Adams Folks See Liberty Bell as Train Goes By

MANY GATHER AT STATION IN SPITE OF FACT SPECIAL DIDN'T STOP.

(Special Correspondence.) ADAMS, Ore., July 14.—Quite a large crowd gathered at the depot Monday evening to see the Liberty Bell go through. The train carrying this relic did not stop in Adams, but nevertheless the bell could be plainly seen as it passed through.

Mr. and Mrs. Frank Krebs and Mr. and Mrs. Lou Clark motored to Pilot Rock Sunday to see the ball game. Mr. Smith has returned to town. Arthur Jordan of Pendleton, was in town Monday.

Mr. and Mrs. Frank Krebs motored to Pendleton Monday.

MRS. LYON'S AGES AND PAINS

Have All Gone Since Taking Lydia E. Pinkham's Vegetable Compound.

Terre Hill, Pa.—"Kindly permit me to give you my testimonial in favor of Lydia E. Pinkham's Vegetable Compound. When I first began taking it I was suffering from female troubles for some time and had almost all kinds of aches—pains in lower part of back and in sides, and pressing down pains. I could not sleep and had no appetite. Since I have taken Lydia E. Pinkham's Vegetable Compound the aches and pains are all gone and I feel like a new woman. I cannot praise your medicine too highly."—Mrs. AUGUSTUS LYON, Terre Hill, Pa.

It is true that nature and a woman's work has produced the greatest remedy for woman's ills that the world has ever known. From the roots and herbs of the field, Lydia E. Pinkham, forty years ago, gave to womankind a remedy for their peculiar ills which has proved more efficacious than any other combination of drugs ever compounded, and today Lydia E. Pinkham's Vegetable Compound is recognized from coast to coast as the standard remedy for woman's ills.

In the Pinkham Laboratory at Lynn, Mass., are files containing hundreds of thousands of letters from women seeking health—many of them openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound, and in some cases that it has saved them from surgical operations.

Lightning Fires Big Oil Tank. WOOD RIVER, Ill., July 14.—Approximately 200,000 gallons of crude oil were burned when lightning struck a tank of the Standard Oil company's refinery here.

French Outcry Issue. PARIS, July 14.—The minister of finance, M. Ribot, introduced in the chamber of deputies a bill raising the limit of the issue of national defense bonds from \$1,200,000,000 as fixed in the law of May 16, to \$1,400,000,000.

Subscriptions already have exceeded the previous limit by \$30,000,000. The French public in 11 months has taken \$1,859,999,000 of national bonds.

Second Wife is Awaited. BOSTON, July 14.—"If I find a woman with the same sympathy, who likes the things I like, I will marry again. Marrying again is like buying another book by the same author; I don't consider marrying again disloyalty. A mother should be like a cow—calm and untrifled."

These were some of the utterances made by Edmund T. Dana, assistant professor of philosophy at the University of Minnesota and grandson of the poet, Henry Wadsworth Longfellow, who characterized the recent suicide of his wife, Jessie Holliday Dana, in the surf at Nantucket as a "tragic but beautiful end."

He is now at the summer home of his father, Richard H. Dana, of Cambridge, at Manchester by the Sea, where he passed a part of his honeymoon three years ago.

\$100,000 Offer is Made. NEW YORK, July 14.—William F. McCombs, chairman of the democratic national committee, received from Dallas, Texas, an offer of \$100,000 as a cash contribution to the funds of the national democratic committee should the 1916 convention be held in that city.

Dallas also pledges a coliseum seating 25,000 persons and adequate accommodations for both delegates and visitors.

Federal Job is Lost By Het. WASHINGTON, July 14.—The department of justice is supervising the morals of the government employees. The bureau of engraving and printing discharged 25 employees, among them a plate printer employed for many years for unusually high-class work.

Officials of the bureau admitted the reason for his discharge was a "vice squad" report that he occasionally made a small bet on a horse race.

IF MAN CAN MAKE GOOD HE WILL NOT BE PROSECUTED

ARRESTED ON CHARGE OF OBTAINING MONEY FALSELY. OFFER IS MADE.

Steve Match alias Tom Colman, the slay arrested here by Sheriff Taylor several days ago on a charge of obtaining money under false pretenses, will escape prosecution if he makes good the amount of which he is alleged to have defrauded a man in Leadville, Colo., yesterday Osmer E. Smith, local attorney, received a message from the deputy district attorney at Leadville, an old friend, authorizing him to make such a proposition. Inasmuch as the man has no money, it is likely that he will be returned to Colorado for prosecution.

