PROPOSES SCHEME FOR FOREST ROADS

PORTLAND, Ore., July 28.—The Secretary of Agriculture's plan to anticipate future receipts from the national forest by securing an advance of money from congress for the construction of roads, trails, bridges and other public works would stimulate agricultural development and would relieve many struggling communities from their present burdens of taxation, says an article contributed by the chief of the forest service to the department of agriculture year book just issued. This policy, says the article, would apply exclusively in those counties where there is a considerable area of national forest land so located that the forest resources can not now be marketed, although later they will yield a large revenue. It would fully meet the local difficulties arising from the fact that the national forests are not subject to taxation, would aid in the protection and development of the forest resources, and would remove the one barrier which in a few places prevents farmers from immediately enjoying the benefits of the national forests.

Millions of acres of farm land are today undeveloped because of a lack of good roads. In opening any new country road building constitutes a hard problem for the settler. At first, while the settler is struggling to erect his home and farm buildings and to clear his land, he usually cannot afford to pay high taxes or otherwise contribute toward the expense

of road building. The national forest comprise the remotest and least settled regions of the country. In many cases, farming in these localities is still pioneering, under as difficult conditions as have ever existed in the United States. One of the principal reasons for the failure to develop the large areas of excellent agricultural land which lie near the forests is the lack of roads.

The government is trying to meet this problem in two ways, first by public improvements being made on the national forests, and second by the direct contribution to the counties, up to date the forest service has constructed on the forests more than 2,300 miles of roads, 21,000 miles of trails, nearly 600 bridges, and 18,000 miles of telephone lines. Every one of these improvements benefits settlers and ranchers. In addition, there is appropriated annually for the use of the counties in which the national forests lie 25 per cent of the gross receipts from timber sales and other sources, to be used for road and school purposes. Some of the individual forests are bringing in over \$100,000 a year, and the business of the entire national forest system is increasing so that this direct contribution to community upbuilding is rapidly growing. In fact, already a total of nearly \$900,000 is obtained from the forests every year for county road and school purposes.

JOKE ABOUT AN AUTO MAY COST HIM HIS LIFE

BEACON, N. Y., July 27.—Charles St. Huser is at the point of death in the Highland hospital here with a bullet in his abdomen. St. Huser and

his friend, Charles Kovack, got into an altercation at Storm King yesterday. Kovack had just bought an old fashioned automobile. His friend chided him, calling the car a "fiver." He went home and got a revolver. Returning to the hotel he shot St. Huser. The police have Kovack in the Poughkeepsie jail awaiting the outcome of the shooting.

BRITAIN TO HAVE INVENTION BOARD

Plan Is Largely Result of Suggestion of Lord Bryce, Former Ambassador To United States.

LONDON, July 25.—The appointment of a navy invention board of scientific men, with Lord Fisher, recently First Sea Lord of the Admiralty, as its head, was largely the result of a suggestion made by Lord Bryce, former ambassador to the United States, to the house of lords and followed upon a discussion in which similar proposals were made by Sir William Ramsay and other eminent scientists.

Lord Bryce pointed out that this country needed not only fighting men but should mobilize its inventive ingenuity in chemistry, mechanics, engineering, physics and the whole range of science. While the American navy was a few days ahead of the British in launching this plan, according to the cables, its inception in both cases was due to lessons of the war.

The admiralty received 16,000 offers of new scientific devices during the first five months of the war. Many were from Americans. Another 16,000 doubtless, came under the stimulus of the next five months. Of the first 16,000 a board undertook to eliminate the "crank" proposals and reduced to 25 the number which, in the board's judgment, were worthy of attention.

Another board has scrutinized these 25 more rightly and reduced them to just two. These two are being worked out with every precaution of secrecy and every prospect, it is declared, of giving a surprise in mechanical warfare exceeding anything produced by German ingenuity.

Elaborate trials have been made of one of the devices in English waters and in actual service at the Dardanelles. Rigid secrecy has been observed, but it can be said that the trials give promise of rendering a battleship immune from the submarine torpedo.

WAR SUPPLIES PILED HIGH AT VLADIVOSTOK

VLADIVOSTOK, July 28.—This port is to save the day for the Russian armies, provided the feverish activity at the water front where piers and docks are being enlarged to receive vast shipments of war munitions from the United States and Japan, permits the unloading of much needed supplies with the rapidity desired.

Within sixty days 20,000 American freight cars and 400 American locomotives will be set down here to carry the big shipments of American dynamite, pig lead, pig copper, cotton, clothing and other supplies to the czar's army corps.

Vast quantities of the American goods come direct from New York by way of the Panama canal. These include guns, rifles and ammunition. From Seattle are arriving steamships loaded with hundreds of motor cars made at Detroit, Cleveland and other points.

Already American and Japan made war necessities are piled high on the hills back of Vladivostok ready for hasty shipment to the war front immediately upon the arrival of the American freight cars and locomotives.

Great Britain is contributing big guns to Vladivostok's receiving stations. And as quickly as possible these guns are shipped by railroad to the Black Sea and mounted on the warships Russia is building. Some 9-inch guns have come from American manufacturers. A fair amount of ammunition has arrived from France.

Loss of Vitality is loss of the principle of life, and is early indicated by falling appetite and diminishing strength and endurance. Food's Saraparilla is the greatest vitality-builder; it acts on all the organs and functions and builds up the whole system—Adv.

BRITISH CABLE SCHOONER LOST.

