NEWS FROM THE FARM AND RANGE

Water Permits Issued.—During the quarter ending June 30, 1915, the state engineer issued 198 permits to appropriate water, including 9 for the storage of water in reservoirs. While most of the permits issued cover small developments the estimated cost of all such developments aggregate \$734,000, involving the construction of 248 miles of canal lines, for the irrigation of 21,184 acres of land and the development of 4,254 horsepower.

The following permits were issued in Umatilla county: James A. Fee of Pendleton, for the irrigation of 314 acres, including stock use, diverting water from Owens Creek in Sec. 26, T. 4 S., R. 21 E., Moses Taylor of Athena, for the irrigation of 10 acres, development of 1 horsepower, including domestic supply, diverting water from Little Spring Hollow Gulch, in Sec. 14, T. 2 N., R. 24 E., The City of Milton for municipal supply, developing 460 horsepower, diverting water from the Walla Walla river in Sec. 18, T. 5 N., R. 35 E., Mary K. Vonderahs of Milton, for the irrigation of 28 acres, including domestic supply, diverting water from the west branch of Mud creek, in Sec. 28, T. 4 N., R. 25 E., W. W. Philippi of Freewater, for the irrigation of 30 acres, diverting water from a spring in Sec. 26, T. 4 N., R. 25 E., Mrs. Vonderahs of Freewater, for the irrigation of 10 acres, development of 5 horsepower, diverting water from the S. branch of Mud creek in Sec. 28, T. 6 N., R. 25 E., Jas. Kirk of Freewater for the irrigation of 40 acres, diverting water from springs located in Sec. 26, T. 5 N., R. 35 E., G. W. Chamberlain of Pendleton, for the irrigation of 20 acres of land, diverting water from Wild Horse creek in Sec. 22, T. 3 N., R. 23 E., E. J. Davis of Freewater, for the irrigation of 12 acres, diverting water from springs in Sec. 22, T. 6 N., R. 35 E.

Wheat Badly Burned.—At the E. L. Smith & Co. office today is a sample of wheat brought in from the reservation by John Crow, prominent farmer. The kernels are badly shriveled and very light and Mr. Crow states he has a quarter section which is yielding this kind of grain. Many other spots on the reservation are reported to be turning out the same kind of grain. Contrasting with this sample is another from the Jack Prendergast ranch near Vauzele. This wheat is large, well formed, of good color and very heavy. The grain in the Vauzele and Juniper country is said to have suffered less than in any other section of the county.

No More Spotted Fever.—That the recent spotted fever scare on the Warm Springs Indian reservation has died out is the statement made here Saturday by Dr. Harry E. Pinkerton, northwest chief of the federal bureau of animal industry. Dr. Pinkerton was returning from a trip to the reservation where he purchased some bulls for the Indians there. Several weeks ago he was called there and found three cases of spotted fever but the measure of prevention which he took then has entirely eliminated the disease.

Nudo Is Champion Gardener.—Frank Nudo, who used to shine shoes in Pendleton, who who secured land near Stanfield several years ago and turned gardener, is the kintpin cabbage and tomato power of the Purdy project. His crop this year is not only a large one but the individual heads of cabbage are enormous, many weighing from 25 to 40 pounds each. He has been shipping in small lots for some time and will make a big shipment this week. He has met with such success in his experiments with tomato that he will go in for them on a large scale next season.
