SAN FRANCISCO, Aug. 10.—Details of irrigation systems, new problems and tests of theories will be brought before the 23d International Irrigation Congress, which it was announced will be held at Stockton, Fresno, Sacramento and San Francisco, beginning September 13, and continue in session at each of the first three cities two days, and conclude September 20 at San Francisco.

The official call for the congress says the original purpose of the organization, the establishment of an irrigation policy by the government, having been accomplished, attention must be given to "establishing on the land the family which will remain there and prosper." The call was signed by Arthur Hooker, secretary, of Sacramento.

Delegates have been appointed by nearly every state, and representatives of several foreign nations have been invited. Governors of several states will address the congress at the San Francisco meeting, which will be held at the Panama-Pacific exposition.

### Great Old Remedy For Skin Diseases

**S. S. S. Clears Skin of Eruptions Drives Poison From the System.**

Get it fixed in your mind that skin eruptions, Scrofula, Eczema, burning itching skin, and all skin diseases are due entirely to impure and infected blood. If the trouble was on the outside of the skin, by simply washing and keeping it clean you could obtain relief—not even ointments, lotions, and salves, would be necessary. Agree with us in this belief, and your trouble can be relieved—you can be entirely restored to health. S. S. S. is a purely vegetable treatment that you can secure from your own druggist—it is a blood tonic that will purify your blood and cause a most decided statement of your trouble, and finally make you entirely well. Fifty years ago S. S. S. was discovered and given to suffering mankind. During this period it has proven its remarkable curative properties as a blood purifier and tonic, and has relieved thousands of cases of disease caused by poor or impure blood, and chronic or inherited blood diseases. You can be relieved, but you must take S. S. S. Take it if only pimples appear, for they denote bad blood, and may be followed by the sufferings from torturing skin eruptions. Therefore be sure. Don't take chances, don't use lotions. Get S. S. S. from your druggist. If yours is a special case, write for expert medical advice to S. S. S. Co., Atlanta, Ga.

### Area of National Forest is Reduced by 5 Million Acres

PORTLAND, Ore., Aug. 11.—The area of the Chugach forest is reduced by over five million acres, according to advice just received. Eliminated area includes glaciers and other areas of little practical timber value, originally included in forest on account of the uncertainty of exact location of valuable timber lands. Present boundaries of the Chugach forest which includes now eight million acres, said to include a large body of timber to be used in developing whole region of northern Alaska.

Word has just been received in the office of the district forester that the president has approved the recommendation of the forest service changing the boundaries of the Chugach national forest in Alaska by proclamation of August 2. The new proclamation effects an elimination of 5,801,574 acres of land and 681,094 acres of water. The forest boundary lines were changed not only by making eliminations but by making three small additions to the Chugach forest. One occurs on the Kenai Peninsula, north of the city of Seward, another in the Puget Bay region and the third Okalee Spit and other small areas in that vicinity. These additions were made in order to include good body of timber and to make workable administrative boundary lines.

The lands eliminated consist mainly of glaciated mountains and muskeg areas of practically no forest value but which were originally included within the national forest because of the uncertainty which existed as to the location and extent of the timbered areas and in order to establish a boundary that could be more easily described and administered.

The total area of the Chugach forest is now approximately 2,817,959 acres of land and 2,958,973 acres of water, making a total of 5,776,932 acres. The present proclamation, it is stated, puts the boundary lines of the Chugach forest about where they belong. This forest is one of the largest and most valuable bodies of timber of merchantable size to be found anywhere on the globe north of sixty degree latitude. Owing to the more rigorous climate, the timber is smaller in size and yield than, for instance, in the forests of south-eastern Alaska. However, it runs from 2500 to 5000 feet per acre, and in some places as high as 20,000 to 25,000 feet. The total amount of timber now in the forest is reported to be about eight billion feet on a conservative estimate, and it is believed that this body of timber will be the principal and most accessible source of lumber for the development of the entire vast region of northern Alaska. From these forests, the interior country must draw its supply of structure timber in the future. This timber is even now used locally, 196 timber sales having been consummated since 1907, involving over 17,000,000 feet, B. M., in addition to the large amount which has been supplied free to local settlers, prospectors, fishermen and others. Exclusive of the panhandle, the area of Alaska is about 2000,000 acres, less than two per cent of which is to be retained within the Chugach national forest to supply timber for this vast region.

