Financier Does Not Like Enforced Respite From Work and Anxious to Get Back to His Office.

CONDITION IS SATISFACTORY

Bulletins Will Hereafter be Issued From Wall Street Office Instead of His Home, is Announcement—Belief Gains Ground That Banker May Not be Improved.

GLENE COVE, July 6.—Physicians attending J. P. Morgan announced that because the patient is practically out of danger, no more bulletins of his condition will be issued from the Morgan home.

Morgan is becoming restless because of enforced idleness and wants to take a hand in handling his vast business affairs.

The fact that none of the local officials who will conduct the case against Holt are permitted to talk to Morgan renewed the belief the financier's condition may not be as favorable as the official bulletins indicate.

NEW YORK, July 6.—Morgan called his office by telephone from his home today telling his partners he felt fine. He discussed business matters.

New International Rule of War Hope of German Kaiser

GERMANY WILL FRAME PROPOSAL IN REPLY TO THE AMERICAN PROTEST.

WASHINGTON, July 6.—Germany hopes to frame a rule for international war in the forthcoming reply to the president's note regarding the Lusitania and other submarine attacks. Germany hopes to provide for the safety of neutrals at sea without surrendering the advantages gained by her submarine warfare. This, in the opinion of many officials, is the cause of the delay in the delivery of the new German note. It would cause no surprise in official circles if two weeks more elapsed before the communication is handed to Gerard. It is known Germany informally has accepted the demand for a recognition of the rights of Americans to travel in safety upon any ship which is not violating the regulations governing merchantmen in time of war.

CENSORSHIP IS EVADED AT WIRELESS STATION, CHARGED

SHORTENING OR LENGTHENING OF PERIOD OF SENDING SYSTEM USED.

NEW YORK, July 6.—The Evening World declared the government's censorship of the Bayville, Long Island, wireless station has been evaded by a secret system, invented by Dr. I. Kitzoo, a scientist of Philadelphia. The same phrase is made to convey several different meanings by shortening or lengthening the period of sending according to an explanation of the alleged system. Dr. Kitzoo was tricked into revealing his secret by a man representing himself to be a German agent, the World declared.

WASHINGTON, July 6.—No official comment was forthcoming regarding the statement of the World as to the system by which the government censorship at Sayville is evaded. However, it was admitted an evasion was accomplished by some means.

PREMIER OF CANADA IS GOING TO STIR UP BRITISH

Sir Robert Borden.

Sir Robert Borden, premier of Canada, who attempted the life of J. P. Morgan, is on his way to Great Britain, with the purpose, not avowed by him, of stirring up the British government to the importance of Canada in the war. Before sailing—he would not tell the name of the vessel on which he would make the trip—he refused to talk about complaints Canadians have recently made, particularly in connection with their failure to get war contracts. The attack of W. W. Butler, one of the great manufacturers of Canada, against the policy of making J. P. Morgan & Company, the great New York bankers, agents for the purchase of British war supplies, was passed over by the premier without comment.

"During the war there has been very close cooperation between the British and the Canadian government in respect to all matters relating to the war and touching the common interests of the empire," said he. "This cooperation has involved incessant correspondence both by cable and by letter with the colonial secretary and with Sir George Perley, the acting high commissioner for Canada in London. It is considered that cooperation between the two governments can be rendered more effective and the common interests more thoroughly safeguarded, if certain important questions could be discussed at a personal interview.

"As for volunteers in the war, we have sent 75,000 so far, and you know what kind of a record they have made. We have about 75,000 more, organized and in training. The men are coming in to volunteer faster than we are able to train, arm and equip them."

"According to dispatches, the Germans say they are the best fighters they have encountered in the war," he suggested. "They are of a splendid type," he said, with evident pride. "I asked the chief of staff about one regiment I lately reviewed in Ottawa. 'I have never seen anything better than this regiment,' he replied. 'As a matter of fact,' he went on, 'I think every regiment the best until I see the next.'"

ST. LOUIS, July 6.—Eight hundred times chicken and turkey enhanced the dinner of Mr. and Mrs. Fred Senzabach during the quarter century of their married life. HOLT ATTEMPTS TO END HIS LIFE IN CELL AT MINEOLA

Would-be Assassin of J. P. Morgan Cuts an Artery But Turnkey Frustrates Effort at Suicide.

CONDITION IS NOT SERIOUS

Lead Pencil Is Used as Weapon—Attempt Regarded as Significant in View of Fact Holt is Suspected of Being Erich Muentzer who is Wanted for Wife Murder.

PRETTY YOUNG WOMAN ADDS NEW MYSTERY

MINEOLA, July 6.—The dramatic appearance of a pretty young woman who demanded to see Holt added a new element of mystery to the case of the university professor. Warden Hulse refused to admit the woman. She declined to give her name or tell why she desired to see Holt. She carried a letter, purporting to be from the chief of police of Dallas, Texas, asking "every courtesy" be shown her. Holt said he did not know who it could be.

