MAN WHO COMMUTED FRANK'S SENTENCE IS VISITOR IN OREGON

EX-GOVERNOR SLATON OF GEORGIA SEES THE SIGHTS OF PORTLAND.

Declares He Could Not Have Done Otherwise Than Take the Course He Did in Famous Case—Read Record of 10,000 Pages Before He Made His Final Decision.

PORTLAND, Ore., Aug. 5.—Ex-Governor and Mrs. John M. Slaton of Georgia are seeing Portland and the Columbia river highway. Mr. Slaton was the governor who defied the threats of the angry mob and commuted the death sentence of Leo M. Frank, who was convicted of murdering Mary Phagan, a young factory girl.

"There were about 10,000 pages in the record of the case and I read them all," said the former governor. "They did not satisfy me of Frank's guilt. I spent a night considering the matter and then went to my good wife.

"Sally, I said, 'I have finished considering this case and I am not satisfied that the man should hang. It may mean my death, and it certainly will mean the end of my political career, but I have decided to commute the sentence.'

"Jack," she answered, "if that's the way you feel, let's commute. Do your duty first, no matter what the consequence may be."

"I did just what I thought was right, and under the same circumstances I would do the same thing over 10,000 times. I could not do otherwise without spending the rest of my life with a consciousness that I had allowed a man to be executed whose guilt was a matter of doubt. It was just for such occasions as that that the pardoning power was given to the executive as a safeguard.

"Outside of my state I have yet to hear of a single dissent from the action I took. When the people know the facts they could not do differently. There are very few people in my state who know the facts who do not believe with me."

He said the cause of the mob of angry citizens who clamored for Frank's life was that they had made up their minds that Frank was guilty before the case was heard because Frank admitted having been the last man to have seen the girl, so far as is known.

WORTHLESS CHECK LAID TO PHYSICIAN

COLFAX, Wash., Aug. 2.—Sheriff William Cole today brought Dr. Harold Johnson from Malden on a complaint issued out of the justice court charging him with uttering a worthless check. He was bound over to the superior court under bond and failing to raise the bond he is confined in the county jail.

W. E. Slate, aged 54 years, and a resident of Whitman county since 1883, died last night. He was a carpenter and contractor. He is survived by a father, Lorenzo Slate, his widow and nine children. Raymond of Berkeley, Cal.; Roy, Bernice, Orville, Leda, William, Edgar, Fred and Bert, Slate, all of Colfax, Wash. Three brothers, Ula Slate of Arrowsmith, Wash.; Ora, Colfax, and Joseph of Spokane, also survive.

CONAN DOYLE SUGGESTS ARMOR FOR TROOPS

SIR A. CONAN DOYLE

LONDON, Aug. 4.—The war office, it is said, may take up Sir Arthur Conan Doyle's suggestion of armor for the men at the front. In an article in the "Times" Sir Arthur suggested that in view of the fact that many cases of lives being saved by a bible, cigarette case, watch or some other chance article had saved a life by deflecting a bullet, steel armor plates to cover the vulnerable parts of the body, such as the heart and abdomen, and a steel helmet for the head would be found of great use and not impracticable. He also suggests armor to be pushed upon wheels in storming trenches.

SUBMARINE HAS TWO BRITISH SHIPS IN HAND AT SAME TIME

NEW YORK, Aug. 2.—Capt. Humby of the British steamer Turnwell, which arrived from Swansea, reported that after sailing from Liverpool on June 15 he encountered a German submarine 25 miles off Tuskar. The submarine fired several shots from a rapid fire at the Turnwell and the crew of the latter took to boats.

The Germans then bombarded the Turnwell, Humby said, and had exploded several bombs in the empty hold when the British coasting steamer Trafford appeared. The submarine crew then turned their attention to the coaster, which they sunk. The submarine crew then returned to the Turnwell, but before they could do any further damage to the steamer, patrol boats of the British fleet appeared and the submarine disappeared.

The Turnwell's crew returned to its vessel and plugged up leaks and, with all pumps working, the ship reached Milford Haven, where repairs were made. The Turnwell then continued to Swansea.

DALLIES PLANS NEW ROAD AROUND HOOD

THE DALLIES, Ore., Aug. 2.—A movement, launched by Dallee business men, is on foot for the construction of a new road from Ward's mill, which is 17 miles southwest of Dufur, to Government camp. The object of the new road is to eliminate about 30 miles of the route from Portland around Mr. Hood to The Dalles.

The new road would be from 20 to 25 miles in length, easily constructed with an easy grade, and through a section of country unsurpassed for scenery. Dufur citizens advocated this road about two years ago, but the importance of it was not realized until the Columbia highway was opened.

