## THE OLD GAME OF BASEBALL IS YET TAKING NOURISH

JUST WHEN THE GAME IS ABOUT ALL IN SOMETHING HAPPENS TO SAVE THE DAY.

Last Year It Was the Federal League and the War, But a Cove End for the Season Pulled the Organizations through—Sport Firmly Entrenched.

BY GEORGE R. HOLMES. (United Press Staff Correspondent.) NEW YORK, July 29—Just when the wisecracks have the old game of baseball out on its feet, the bell saves it.

Last year, with the advent of the Feds, the war and kindred other things calculated to make the managers feel like taking poison, the dopsters had the pastime down for the count of nine. Then came that history-making sport of the Braves and the fans in eight National League cities flocked to the park to see the miracle man and his miracles.

Incidentally, the National League wasn't nearly so hard hit in the pocketbook last season as was noised about, if all present reports are true. This year, with the schedule more than half completed, two close races are again serving as the bell that prevents the sleep wallop. There have been no closer races in either league than those now being seen.

For instance, the Dodgers. When the Dodgers—they are being called Superbas mostly now—returned to their own playing plot along about the first of July, trailing the league, Col. Holiday Ebbets was about to take the count. No crowds in Flatbush, no enthusiasm, nothing but empty seats in a mighty swell ball park.

Along came the Giants; they were welcomed. Then the Braves; they were licked even worse. And then the Cubs, cheaply by reason of leading the league, blew in. When they left, they left the whole series behind them. The Reds broke the streak by winning one game, but the Superbas took it up again immediately. The Superbas were within two stretches and a team at first place. The attendance was so great it made up for the deficits earlier in the season. If the Brooklyn continue to win, half their games it's a safe bet that Ebbets and the McKeevers will make money on the season.

There is a marked similarity in the Chicago situation. The Sox and Cubs there have been leading the league and drawing good crowds. In St. Louis the Cards have been noising around the first division all summer and no loud howls have been heard from Schuyler Britton. Likewise in Philadelphia and Pittsburg. In Boston the work of the Red Sox has kept interest alive in baseball. And so on.

And this in spite of the fact that all the wise ones predicted the most disastrous season in a decade for baseball. These continued savers of the game can lead to but one conclusion. It appears, and that is that the game is too great, too firmly entrenched in the public interest to be put down for the count by one, two three or more reverses.

The joke that produces nothing but a smile should be canned at once.

Bryan prefaced his address with the statement that the bishop's reference to a fee was humiliating, in view of the fact he had not accepted compensation for religious addresses for the last 15 years.

## Expectant Mothers Relieved of Pain

A most valuable help to women during this interesting period is a splendid external remedy called "Mother's Friend." It is applied over the muscles of the stomach, gently rubbed in, and at once penetrates to relieve all strain on nerves, cords, ligaments and all parts involved. It makes the muscles so pliant that they expand naturally. And at the same time they are invigorated by the absence of harassing pains so apt to distress the mind. Get a bottle of any druggist. ## LARGE ABERDEEN FALLS INTO ABERDEEN HARBOR

ABERDEEN, Wash., July 29.—Three hundred feet of the south span of the West bridge tumbled into the harbor today. The bridge was formerly used at Morrison street, Portland, and was purchased 19 years ago by A. J. West. A similar span was partially forced into the river some years ago when the steamer Norwood collided with it.

