the city should devise some means of protection.
Only one bid was received for the construction of the proposed Garden street sewer. It was from Guy O. Melvny and was referred to the sewer committee.
The Knights of Pythias were given permission to repair their building on the corner of Main and Water streets, recently damaged by fire.
J. E. Mullin petitioned the council for the establishment of a grade on Monroe street. The petition was referred to the street committee.
About sprinkling.
The street committee reported that the new sprinkling wagons are expected any day. A representative of the company arrived several days ago to set them up but the machines not arriving on schedule time, he had the railroad company send a tractor. The sprinklers are needed badly, especially on the south hill where wagons have been hauling dirt to the depot park for several days.
