Changing Glasses An Admission of Incompetency.

A normal eye can see distant objects as well at 60 or 70 as at 10 years. If your eye has been made normal with a "correct" glass, why should it be changed.

In Pendleton and vicinity we have five hundred patrons who are absolutely guaranteed that they will never have to have their glasses changed except for the reading distance.

We are here to make good.

Is it economy or good policy to buy glasses and eye testing that will answer the purpose for a few months or possibly three or four years?

ANDREW BARNHART, INDIAN IS AGAIN UNDER ARREST

UNLAWFUL CONDUCT WITH WOMAN IS CHARGE BROUGHT AGAINST HIM.

Andrew Barnhart, well known local Indian, who a year ago served a term in jail at Portland on a charge of adultery or bigamous relations, is again under arrest on a similar charge. His alleged unlawful conduct has been with the same woman as before although he heeded Federal Judge Bean's advice to get a divorce from his legal wife, who was a resident of the Yakima reservation. However, before the divorce was secured, he is alleged to have taken up his abode with the local Indian woman who had won his affections from his real wife. Barnhart was indicted at the May term of the federal grand jury in Portland but managed to escape the officers until a few days ago when he was located and arrested in The Dalles.

As a test case, Supt. Swartzlander presented the facts of Barnhart's having two wives to the federal grand jury a year ago last April. He was indicted, pleaded guilty and was sentenced to serve 60 days in jail. At the time Judge Bean advised him to get a divorce from his legal wife before trying to secure No. 2. He completed his sentence in June, 1914, and shortly afterward began living again with the Indian woman on the local reservation, according to an affidavit made by her. They lived together during the winter both here and on the Warm Springs reservation. He secured a divorce in the meantime but the terms of the divorce prohibited him from marrying again within six months.

Barnhart, according to stories reaching Pendleton, got into other trouble at The Dalles recently through the purchase of a Ford auto. He gave the dealer a chattel mortgage on a span of horses which he said were on the Umatilla reservation. The mortgage was recorded here but Supt. Swartzlander can find no trace of any horses belonging to him.

BOMB IS FOUND ON THE STEPS OF CARNEGIE HOME

NEW YORK, June 24.—A bomb said to have contained three sticks of dynamite was found on the doorstep of the home of Andrew Carnegie last night. The police declare it to be the work of amateurs. Carnegie has been at Bar Harbor for several days. It is not believed the bomb was placed by anarchists or industrial workers who might have kept themselves informed of Carnegie's movements.

LUNCHEON GIVEN DARLING.

(Continued from page one.)

Chautauqua lecturer, at luncheon at the Hotel Pendleton today attended by some 50 local business and professional men. Mr. Darling spoke very briefly and sat down amid insistent cries to "go on," leaving it to be inferred he will finish the message tonight. If the lecture is on a par with the same it will be worth hearing by all.

Mr. Darling arrived on No. 17 today and was met by a reception committee, one of the members of which, J. C. Woodworth, is an old Oklahoma friend and acquaintance of the speaker, as is also F. B. Swayze, Hermiston banker, who came up from the west end town especially to hear his old friend talk.

In the J. F. Robinson auto the visitor was whisked about the city, shown the schools, the Round-up park and a section of the wheat country. Others called upon at the luncheon were Mr. Swayze, R. Alexander, Roy Raley, H. J. Taylor, W. L. Thompson and Rev. J. E. Snyder. A. J. McAllister, vice president of the Commercial club was the toastmaster.

When the luncheon ended Leon Cohen called attention to the fact this day is being observed in many places as President Wilson day. He proposed three cheers for the president of the United States and they were given with a will.

Despite the wind storm, the chautauqua was well attended last evening to hear the celebrated Schumann quintet. The program was a departure from the usually formal methods of presenting musical entertainments and the audience was treated to what might be termed a "Tuneful trip around the world." The folk songs of the nations now engaged in a gigantic struggle, in which the whistle and whine and crash of shells take the place of the dainty musical creations of peaceful days, comprised the program of the Schumann five. Italian, French, Slavic, German and Austrian pieces, representing the best that have been done by the composers of these nations, furnished one of the most excellent presentations which have been heard in Pendleton. The applause of the audience, calling each time for an encore, was ample proof that the program was appreciated from start to finish. The final number was a selection of American popular airs, winding up with the Star Spangled Banner.

GOOD VISION

Good vision does not always mean that your eyes are perfect, headache, dizziness, pain in or about the eye, twitching or inflamed eyelids, blind spots, pain in the back of the neck, etc., are often symptoms of eyestrain, that are quickly relieved when proper fitting glasses are worn. If you experience any of the above symptoms, no matter how well you see, it will pay you to have your eyes examined, and if there is any eyestrain proper glasses should be worn. My experience in the correction of eyestrain is long and varied. I make no experiments and guarantee the best results possible in every case.