The tentative plans are to ask government assistance in building the road through the forest reserves. Wasco county will also be petitioned for financial assistance, and the business men of The Dalles and Dufur will be asked to help raise the necessary funds.

"Big Horn" Anniversary. LAWTON, Okla., Aug. 5.—The people of Lawton celebrated the fifteenth anniversary of the "Big Run" August 4, 1901, the Comanche, Kiowa and Apache reservations were

thrown open to settlers. Drawings were held in El Reno and at Fort Sill and the winners poured pell mell into what was one of the richest pieces of territory ever distributed by the government to homeseekers. In a single night Lawton sprang into being with a population of close to 7000 people. The town site had been sold by the government for \$114,712 and this money had been spent by Uncle Sam in putting in streets, sewers and a water system. Today Lawton is a modern city.

ESTATE IS WON BY FAITHFUL SERVANT

EUGENE, Ore., Aug. 2.—Elizabeth Murray worked as housekeeper for James Sanford, an eccentric bachelor for \$1.50 a week, until he proposed that she care for him without wages on condition that he would bequeath her his property at his death. For 12 years she carried out her part of the bargain, even after her employer became old and helpless.

At the time of his death the deed, purporting to give his property to his caretaker, was found unsigned. Relatives filed suit claiming the property of their wealthy relative, and offered to pay the housekeeper a sum equivalent to wages during the time she worked. The case was bitterly fought in the courts.

Judge Skipworth today entered a decree, giving Mrs. Murray property in the heart of the business section, valued at \$125,000. No written contract is said to have existed. "I have never seen a clearer case of faithful performance of contract than shown by this woman," said the court. "Any effort on the part of a jury to compensate her for her time would amount to a fraud on the woman."

SEES BRUSH MOVE; SHOOT; KILLS FRIEND

John England, Mistaken for Deer, Is Slain by M. J. Kennedy.

SANTA ROSA, Aug. 2.—Mateking his hunting partner for a deer, M. J. Kennedy of Stewart's Point today shot and killed John England of Annapolis. The tragedy occurred in northern Sonoma county.

Kennedy and England started a buck. They separated in order to pursue it. Some time afterward Kennedy saw a movement in the brush. He fired. Later, he stumbled across

his companion's body. The bullet had passed through his head. England leaves a wife and three children.

MINERS' CAGE DROPS WITH SEVENTEEN MEN

Four Seriously Injured in Plunge to Bottom of Shaft.

GRASS VALLEY, Aug. 2.—A cage filled with seventeen miners jumped the track while descending Empire mine yesterday, scattering the miners all along the side of the track. The accident was not discovered by the

engineer until the truck had dropped 90 feet. Only five of the original load were aboard when the cage was stopped. Four miners were seriously injured.

Fire Ruins Genesee Buildings.

GENESEE, Idaho, Aug. 2.—The old Sullivan building was destroyed by fire last night. The postoffice building was also a total loss, although the fixtures were all removed, with practically no loss. The postoffice has new temporary quarters across the street from where the old building was located. The Sullivan building had no in-

surance. It was occupied by J. R. Nickle with a pool hall, having insurance of \$1100. The postoffice was insured for \$1100.

Fires Surround Town.

SANTA ROSA, Cal., Aug. 1.—Candero was momentarily threatened with complete destruction from forest fires raging along a 20 mile front and completely encircling the town. Several ranch houses have been destroyed, but so far as known only one death has occurred.

GOVERNMENT HOUSE IN WARRING HAITI

PRESIDENT'S PALACE AT PORT AU PRINCE

After a short fight beginning at 4 o'clock in the morning on July 27, the rebels overturned the government of President Vilbrun Guillaume Sam and proclaimed Dr. Rosalvo Bobo, the rebel leader president of Haiti. Before fleeing the palace, Guillaume

Sam ordered shot 160 men, all political prisoners, incarcerated in the government's prisons. General Oscar, governor of Port au Prince complied with the order. The ex-president sought refuge in the French legation and General Oscar fled to the

Dominican house. Both were later brought from their hiding places and killed by the infuriated mob. Rear Admiral Caperton of the U. S. navy, with subunits, is now at the scene of the disturbance, where one of the fiercest revolutions yet seen in the black republic is in progress.

U. S. COMPANY TO GET \$22,000,000 FOR GUNS

NEW YORK, Aug. 2.—Announcement was made today by the Westinghouse Electric Company of the receipt of a further large order for war supplies. It was understood that the order called for 500,000 rifles for foreign governments, and that the company also had an option on 200,000 additional rifles. The amount involved in the contract could not be ascertained, although the last previous order is said to have been at \$27.50 per rifle.
