HUNDREDS OF WOMEN nowadays are entering the professions or business world and go to work day after day in bad health, afflicted with some female ailment, dragging one foot wearily after the other, working with an eye on the clock, and wishing for closing time to come.

Women in this condition should take Lydia E. Pinkham's Vegetable Compound, made from roots and herbs. It has brought health and happiness to more women in America than any other remedy. Give it a trial.—ADV.

BIG GERMAN DRIVE IS EXPECTED IN THE WEST

WASHINGTON, Aug. 2.—That all of the big army that has been raised by Lord Kitchener will be needed to defend the western line in France and Belgium and perhaps to save Paris and Calais is the opinion of a strategist of high rank in the war department.

He pointed out that the Germans would be able to release approximately 1,000,000 men from the eastern theater of war as a result of the capture

of Warsaw. Because of the wonderful railroads of Germany these can be rushed immediately to the western battle front for another drive.

"Before the Russian army, which has just been driven back in the Warsaw campaign, can make any effective counter-attack," said this authority, "a considerable length of time will elapse. Meantime it will be a simple matter for the Austrian troops now in that region to hold the Russians, while the entire German army in Poland can be released."

Pair Wed at Midnight. NEWPORT, Aug. 2.—The midnight marriage of George E. Smile and Mrs. Arla M. Thompson, middle-aged residents of Newport, increases a long list of unusual weddings here this year. Dr. Walter M. Berry, justice of the peace, was called to perform a marriage ceremony at Mr. Smile's residence. The prospective bride, Mrs. Thompson, had received a decree of divorce from a Newport handy maker, which required six months to elapse before remarriage.

On examining Mrs. Thompson's decree, Justice Berry discovered that the time would not be up until Saturday, July 31, and said that he would marry the couple in the morning. Both interrupted him by asking him if the time would not expire at midnight Friday, and being told that it would, prevailed upon Justice Berry to remain until then.

The ceremony was commenced at the last stroke of 12 by the clock.

Reverses in War Act as Stimulant to the British BY MRS. HENRY FAWCETT, LL.D., President of the National Union of Women's Suffrage Societies of Great Britain (non-militant.) (Written especially for the United Press.) (Copyright, 1915, by United Press Copyright in Great Britain.) When the shock of the war came upon us in August, 1914, the first thoughts of every man and woman throughout the British Empire was "What can I do to help my country in this supreme crisis?" The way in which men could help was clear; and the creation of what is known as Kitchener's army was the response given by the young manhood of the whole empire. Not only from the home-land but from every part of the empire, men and gifts kept pouring in. No external compulsion was needed. The compulsion proceeded from within. Love of country and freedom, and the keen desire to serve were better than any external compulsion; and it was noteworthy that when reverses and misfortunes were our lot the immediate result was a sharp rise in the numbers recruiting. Nothing more inspiring to our faith and confidence can be imagined than the way in which the young manhood of our country immediately recognized their duty and did it, not counting the cost, content and happy to be allowed to spend their lives for freedom and their country. Amid much that is terrible and depressing in the last twelve months this stands out a bright, clear, shining light. Our small army of a few hundred thousand has become an army of three million recruited from the best blood and all ranks, not in the spirit of bravado and jingoism but in the spirit of solemn, and at the same time, joyful, self-dedication. Those who have seen our men at the front have no words to express their admiration for them; their cheerfulness, their heroism, their absolute unselfishness. The men left behind had to work double shifts to support the men at the front. Every man in the fighting line needs two or three men and women at home to keep him supplied with all he needs in the way of equipment, munitions and food. The women have not been behind the men in recognizing their duty; by alleviating distress and checking want of employment in the first months of the war. Then when this phase of the national situation was changed and the government demand for war work was so great that unemployment ceased the duty of women changed also. Trained women of course had flocked from the first in their thousands to their posts as nurses and doctors, and this also from every part of the empire. The death rate among the wounded, and deaths from disease have been astonishingly small in this war, thanks to efficient medical and commissariat organization, and above all excellent nursing. In these things women have had the privilege of doing their part. The hospitals officered entirely by women, with women doctors, surgeons and orderlies, as well as nurses, have been one of the new things in this war. The society with which I am connected, the National Union of Women's Suffrage Societies, has sent out to France and Serbia many of these women's hospital units. We are now responsible for more than 1000 beds and the sum subscribed already exceeds \$250,000. Our women doctors have earned the very highest praise from the military and medical authorities under whom they have worked. Lord Methuen wrote of the unit which visited Malta: "They leave here blessed by myself, surgeons, nurses and patients alike, for they have proved themselves most capable and untiring workers." The issue in this war is, in the
