RECRUITING ENDED AVERS UNCLE SAM

SAN ANTONIO, Texas, July 28.—With more than a score of men under arrest, officers of the department of justice announced here that they had broken up an extensive system of recruiting in the United States for armies engaged in Mexico's civil war.

Eleven Mexicans have been arrested at Laredo, Eagle Pass and Del Rio charged with enlisting men for service in Mexico, and four others have taken into custody charged with having enlisted. Among those arrested at Laredo was Manuel Delciza, the Villa consul at that place, who was charged with violation of the neutrality laws.

ROOSEVELT LEAVES WEST FOR HOME IN EAST

LOS ANGELES, July 29.—"We are going directly back to Oyster bay," announced Colonel Theodore Roosevelt this afternoon as he and Mrs. Roosevelt and his secretary bade farewell to San Diego and the Panama-Pacific exposition and boarded their train. A crowd of several thousand persons waved the colonel goodbye.

Colonel and Mrs. Roosevelt had been honored guests since Monday noon. Roosevelt's chief activity today was his review of the Annapolis midshipmen on parade at the exposition after which Mr. and Mrs. Roosevelt were the luncheon guests of President and Mrs. G. Aubrey Davidson. The highest tributes yet paid the exposition was made by Roosevelt again today when in his farewell to San Diego he urged that the buildings and ground be kept permanently and the exposition be continued throughout 1916.

For Sale Cheap. One Buffalo Pitts 25 H. P. traction engine in good condition. Inquire Van Patten Lumber Co.—Adv.

WALLA WALLA, July 29.—Three head of horses, a good barn with 150 tons of hay and other property there-in, along with about 30 acres of wheat were destroyed by fire about 9 o'clock yesterday morning on the Brenz-Stirling ranch just east of Italo. The land was farmed by Clarence Rodgers.

The fire started near the barn and is believed that some farm hand dropped a cigar or match. The fire was put out before it could spread very far, but owing to the loss of the barn and horses, the total loss will be several thousand dollars.

WALLA WALLA, July 29.—The plan of constructing a natatorium in the city park for the use of the citizens of Walla Walla has been taken up by the Woman's Park club and others and the matter was put up to Mayor Tenor yesterday.

As suggested to him, the mayor says, the plan is to raise \$15,000 to \$20,000 by subscriptions or otherwise and construct a big swimming pool ample to accommodate as many as want to use it, heat the water to a desirable temperature and thus provide somewhere to go on the hot evenings.

Whether the city will be able to find a way to help the project is not known. Mayor Tenor stated that the city is now facing a loss of \$25,000 in revenues next year as there will be no saloons.

If the city could not help build it, it is probable a way could be found for it to maintain the place, he stated.

Pendleton recently completed a natatorium and it has been proving very popular.

BLACKHAND LETTER SENT TO WOMAN

MINNEAPOLIS, July 29.—Mrs. Florence Gates Judd, formerly Mrs. Chas. G. Gates, received a letter yesterday signed with a blackhand, which threatened her life if \$20,000 was not deposited near a certain lumber pile by midnight. She had previously received several similar letters and paid no attention to them, but this one was shown to her husband who employed detectives to guard his home and also to watch a package a maid placed at the designated spot last evening. An all night vigil was kept but no one called for the money.

NOCTURNAL

(Continued From Page Two)

As a compliment to Miss Margaret McKenna, of Portland, who is a guest of her sister, Mrs. James Johns, Jr., Mrs. Osmer E. Smith is entertaining three tables of bridge this afternoon.

Initiations have been issued for the organization of a local Delphin club to be held in the court room of the city hall this Thursday evening at 8 o'clock. This will be Pendleton's first club affiliated with the national Delphin society and indications point to a strong membership here as many of the most efficient leaders of the city are enlisted among the members. At the meeting tonight officers are to be elected and installed.

Yesterday afternoon at 2 o'clock at the Methodist parsonage Granville O. Davis of Lewis, Oregon, and Maude E. Perrigo of Echo were united in marriage, Rev. C. A. Hodshire performing the ceremony. The couple were attended by Mr. and Mrs. William Emselstyn of Echo.

Mr. and Mrs. Fred W. Vincent, who have been visiting at the home of Mr. Vincent's parents, Dr. and Mrs. F. W. Vincent, left at noon today for their home in Portland.

Mrs. A. J. McAllister left today for Portland and expects to go on later to the coast.

NEWS FROM THE FARM AND RANGE

Baker Hay is High—High prices for hay will be the rule this year in the country surrounding Baker, due to a somewhat light yield in the first crop and the fact that many ranchers will hold practically all of this product for feeding purposes during the winter. While the crop in some sections is below normal, others more highly favored by climatic conditions report an unusual yield, and it is thought that the second cutting, due to late rains, will in a large measure bring the total crop up to the average.—Baker Herald.

Some Wonderful Wheat—Charles Marshall, who farms on Read and Hawley mountain seven miles from Weston, has some wheat this year that is said to be the finest ever raised on the mountain. His step daughter, Mrs. Floyd Cooper, who with her son is spending the summer in the mountains near Bingham Springs, writes that the wheat stands six feet and seven inches high, has heads nine inches long and some of them have as many as 135 kernels.

Rain Halts Harvesting—A steady rainfall that began during the night has brought harvest operations to a halt all over the county. Reports indicate that the rain is general. Will Moore, agent for the Pacific Coast Elevator Co., was almost to Heppner this morning and declares as much water fell in that country as here. The absence of any wind with the rain will prevent any grain from falling during the storm but other damage may develop if the rain keeps up. Rains at this time of the year have a tendency to bleach and lighten the wheat and consequently to reduce the test. However, if the weatherman is right in his forecast, fair weather will be here again tomorrow and the damage will be very small. Most of the farmers are taking advantage of the storm to start hauling their wheat.

Little Smut This Year—Very little smut is reported in Umatilla county's grain this year, the amount being much less than last year. This factor will help toward bringing up the test of the wheat.

SULTAN DECORATES STANDARD OIL MEN.

CONSTANTINOPLE, July 28.—For numerous humanitarian services the sultan has decorated W. E. Test Your Own Eyes

The above lines should look exactly alike to you with each eye separately when held at arm's length, and you should be able to read the fine print below with comfort when held at 14 inches.

Caution About Use and Selections of Spectacles

Persons having normal vision will be able to read this print at a distance of 14 inches from the eyes with ease and comfort, also will be able to read it with each eye separately. If unable to do so your eyes are defective and should have immediate attention. When the eyes become tired from reading or sewing, or if the letters look blurred, or together, it is a sure indication that glasses are needed. The lenses sold in the cheap grade are of unequal density and have imperfectly finished surfaces. Continued use of these poorer lenses will result in positive injury from the constant strain upon the muscles of accommodation to supply defects in the glass.
