PERSONAL MENTION

Ed Sachs of Baker is a guest of the St. George. J. D. Kirk of Ukiah was a Pendleton visitor yesterday. W. H. Anderson of Pilot Rock was at the Bowman yesterday. Mark A. Sturtevant of Pilot Rock spent last night in the city. Mrs. W. P. Ward of Stanfield is a guest of the Hotel Pendleton. Sam D. Peterson, Milton lawyer, is transacting business here today. Dr. and Mrs. P. D. Watts of Weston are Pendleton visitors today. T. P. Gilliland, ex-county judge, is in today from his Pilot Rock ranch. Dr. W. H. Lytle, state veterinarian, was a Pendleton visitor overnight. Mike Briggs is down from Lehman Springs where he had been for several weeks. County Clerk Frank Saling returned last evening after spending several days in the west end of the county. The heat of yesterday was too much for him and he is confined to his home today. Mr. and Mrs. W. M. Blakey came down this morning from Lehman Springs whither they went yesterday for an outing. The news of the injury sustained by their son-in-law, Sam R. Thompson, brought them back.

VETERAN GRAINMAN DIES IN PORTLAND

PORTLAND, July 22.—Robert Kennedy, vice-president and manager of the Pacific Coast Elevator company, and chairman of the grain standard committee of the Chamber of Commerce, died Tuesday at Good Samaritan Hospital following a brief illness. He had been in the hospital a week. He had recently suffered from all stages of several operations. His nervous constitution enabled him to overcome previous attacks, but the latest was more acute. Mr. Kennedy had been a resident of Oregon for about 21 years, coming west when the Portland Flouring Mills took over the Pacific Coast Elevator company from the Peavey company, of Minneapolis. He was manager of the company at the time and since has been actively identified with the grain buying department of the Portland Flouring Mills. Mr. Kennedy for a number of years was the grain expert for the company and as such traveled throughout the Pacific Northwest. He has been the manager and vice president of the elevator company for about 12 years.

REMINING STRIKERS WILL GET THEIR DEMANDS

BRIDGEPORT, July 22.—Returning from New York, vice president Keppler of the Machinists union, said he conferred with "higher ups" representing the munitions manufacturers and that the strike at the Remington plant will be settled Monday. Workers will be granted their demands, Keppler said.

DISSOLUTION TO BE ASKED

SALEM, Ore., July 22.—The State Land Board has turned over to State Engineer Lewis for investigation a proposal that the state join with a number of land owners in the Dead Ox Flat irrigation district, on the Snake River, near Ontario, in a petition to the county court for dissolution of the district.

PRINC EVON BELOW

The board was requested to join in the petition for the reason that school lands there have been sold, and later have been allowed to revert to the state. Certain assessments have been made against the lands which raised a question as to whether the state will be required to pay them or whether the purchaser will take the land subject to the lien as created.

FARMINGTON, Mo., July 21.—The entire county of St. Francis, excepting Farmington, is voting on local option. Farmington went "dry" in March.

NEWS FROM THE FARM AND RANGE

To Get Perfect Corn—A. A. Lovett, assistant entomologist at the agricultural college gives the following directions regarding the treatment for ear worm in corn.

From valuable plots of sweet corn, popcorn or of field corn desired for seed, where only perfect ears are readily obtainable, one may get from 70 to 80 per cent of clean ears, free from worms, by the use of powdered arsenate of lead. Many growers, in recent years, have found the clear ear-of-corn the exception and the wormy ear the rule. Where the infestation is severe many ears are ruined and even where the tip only is attacked, the disgusting appearance and the subsequent waste is considerable.

In the experiments carried on with the powdered arsenate of lead, as high as 100 per cent of the ears in the check plots were wormy; many of them being unfit for table use. In the treated plots 76 per cent or more of the ears were free from worms and where the ears were attacked, the injury was limited to a few kernels at the very tip of the ear.

Obtain the powdered arsenate of lead. Use 40 parts of the arsenate and 30 parts of sulfur, mix thoroughly. As soon as the silks shoot well, dust the silk and the tip of the ear lightly with the mixture. Repeat the treatment weekly until the silk dries down. A convenient way to apply the dust is through a cheese cloth bag or a can with a perforated cover, such as a gold dust washing powder can.

Where the item of labor is a consideration, it seems practical at present to treat only sweet corn, seed corn, etc., where the individual ear is of value. The adult of the corn ear worm is a moth. The female moth deposits her eggs on the silks of the ear of corn. The young worm on hatching works directly into the tip of the ear for its first meal. If there is a little poison lodged there, the worm's first meal is usually its last.

Fine Sample of Wheat — Bearing out the statements that the Juniper country escaped the recent winds with the least damage, M. J. Smith, well known farmer of that community, this morning brought in a sample of his 1915 crop. The kernels were full of good wheat.