MINEOLA, July 6.—Frank Holt, who attempted the life of J. P. Morgan, attempted suicide in his cell in the jail here during the night. His condition is not serious, officials said. He attempted to cut an artery in his wrist with a lead pencil. Prompt action of a turnkey frustrated the attempt. He lost considerable blood before a physician dressed the wound. John Leckerstricker, the turnkey who found Holt wounded, watched him at intervals throughout the night. About midnight he noticed blood trickling down his clothing. When he rushed into the cell blood was pouring from a wash in his wrist. A bloody pencil was lying on the floor of the cell.

Holt's attempt to end his life is regarded as significant in view of the fact he is suspected of being Erich Muentzer, a former Harvard professor, wanted on a murder charge. Charles Apter, assistant custodian of Harvard, and T. W. Hillyard, a Middlesex policeman, and two former pupils of Muentzer are expected at Mineola today when an attempt will be made to identify the prisoner.

Holt has dismissed T. J. Ready, whom he first engaged as attorney, and today retained Martin Littlejohn. A telegram from Holt's wife at Dallas was received and delivered to the prisoner. Mrs. Holt said: "Have best counsel here. Advise to rest and wait. You must do the same. Loving greetings hourly. Beautiful tribute to you in both evening papers. I am tarrying for details of our finances. I come when you need me. Don't be afraid. Rest."

MINEOLA, July 6.—Dr. Cleghorn, the physician at the county jail, declared an examination of Holt revealed similar scars to those described by the police as carried by Erich Muentzer, a former Harvard professor, wanted on a charge of murdering his wife.

DALLAS, July 6.—Mrs. Holt, through her attorneys, declared the theory that Frank Holt and Professor Muentzer are the same is impossible, absurd and inconceivable. Oscar Sensabaugh, Mrs. Holt's brother said, however, that Holt went to Mexico in 1906. It was this year that the witness declared Erich Muentzer, identified Erich Muentzer as Holt's brother-in-law of Mrs. Geddes, about reports concerning his relations with Mrs. Geddes.

INTEREST IN NEGRO ASKED.

WASHINGTON, July 3.—President Wilson's proclamation on the opening of the National Negro Exposition to commemorate 50 years' achievement by the colored race, to start at Richmond, Va., was issued from the White House. In it he said: "The occasion has been recognized as of national importance by congress through an appropriation of \$55,000 to aid in its promotion and consummation. The action of congress in this matter indicates very happily the desire of the nation as well as the people of Virginia, to encourage the negro in his efforts to solve his industrial problem."

NUMEROUS ALARMS KEEP THE FIRE DEPARTMENT ON JUMP

THREE ARE SOUNDED FOR SMALL FIRES WITHIN THE LAST 24 HOURS.

Bringing the total number of alarms in the past six days up to eight, three fire alarms have called out the fire department in the past 24 hours. Two were turned in last night and one this morning.

At 10:20 last evening a still alarm came in to the department from the City garage where an automobile was on fire. The blaze was extinguished without damage. At 11:45 an alarm was turned in from Box 43, East Court and Hope streets, and the department found a grass fire burning along the O.-W. tracks near the Hampton residence. The fire this morning about 11 o'clock was of a similar nature and in the same locality. Both were put out without damage. Sparks from passing engines falling in the dry grass is supposed to have been the origin of them.

Chief Ringold is again complaining of the manner in which autos follow the fire truck and crowd in behind the truck at the fire, making it impossible for the truck to get out in case another fire starts, without smashing some of the autos.

LATE MILLIONAIRE WANTED NO MENTION OF SON MADE

TESTIMONY ALLEGES ECCLES DISCUSSED RELATIONS WITH MRS. GEDDES.

OGDEN, July 6.—That multimillionaire David Eccles decided to leave out of his biography any reference to his alleged plural marriage to Mrs. Margaret Geddes was the declaration of Dr. Joseph Marian Tanner of Salt Lake, president of the Utah Agricultural college. Tanner was the principal witness for the plaintiff at today's session in Albert Geddes' suit for one third of the six million dollar Eccles estate. Tanner testified he was commissioned by Eccles in 1908 to write the biography of the late millionaire. When the alleged plural marriage to Mrs. Geddes and the paternity of Albert Geddes were discussed, the witness declared Eccles decided they should not be mentioned. Tanner testified Eccles asked him to go to Baker, Ore., and see Grant Geddes, brother-in-law of Mrs. Geddes, about reports concerning his relations with Mrs. Geddes.

RUSSIANS LOSE IN OPENING BATTLES SOUTH OF LUBLIN

First Stages of Gigantic Struggle Now Beginning are Disastrous to the Slav Forces.

BERLIN, July 6.—"The Russian line near Krasnov has been broken in two," a semi-official dispatch stated. "One part is being driven eastward and the other toward Lublin and Ivanograd. Warsaw is threatened by Austro-German advance."

Von Mackensen's troops are in hot pursuit of the Russians south of Lublin, reports asserted. The slavs are hurling their strongest forces against the Austro-Germans in a vain effort to stop the rush through southeastern Poland.

The advance of the Teutonic allies is proceeding with great momentum, however, and an enormous number of prisoners have been taken in the smash which is said now to have accomplished the intended object of breaking the Slav line.