HONOLULU, T. H., July 27.—The British cable schooner Strathcona, en route from Auckland, New Zealand, to the Fanning Islands and Honolulu, is a total loss in the South Pacific near the Fiji Islands, according to information brought here by the Union liner Niagara. Officers of the Niagara said that a wireless message had been received at Suva on July 14 from the cable layer Iris that she was searching for the survivors.

It was believed at Suva that the Strathcona piled up on Minerva reef and foundered.

MEN WHO SUFFERED FOR ROSENTHAL MURDER

CHARLES BECKER

LEFTY LOUIE

GIB THE BLOOD

DAGO FRANK

WHITEY LEWIS

Herman Rosenthal was murdered, July 16, 1912. Becker induced Jack Rose, "Bridgie" Weber, and Harry Vallon, gamblers to employ "Gib the Blood," "Lefty Louie," "Whitey" Lewis, and "Dago Frank," well known thieves, pickpockets and gangsters, who lived chiefly off the earnings of women on the streets, to do the work.

They rode in an automobile to the entrance of the Hotel Metropole, in Forty-third street, the heart of the "Upper Tenderloin" of New York City, at 1 o'clock in the morning when the street was brightly lighted. Rosenthal was called from the restaurant by a messenger, and shot to death in sight of scores of persons at the door. The murderers were electrocuted at Sing Sing, April 13, 1914. Becker got a second trial and his lawyers kept his case in the court until this time.

Becker's reason for the murder was that Rosenthal, whose gambling house was kept closed largely through Becker's influence, had gone to District Attorney Whitman, now governor of New York, to give information which would have resulted in the policeman's indictment.

railroad work within the last few weeks, he said. He declares that he looked for a serious situation in the Chicago labor market within a few weeks.

"Murdered" Man Is Home. MILWAUKEE, July 28.—Frank Klug, for whose supposed murder Nick Georgian is serving twenty-five years in prison, and whose "body" was identified by relatives, returned to his family today.

Klug, it was supposed, was slain on August 22 last near Lake Station, this county. Georgian was arrested and convicted, although he denied his guilt, and was sentenced December 5. According to attorneys and officials here, the fact that it was not Klug who was murdered will make no difference to Georgian. That a man was murdered was well established, they said, and the circumstantial evidence positively connected Georgian with the crime.

Klug left his home because he feared arrest for desertion.

BAVARIAN SOLDIERS DRINK 250 CARLOADS BEER WEEK

MUNICH, Germany, July 28.—Some idea of the enormous quantity of beer manufactured for the use of Bavarian soldiers in the field can be gathered from figures of the authorities of the First Bavarian Army Corps, just published.

Munich breweries alone deliver, it is estimated, 140 carloads of beer in kegs and 60 carloads of bottled beer each week. The first contain an average of 1329 gallons per carload, and the second 5500 three-quarter liter bottles. Other breweries deliver 59 carloads of keg beer, 1329 gallons to a car.

Engaged in making this beer are the Bavarian State Brewery, the Royal Hofbrauhaus and the state-owned Wilhelmstapfen brewery. In addition to many private breweries. The army authorities pay 54 marks for a keg containing 22 gallons, and 23 marks for a case containing 50 three-quarter liter bottles.

A MEDICINE CHEST FOR 25c.

In this chest you have an excellent remedy for Toothache, Bruises, sprains, stiff neck, backache, Neuralgia, rheumatism and for most emergencies. One 25c bottle of Sloan's Liniment does it all—this because these ailments are symptoms, not diseases, and are caused by congestion and inflammation. If you doubt, ask those who use Sloan's Liniment, or better still, buy a 25c bottle and prove it. All druggists.—Adv.

Saves Baby Carried to Sea. BEVERLY, Mass., July 28.—Woodbury, the two-year-old daughter of Mrs. Rowland Woodbury, of No. 18 Blisen street, had a narrow escape from drowning this afternoon when carried out to sea on a log which had drifted in to the beach where the child was playing.

The child seated herself on the end of the log which had drifted upon the beach, but the ebbing tide soon carried the bit of driftwood away, with little Martha sitting astride it. Seeing her plight, Louis Hamburger started to her rescue. The little girl slipped from the log into the water, but was rescued by Hamburger.

Shortage of Common Labor. CHICAGO, July 28.—The European war has caused a dearth of common labor in the United States. Railroads are particularly affected, it was said today, by Richard Knight, state superintendent of employment agencies, in Illinois.

Men employed as track workers are preparing to leave to join their regiments, Knight said. Thousands of Italians, Austrians and men from the Balkan states have given up their

August 22 last near Lake Station, this county. Georgian was arrested and convicted, although he denied his guilt, and was sentenced December 5. According to attorneys and officials here, the fact that it was not Klug who was murdered will make no difference to Georgian. That a man was murdered was well established, they said, and the circumstantial evidence positively connected Georgian with the crime.

Klug left his home because he feared arrest for desertion.

You Should Worry If

it were difficult to find a safe and reliable remedy for the ailments due to irregular or defective action of the stomach, liver or bowels. These ailments are likely to attack anyone; likely, too, to lead to worse sickness if not relieved.

Beecham's Pills

are famous the world over, for their power to correct these troubles certainly and safely. They cleanse the system, purify the blood and act as a general tonic upon body, brain and nerves. Indigestion, biliousness, constipation might, indeed, cause you prolonged suffering and expose you to danger if Beecham's Pills