Getting 45 Bushels — Report comes in from the reservation that Will Wyrick is getting an average of 45 bushels to the acre off his land.

Wenaha Forest Fires — Four small forest fires have been discovered in the Wenaha reserve already this season, but have been controlled without much damage. The hot weather is contributing to the danger from fires as the underbrush and grass dry out.

Hog Cholera Still Rages—Although the stockmen and veterinarians of the valley have been giving most of their time to the prevention of the disease, hog cholera is still claiming scores of hogs and there seems no letup to the epidemic which broke out here last fall. Right now is the very time when the disease is at its worst, although the heaviest losses usually occur in late August or early September.

L. J. Bierwagon has just completed killing practically his entire herd, pigs, sows and all, only a few in his fattening pens being saved for vaccination. Lester Robinson has also lost a good many more hogs this summer, while other farmers have suffered.

Thousands of hogs have been vaccinated, but more young pigs have been coming in this spring and summer and they are getting the disease in many localities.—Walla Walla Union.

GOVERNOR NAMES MEN TO BIG TAX MEETING

SALEM, Ore., July 22.—Governor Withycombe has appointed Henry S. Reed, assessor of Multnomah county, F. A. Ross of Portland, and Charles V. Galloway, member of the state tax commission, delegates to the ninth annual conference on taxation, to be held under the auspices of the National Tax Association in San Francisco, August 19-14. Much importance attaches to the conference because of increased interest in national state and local taxation. An important feature will be the report of the committee on the federal income tax, of which Edwin R. A. Seligson, professor of political economy at Columbia University, is chairman. Cooperation of the treasury department is expected in the discussion of the report, suggesting amendments to laws which will give better administrative results.

WHEAT MARKET QUIET

The local wheat market has been very quiet today, few farmers being in the city and none showing any eagerness to get quotations.

MAY BE PLANNING BIG CAMPAIGN IN COUNTRY

WASHINGTON, July 22.—The American Federation of Labor is evidently planning a national organization campaign in connection with strikers which have broken out or are threatened in various munition factories in the east.

STOLE AUTO AS JOSH, FINDS WAY TO JAIL

OREGON CITY, Ore., July 22.—Guy Standifer, Portland contractor and member of the firm of Standifer-Clarkson Company, has a new opinion of practical jokers in general and K. V. Lively, Portland insurance man, and W. J. Lyons, another Portland business man, in particular. Mr. Standifer also expressed his opinion of Oregon City policemen, after his visit to the city jail, for a few minutes Tuesday, on a charge of stealing an automobile, Mr. Lively's car. The three went to West Linn today to be present at the opening of bids for the West Linn water system. Mr. Lively left his automobile at the West Linn city hall and, looking through a window, saw Mr. Standifer borrow his car and ride off toward Oregon City. Mr. Lyons and Mr. Lively came across the bridge, told Chief Shaw of the incident and in a few minutes Mr. Standifer was under arrest. Mr. Standifer stooped to crank the car, after coming from a restaurant. "You are under arrest for stealing this car," Chief Shaw informed him. Mr. Standifer straightened up. "I didn't steal it," he said. "I just borrowed it from Mr. Lively to ride across the bridge."

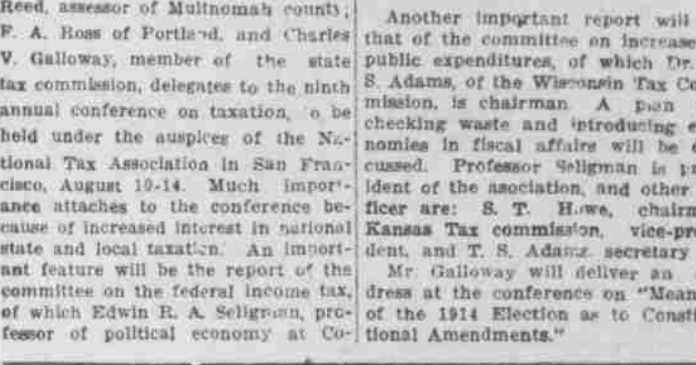

MOOSE LODGE WILL MEET AT PITTSBURG

SAN DIEGO, Cal., July 22.—Pittsburg has captured the international convention of the supreme lodge of the world, Loyal Order of Moose, for 1917. The vote was taken today and was made unanimous. Dallas was a contestant for the honor, but the delegation from the smoky city had the steam roller fired up and quickly pressed out the wrinkles.

Proscott, Ariz., is leading in the contest for the tuberculosis home for members of the order. The question may be decided any time. William Jennings Bryan arrived today and will deliver a lecture on "Moose-Heart and Fraternalism" this afternoon at 4 o'clock in the Spreckels theater, which will be thrown open to the public.

Moose declare that Bryan has been made to promise that he will touch on neither prohibition nor his peace policies.
