ATLANTIC BATTLESHIPS ARE AT PANAMA FAIR

SAN FRANCISCO, Aug. 2.—The 450 Annapolis midshipmen aboard the naval academy squadron, the battleships Missouri, Ohio and Wisconsin, officially signalled their arrival in San Francisco when the guns of the three war dogs roared out a salute to Rear Admiral Chas. F. Pond, commanding the Pacific squadron, anchored off the Panama-Pacific exposition.

Rear Admiral William F. Fullam brought the three battleships in through the Golden Gate early Sunday after completing a 5500 mile voyage in three weeks from the Atlantic coast by way of the Panama canal. These were the first battleships to pass through the canal.

Commander Charles F. Preston of the Missouri, the flagship, Commander Frederick A. Traut of the Wisconsin, Commander John T. Tompkins of the Ohio and Admiral Fullam were welcomed by Lieutenant Clark Woodward, Captain Philip Andrews and other naval officials.

No sooner had the squadron circled Alcatraz island and joined the line of five other battleships anchored off the Marina, than the ships were surrounded by scores of launches and excursion boats. Many of the midshipmen were allowed to go ashore during the afternoon to catch their first glimpse of Jewel city.

The midshipmen will enter into the exposition program of events immediately.

Payroll at Mines Larger.

WALLACE, Idaho, Aug. 2.—Despite the closing down of the Hercules mine, the mammoth lead producer of the world, in May, the payroll of the Coeur d'Alene is showing a constant increase. Many new prospects have been reopened and nearly 500 men employed since July 1.

Five prospects joined the ranks of smaller producers last week, each shipper from 150 to 100 tons of ore per month to the smelters. Mine accidents are fewer this year than ever before, according to a semi-official report being prepared by representatives of the large producing companies.

RECALL IS UNDERWAY AGAINST POLK OFFICIALS

DALLAS, Ore., July 31.—Charging favoritism, extravagance and violations of law, the recall petitions against the Polk county court are now in circulation in the county and are being signed by a large number of voters. The movement is directed against J. B. Teal, county judge, and both commissioners, C. W. Becket and George A. Wells.

County Surveyor Canfield and Councilman Westover of Dallas, have admitted that they are among those behind the movement. Mr. Westover recently bitterly attacked the county court, in a meeting of the city council. The charges contained in the petition are as follows:

The expenditure for road purposes during 1914 of \$21,397.75 in excess of the amount which lawfully could be

A TWO NAME NOTE

Banks regard the "two name note" as an excellent form of security.

In much the same way a standard trade marked product sold through a reputable dealer offers this same form of security to the purchaser.

Two names are behind it.

The dealer is always ready to make good and the manufacturer is equally anxious to support his good name.

Loss to purchasers is impossible.

Look over this newspaper for the names of standard articles and the dealers who sell them.

\$500 POLICE DOG NOW IS OF NO USE

His Trainer Says He Was Ruined by Publicity.

DETROIT, July 31.—Patrolman Thomas Harper, whose police duties consist in training up Franz, the new \$500 crime hound, in the way crime hounds should go, is pretty mad about some unfavorable publicity given his canine charge a few days ago.

Some smart reporter wrote a piece about Bum, the decrepit old favorite of Central precinct, rising in his dotage, leaping on Franz and smiting him snout and paw. The reporter intimated that Bum ought to be muzzled or he would use Franz as a cereal some morning. And the editor put it right in the paper.

"It's not Bum, but the press that ought to be muzzled," quoth Harper, his voice tremulous with indignation. "These papers go too far. They ought to be stopped. This story about Franz getting licked by an old dog suffering from rheumatism and gout has destroyed Franz' use in the department. Nobody pays any attention to him any more. He's practically useless. It's a pity such a report was circulated."

"All this talk about the liberty of the press is all right, but I tell you there's such a thing as going too far. I have \$50 to bet that Franz can lick Bum any time he wants to. If I hadn't called Franz off the other day he would have killed Bum. Franz is the It's a shame that such stories have to be circulated about that dog."

What makes Harper mad is the fact that huns who decorate the benches in the downtown parks no longer have respect for Franz since reading the story of his downfall at the hands of Bum. Since Franz joined the force there have been no criminals to pursue but he has been practicing on the

lads in the parks. They were wont to flee when they saw Franz and his trainer amble along. Now they don't move. Instead they sit still and make remarks not at all complimentary to Franz. The other night a vagrant called Franz a piece of cheese. Another man laughed right in his face.

All of this is very insulting, but Franz doesn't seem to care. But Officer Harper is ripping mad.

Fort Smith's Last Wet Day.

FORT SMITH, Ark., July 31.—Fort Smith today is "stocking up" with liquor and taking its last drinks in the local saloons. The city becomes "dry" tonight at the expiration of the saloon licenses. Though the state-wide prohibition law does not become effective until Dec. 31, Fort Smith's saloonkeepers are compelled to quit business at midnight because saloon licenses are issued for one year. Many saloons sold liquor at cut prices to get rid of the stock which will be contraband after midnight.

THE HURTFUL TRUTH.

George, how do you like the new shade I've had my hair done?"
"Well, my dear," George began, "to tell you the truth—"
"Stop right there, George," his wife interrupted. "Stop right where you are. When you begin like that I don't want to hear you."—Washington Post.