The scheme by which the foreigner is alleged to have secured money is rather a clever one. He was acquainted with a prisoner in the penitentiary at Walla Walla and learned that this man has a brother in Leadville, Colo., who has means. Accordingly he is said to have begun a correspondence with the brother and secured sums from him upon the representation that he needed them to secure the release of the prisoner. The game worked for awhile but eventually was reported to the officers.

Neuralgia Pains Stopped. You don't need to suffer those agonizing nerve pains in the face, head, arms, shoulders, chest and back. Just apply a few drops of soothing Sloan's Liniment, lie quietly for a few minutes. You will get such relief and comfort! Life and the world will look brighter. Get a bottle today. 3 ounces for 25 cents, at all druggists. Penetrates without rubbing.—Adv.

Victor in Africa Reptiles. LONDON, July 14.—General Botha, Premier of the Union of South Africa, has replied as follows to Lord Kitchener's cabled congratulations on the conquest of German Southwest Africa:

"I most cordially thank you for your kind congratulations, which are highly appreciated by all. I hope that soon many of my men here will take their share in the great task in Europe."

Mine's Yield is \$2000. KENNEWICK, Wash., July 14.—The directors of the Montana Gold Mining company owned by a number of Kennewick business men, held their monthly meeting here. D. L. Taylor, president of the company, who made a recent visit to the company mine about 40 miles northwest of Twisp, Wash., reported conditions there favorable for a substantial output this season.

The company installed a stamp mill on the property this spring and with the addition of a cyanide plant to the plant extracting the gold from the ore, the company is ready for practical operation. Four gold bricks, valued at \$2000, have been turned out so far this spring.

French Outcry Issue. PARIS, July 14.—The minister of finance, M. Ribot, introduced in the chamber of deputies a bill raising the limit of the issue of national defense bonds from \$1,200,000,000 as fixed in the law of May 16, to \$1,400,000,000.

REASONABLE RATE OF RETURN ON RAILWAYS EXPLAINED BY THORNE

CHAIRMAN OF THE IOWA STATE RAILROAD COMMISSION GIVES STATISTICS.

Difficult for the Human Brain, He Declares, to Analyze Decimals of One-Tenth of One Per Cent—Rate of Return is As Important As the Value, Says Expert.

BY LOWELL MELLETT. (United Press Staff Correspondent.) WASHINGTON, July 14.—Clifford Thorne sat in a corner of a hotel room, stretched his legs till his feet rested comfortably in the middle of the room and fired off statistics like a Roman candle shooting sparks. The chairman of the Iowa state railroad commission is the greatest known exponent of statistics—and also one of the greatest thinkers thereof. He had just unloaded several carload lots on the Interstate Commerce Commission, but still had considerable to do.

Having established beyond question that not only does two and two make four, but that two billion plus two billion make four billion and having shown, the connection between these mathematics and the increase in rates wanted by Western railroads, he proceeded to this question:

"What constitutes a reasonable rate of return?"

Not being furnished an answer, he went on:

"An error of one per cent, made by the interstate commerce commission in fixing the rate of return that is reasonable is equivalent to a mistake of one billion dollars in the value on which it is held the carriers are entitled to a return. Do you follow that?"

If five per cent is reasonable return on the investment in railroads, an error of one per cent amounts to one fifth. The alleged value of these western railroads is \$5,000,000,000. One fifth of five billion is one billion—and there you are.

"It is very difficult for the human brain, with a sort of intellectual microscope, to intelligently analyze decimals of one-tenth of one per cent. We can handle with more facility variations of a hundred million dollars a year in the value of the property. One is as important as the other. The rate of return is certainly as important as the value.

"If a railroad president is asked, he will say 7 per cent is reasonable. If a farmer, he says 2 1/2 per cent. What is reasonable on government bonds is not reasonable in a manufacturing security; what is reasonable on the latter is not reasonable on railroad securities, either stocks or bonds. More than half the wealth of this nation is invested on a basis of four per cent or less. There are billions of dollars on deposit in our savings banks drawing four and three per cent; billions in government bonds, drawing less than three per cent; billions in railroad bonds drawing 4 1/2 per cent and billions of dollars in our farms.

"While some farms earn as high as 10 and 15 per cent it is safe to say—on the records—they are earning an average of less than four per cent on their value. You cannot name a railroad that has been making regularly more than five per cent on the total value of its plant whose securities are not selling at above par in ordinary years.