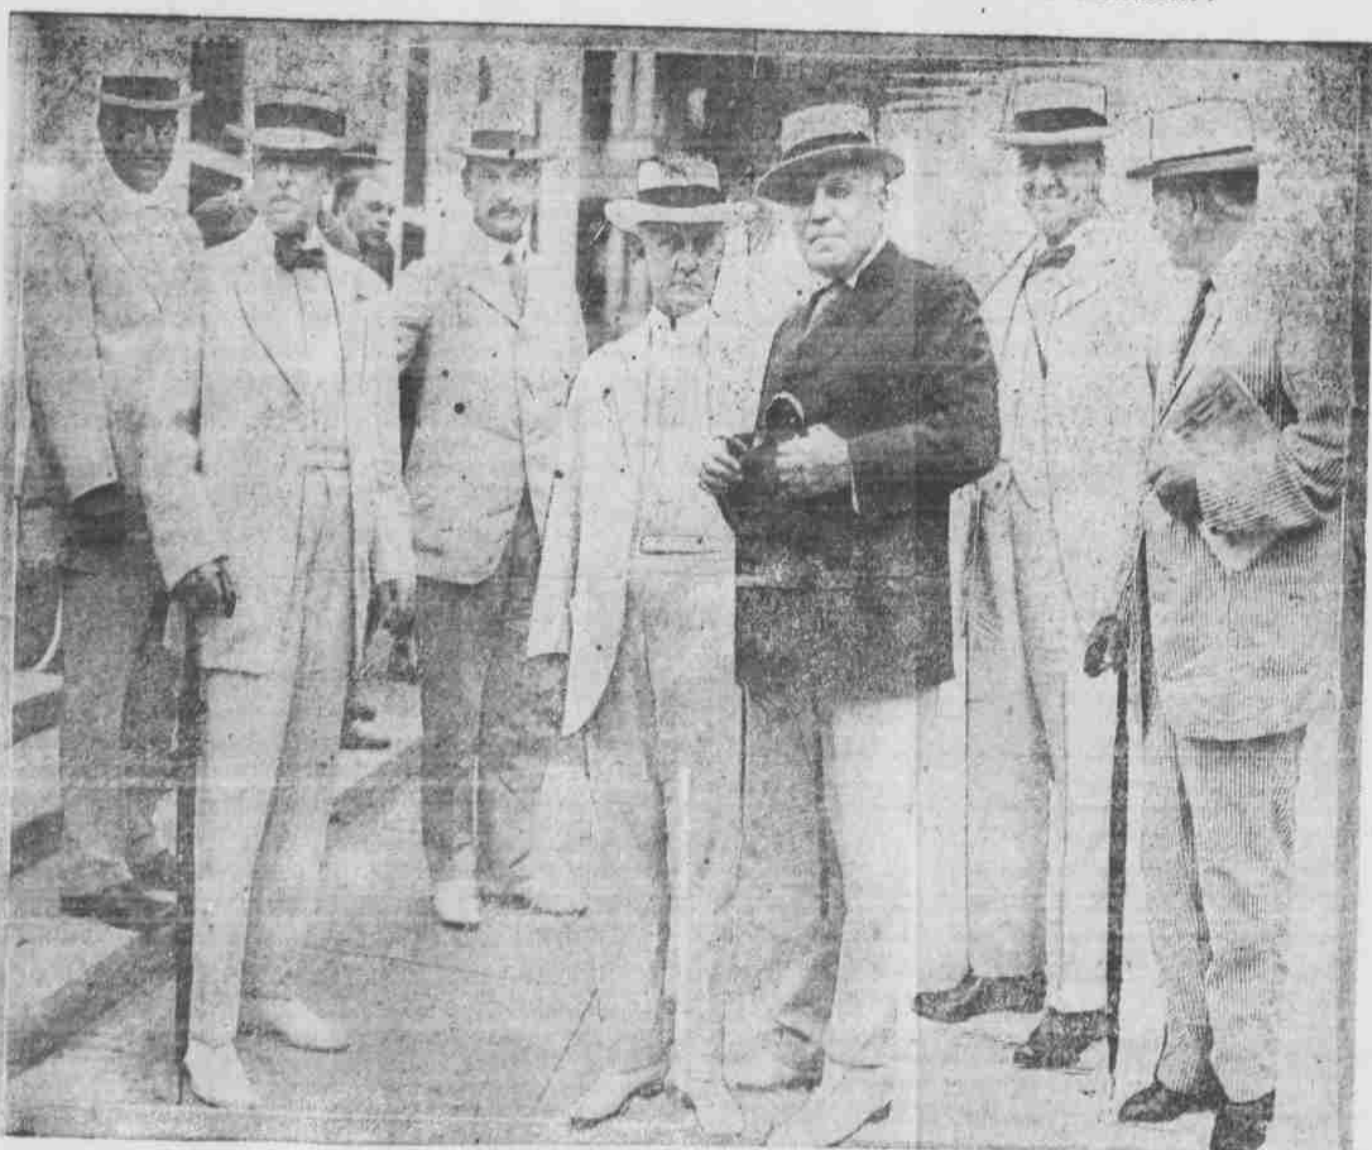

Long litigation followed and West eventually recovered judgment for \$15,000 against the Norwood owners. On the span when it fell today was an automobile carrying two men and two women. All were rescued. An electric car well filled had just crossed. The bridge was used as traffic for

## CABINET DRESSES IN WHITE TO CONSIDER LAST NOTE TO GERMANY

Left to right—Lindley M. Garrison, Secretary of War; Robert L. Lanning, Secretary of State; David F. Houston, Secretary of Agriculture; Thomas W. Gregory, Attorney-General; Franklin K. Lane, Secretary of the Interior; Josephus Daniels, Secretary of the Navy; Albert S. Burleson, Postmaster-General.

At the last meeting of the cabinet, that at which the final draft of the note to Germany on the case of the Lusitania, which was considered by some persons one of the most momentous meetings of the presidential advisers in many years, seven members dressed in white. They are shown here. Secretary Lane so far broke the rule as to wear a blue wool coat. It was at this meeting that the note drawn by the president and his secretary of state was gone over and approved. The note was received Friday, July 23, by Ambassador Gerard, and at once taken for Foreign Minister Jagow. It is not every one in Washington nor in the cities of the United States where the heat is sometimes almost insufferable who had the courage to wear white for comfort in the summer time. But the members of the cabinet have quite generally taken to it this summer. Most of them are men big enough to place comfort before criticism.

WATER SHORTAGE BAD IN KITTITAS VALLEY  
ELLENBURG, Wash., July 29.—Charles Hewitt, water commissioner for Yakima and Kittitas counties, after two days' inspection of water conditions in the Kittitas valley, warns all water users to be economical, as the condition is serious. Shortage Most Severe Ever. The shortage of water for irrigation

is the most severe ever recorded in the valley. The Yakima river is carrying 179 second feet below the amount necessary to properly supply the irrigation ditches, and while the re-

clamation storage supply at Kachess is assisting, still it is also greatly restricted. Little snow in the mountains last winter is the prime cause of the shortage.
