LEGISLATORS THINK LAND CASE IS WORTH AN EXTRA SESSION

PLAN SUGGESTED BY FORMER GOVERNOR WEST MEETS WITH APPROVAL

State Representative James T. Jeffries of Astoria declares he believes Governor Withycombe will be fully justified in calling Special Session of the Legislature.

PORTLAND, Ore., July 1.—State Representative James T. Jeffries of Astoria says he believes Governor Withycombe will be fully justified in calling a special session of the legislature to consider a plan for conserving the state's interest in the O. & C. railroad grant lands.

Willing to give of his time for an extra session, Representative J. L. Kelly of The Dalles says he is "always ready for a good trade for Oregon."

Mr. Jeffries and Mr. Kelly are among the first members of the legislature to reply to the letter sent them last week by former Governor West. The former governor sent each member of the legislature a copy of the letter he sent to Governor Withycombe in which he outlined a plan for Oregon to come into possession of the 2,230,000 acres of grant lands and suggested the calling of a special session of the state legislature to formulate an official proposition to be presented to congress.

Terms of Plan Suggested.
 Mr. West's suggested plan was for the state to propose to pay to the railroad company the amount due it in accordance with the terms of the United States supreme court decision, which is \$2.50 an acre; petition congress to turn the lands over to the state; let the state open the agricultural lands to settlement by actual settlers at a very low cost; sell the timber on the timbered lands to the highest bidder, with stipulation for its removal within a given length of time and provide for the reforestation of non-timbered lands which are unsuited for agricultural purposes. His suggestion was for the proceeds to go into the common school fund.

If the state is to make to congress any sort of official proposition which contemplates the state securing the administration of the lands and thus keeping them out of a forest reserve, it is considered necessary for the legislature to take action, as the supreme court in its decision gave congress six months in which to act on the question of disposing of the grant lands, any action by the state must be taken at an early date.

Replies from several of the legislators were received by Mr. West. The question is of such large importance to Oregon that practically all of them readily recognize the need of the people of the state taking a definite stand in regard to the grant lands.

"I have read your letter to Governor Withycombe with much interest and am fully convinced that the suggestions set forth in your letter should be carried out," says Representative Jeffries in his reply to Mr. West. "Your plan is right to the point, and as you state, there will be a big profit in this matter for the state. If some plan similar to the one you suggest is at once acted upon, and I fully believe that Governor Withycombe would be fully justified in calling a special session of the legislature for the purpose of financing this, or a similar plan."

Each girl will be furnished a four-foot length of cordwood, a hacksaw and sawback and will be made to make two cuts through the wood in the old-fashioned way.

Japanese Bar Religions.
 WASHINGTON, July 1.—All religious education will be barred within 10 years from schools in Korea, giving "a general education," by an order promulgated by General Teruchi, Japanese territorial governor of Korea, the text of which was made public here by the Japanese embassy.

The order prohibits the teaching of any religion—no exception being made in favor of Shintoism, the Japanese national religion—but allows a period of 10 years for the schools to conform to the new conditions. It will seriously affect many American and other Christian mission schools.

General Teruchi prefaces his order with the declaration that the experience of the United States and France has demonstrated the wisdom of separating education and religion. The 10-year period, according to the order, is allowed in order that native Korean teachers may acquire the Japanese language and to afford the existing private schools an opportunity to adjust themselves to the new requirements.

India is Declared Loyal.

LA GRANDE, Ore., July 1.—"India, remarkably loyal to Britain so far as the great masses are concerned, stands ready to pour far more untrained men into the war in Europe than England can use," asserted Bishop J. A. Warner, of LaGrande, India, who arrived here to deliver an address at the conference extraordinary of the Idaho district of the Methodist church. Preachers from southern Idaho and southern Oregon heard the speaker. "Indian troops are now fighting in the Euphrates valley at the Dardanelles and elsewhere," he said, "with credit to themselves."

"There were several thousands of them well trained, and these have long since gone to the front, but the ones now anxious to enlist have only their native training which is impractical in modern warfare, though effective for mountain fighting."

Darius Green Emulated.

EVANSVILLE, Ind., July 1.—John Mitchell, aged 14, living in the Mount Vernon road below the city, attempted to rival the birds and came to grief with a broken arm. Mitchell made a girder and wings after a pattern in a boys' book which he bought at a local store.

He attempted to slide from the left of the stable to the ground. The girder was not strong and the wings collapsed. Mitchell fell to the ground and his arm was broken near the elbow and he suffered slight internal injuries.