"The investor in the capital stock of these railroads is entitled to a higher return than the investor in the bonds and if there were in existence a colossal financial giant with the ability to purchase whole railroad systems then we might find out the rate at which they are willing to buy a railroad. But railroads are not bought individually. We buy and sell them piecemeal, by stocks and bonds. The market places of the country do not offer the best evidence of what the investing public considers to be a reasonable rate of return on the stocks and bonds of railroads.

"Taking all the stocks of our Northwestern group of railroads, weighing them in proportion to the amount of capital stock outstanding, their average price in the year 1914 amounted to 126.5. This is a remarkable demonstration that the stocks of these companies are worth 100 cents on the dollar in the eyes of its investing public, although it is common knowledge that a large portion of them do not and never have represented bona fide investments in the property. There is not a railroad company in this or any other part of the United States that has paid 5 1/2 or 7 per cent dividends to its stockholders whose stock ordinarily does not sell for more than 100 cents on the dollar. The railroads of this territory are able easily to bond their property up to 65 per cent or 70 per cent of their value. If you could secure to these railroad properties a return of 7 per cent on their total value, the stocks will be earning from 10 per cent to 15 per cent and they will be selling—everyone of them—from 150 per cent to 200 per cent of their par value. You will be giving to those roads more than what the public says is reasonable.

The Hot Weather Test makes people better acquainted with their resources of strength and endurance. Many find they need Hood's Sarsaparilla which invigorates the blood, promotes refreshing sleep and overcomes that tired feeling.—Adv.

Pittsburg Mills All Running. PITTSBURG, July 13.—Steel mills in Pittsburg and the steel district in general are now running at full capacity and the industrial situation is brighter than at any time in more than a year. It was declared. Export bookings of the United States Steel corporation are mostly for was material.

AMERICAN VESSEL IS SAID TO HAVE BEEN USED AS A SHIELD

GERMAN SUBMARINE REPORTED TO HAVE HIDDEN BEHIND HULL OF STEAMSHIP.

LIVERPOOL, July 14.—How an American ship is alleged to have been used as a shield by a German submarine for the sinking of another vessel is the story related by members of the crew of the American bark Normandy, which has arrived here from Gulpport, Mass.

The story is that the Normandy was stopped by a German submarine 60 miles southwest of Tuskar Rock, off the southeast coast of Ireland, Friday night. The captain was called aboard the submarine, where his papers were examined and found to show that the ship was chartered by an American firm January 5.

The captain of the bark, it was asserted, was allowed to return to the Normandy, but under the threat that his ship would be destroyed unless he stood by and obeyed orders. These orders, it was said, were that he was to act as a shield for the submarine, which lay at the side of the bark, hiding itself from an approaching vessel.

This vessel proved to be the Russian steamer Leo. Presently the submarine submerged and proceeded around the bow of the Normandy, so the story went, and 10 minutes later the crew of the Normandy saw the Leo blown up.

Twenty-five persons were on board, of whom 11 were drowned, including three stowaways.

Three Americans Saved. Those saved included three Americans—Walter Emery, of North Carolina; Harry Clark of Sierra, and Harry Whitney of Camden, N. J.

All these three men, when interviewed, corroborated the foregoing story. They declared that no opportunity was given those on board the Leo for saving life.

The captain of the bark, it was asserted, was allowed to return to the Normandy, but under the threat that his ship would be destroyed unless he stood by and obeyed orders. These orders, it was said, were that he was to act as a shield for the submarine, which lay at the side of the bark, hiding itself from an approaching vessel.

This vessel proved to be the Russian steamer Leo. Presently the submarine submerged and proceeded around the bow of the Normandy, so the story went, and 10 minutes later the crew of the Normandy saw the Leo blown up.

Twenty-five persons were on board, of whom 11 were drowned, including three stowaways.

Three Americans Saved. Those saved included three Americans—Walter Emery, of North Carolina; Harry Clark of Sierra, and Harry Whitney of Camden, N. J.

All these three men, when interviewed, corroborated the foregoing story. They declared that no opportunity was given those on board the Leo for saving life.

The Leo was bound from Philadelphia to Manchester with a general cargo.

The captain of the Normandy told the survivors he would have liked to signal their danger to them, but that he dared not do so, because his uninsured ship would then have been instantly sunk.

The steamer Leo sailed from Philadelphia June 25 for Leith under command of Captain Jerstrom. She was a vessel of 2324 tons and belonged in Helsingfors. She was built in 1903.

The bark Normandy sailed from Gulpport, Tex., for Liverpool May 4, under command of Captain DeBurr. She is a vessel of 1997 tons.

