IN SUCH PAIN WOMAN CRIED
Suffered Everything Until Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Florence, So. Dakota.—"I used to be very sick every month with bearing down pains and backache, and had headache a good deal of the time and very little appetite. The pains were so bad that I used to sit right down on the floor and cry, because it hurt me so and I could not do any work at those times. An old woman advised me to try Lydia E. Pinkham's Vegetable Compound and I got a bottle. I felt better the next month so I took three more bottles of it and got well so I could work all the time. I hope every woman who suffers like I did will try Lydia E. Pinkham's Vegetable Compound."—Mrs. P. W. JANSING, Box 8, Alyn, Wash.

Why will women continue to suffer day in and day out or drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

GOOD VISION
Good vision does not always mean that your eyes are perfect, headache, dizziness, pain in or about the eye, twitching or inflamed eyelids, blind spells, pain in the back of the neck, etc., are often symptoms of eyestrain, that are quickly relieved when proper fitting glasses are worn. If you experience any of the above symptoms, no matter how well you see, it will pay you to have your eyes examined, and if there is any eyestrain proper glasses should be worn. My experience in the correction of eyestrain is long and varied. I make no experiments and guarantee the best results possible in every case.

IF YOU HAVE FREQUENT HEADACHES WHICH MEDICINES DO NOT CURE; if you see distant objects more (or less) clearly, or need to hold printed matter nearer to or further from the eyes than formerly; or need more light. If you have observed any of these things, your sight needs the aid of correctly adopted glasses to assist as well as preserve it.

Accurately fitted glasses are only possible when the sight has been scientifically tested.

We have every facility for doing this and exercise the greatest care so that you may receive the utmost benefit from wearing glasses.

A thorough examination and explanation of your condition will cost you nothing.