GIRL WHO WED HERMIT, BRIDE OF COWBOY

NEW YORK, July 14.—Friends of Mrs. Beatrice Farnham Otto, have learned that she is married again, to Dallas Benson, a Kansas cowboy, after being divorced a year. The bride is the daughter of Mrs. Briggs Farnham of South Weymouth, Mass., and is an artist and sculptor of note.

She was married to John Otto, hermit prospector, on top of Hemp-

Rock, 5000 feet above the surrounding mesa in National Monument Park, Colorado, in 1911. They separated for five years, agreeing either one could obtain a divorce at the expiration of that period.

Mrs. Otto's horsemanship first attracted the attention of Benson when she performed the feat of "basing the bride."

Quit Claim Deed. Frank L. Allen to Melissa A. Livermore, \$1.00. A tract of land, title descriptive.

Deed. Wm. McLroy to F. E. Cockburn

and C. J. McKenzie, \$10. Lots 1, 11, 12, 13 and 14 in block 53 in Free-water.

Balfour-Guthrie Trust Co., to Cunningham Sheep and Land Co., \$10, 540 acres of land, title descriptive.

Cushing R. Baker to Matt McGrover, \$1,350.75. 447 acres land, title descriptive.

Mary and J. H. Gentry to Albert A. Thomson, \$250. Lot 3, block 2, in Ireland's addition to Milton.

UNIVERSITY EXPECTS BIG FRESHMAN CLASS

UNIVERSITY OF OREGON, Eugene, July 14.—For every student lost to the University through graduation in June, six will be gained through matriculation in September, according to Registrar Albert R. Tiffany.

Besides the increase through a large freshman class, Mr. Tiffany held that his correspondence, compared with previous years, shows that the tendency of Oregon students to seek big eastern and southern institutions for the last years of their course is about at an end.

"Few if any, students are going to transfer from the University this year" states the Registrar. "The increased facilities of the University and the spirit of optimism and enterprise and loyalty that now prevails on the campus is going to keep them here, not only this year I believe, but in future years."

Mr. Tiffany prophesies 500 freshmen as against a previous record of 375.

Thirty-six for 25 Cents.

Dr. King's New Life Pills are now supplied in well-corked glass bottles, containing 36 sugar coated white pills, for 25c. One pill with a glass of water before retiring is an average dose. Easy and pleasant to take. Effective and positive in results. Cheap and economical to use. Get a bottle today, take a dose tonight—your Constipation will be relieved in the morning. 36 for 25c, at all druggists.—Adv.

French Contribute Gold.

PARIS, July 14.—The flow of gold from the private stocks of the public into the Bank of France continues. More than 10,000 persons deposited gold at the bank during Friday and Saturday.

Recently the Bank of France extended an invitation to the public to turn in its private hoards of gold to strengthen the national reserve. The response was such that the bank had to designate a half dozen receiving tellers to take the coin offered.

HOW SHE ENDED TEN YEARS OF SKIN-TORTURE

Oct. 28, 1914.—"I had eczema on my face for ten years. Little red pimples formed in a small spot on my chin and then spread all over my face. They itched and burned so awfully. It was certainly embarrassing to me, and I would not go amongst people. I tried almost every remedy and treatment that could be used for this trouble, but nothing did me any good. I used Resinol Ointment and Resinol Soap, and was relieved in a day or two. In one month I was cured. This was six months ago and the trouble has never returned."—(Signed) Mrs. C. C. Roberts, Weatherford, Okla.

The Resinol treatment speedily heals eczema, rashes, ringworm, and other eruptions, and clears away disgusting pimples and blackheads, even when other treatments prove worse than useless. Doctors have prescribed Resinol Ointment and Resinol Soap for eight-hundred years, and all druggists sell them.

His Back Hurt When He Stoopd

"Just the one box of Foley Kidney Pills relieved my backache."—J. W. Etris, Etris, Ga.

"Last year I was suffering with a terrible backache," writes J. W. Etris of Etris, Ga. "Every time I'd lean or stoop over or to one side, I'd have a painful catch in my back just over my kidneys. I tried medicines with no good results. I bought a bottle of Foley Kidney Pills, and just the one box entirely relieved my backache. It has been some time since I took them, so I think I am well."

Weakened, overworked, stopped-up kidneys cause stiff joints, sore muscles, rheumatism, sleep-disturbing bladder ailments, biliousness and various other ills. Foley Kidney Pills are a scientific medicine, compounded to clear the kidneys and restore them to healthy action by dissolving and driving out of the system the waste products and poisons that cause kidney trouble and bladder ailments. You will like their tonic and restorative action, ready effect and quick good results.

Sold Everywhere.