The forest will be drawn upon immediately for railroad construction by cooperation between the forest service and the Alaskan railroad commission, the timber being supplied free of charge to the Alaskan railroad as authorized by congress.

### SPORTS SEEKS, BOUT HERE

Al Mosler, whose picture appears above, is now in this parts and is on the trail of Billy Farrell asking for a bout in the near future. Mosler comes from Salt Lake but has fought most of his battles around Milwaukee. Promoter Urquhart of Athens declares he is a fast and clever boy and will give Farrell a man's job if they go into the ring together.

### Fee Qualifies as 3d Best Athlete

SAN FRANCISCO, Aug. 11.—A. N. Richards, of the Illinois Athletic Club, won the distinction of being the best all-around athlete of the United States by placing first in the decathlon, which was staged Monday and Tuesday on the stadium of the Panama-Pacific Exposition. C. L. Brundage of the Chicago Athletic association was second, and Chester Fee, of the Multnomah Athletic Club of Portland placed third.

Following are the scores of leading athletes who finished:

A. N. Richards, Illinois A. C. 858.81  
C. A. Brundage, Chicago A. C. 846.24  
Chester Fee, Multnomah A. C., Portland ..... 844.21  
Goeltz, Chicago A. C. .... 842.14  
P. F. O'Connor, Irish-American A. C. (New York) ..... 804.54  
Fred C. Thomson, Los Angeles A. C. .... 804.23  
John Jacobs, Oklahoma Univ. 5767.02  
A. H. Hutchinson, Ill. A. C. .... 5567.15

**Sixteen in Competition.**  
Sixteen men started in the competition Tuesday, many dropping out when they saw that they had no chance of winning. As indicated by the closeness of the scores, the ratings of many of the competitors could not be determined until the last event had been decided, so that the competition was keen throughout.

Richards won by good, consistent work. At no time did he place below ninth in any event, and took one first place and three seconds. His poorest efforts were the javelin and in the 1500-meter run. Brundage did not drop below sixth place at any time, and had a majority of fourths and fives places to his credit.

Chester Fee is credited with three wins, the greatest number taken by any of the competitors, but he was so closely pressed in these events that the margin of difference in the scores did not aid him materially.

THE BIG GAME HUNTER PROVES THAT HE KNOWS THE REAL TOBACCO CHEW.

A SURE SHOT USES THE REAL TOBACCO CHEW. I SEE YOU HAVE IT.

IT'S THE ONLY AMMUNITION I EVER USE.

**ALL around you, men are talking about it. You, yourself, are probably telling your friends about the Real Tobacco Chew.**

No user wants to see his friends go without it because it gives a man real tobacco satisfaction and comfort.

A little chew of pure, rich, mellow tobacco—seasoned and sweetened just enough—cuts out so much of the grinding and spitting.

**THE REAL TOBACCO CHEW IS NOW CUT TWO WAYS!!**  
W-B CUT IS LONG SHRED. RIGHT-CUT IS SHORT SHRED.

Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tobacco. Just take a nibble of it until you find the strength chew that suits you, then see how easily and evenly the real tobacco taste comes, how it satisfies, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is the Real Tobacco Chew. That's why it costs less in the end.

The taste of pure, rich tobacco does not need to be covered up. An excess of licorice and sweetening makes you spit too much.

One small chew takes the place of two big chews of the old kind.

**Notice how the salt brings out the rich tobacco taste.**

**Sex Frankness Opposed.**  
EUGENE, Ore., Aug. 11.—Advocates of frankness in sex hygiene matters were trampled upon by G. Stanley Hall, president of Clark University, and an authority in psychology and adolescence. His subject was "Psychology of Feeling," under which he advocated the fullest expression of the emotions.

These included the emotions of fear and anger, pleasure and pain, and love and fear of death. He declared that efficient men need enemies and that the man without an enemy lacks character.

"Anger is the outcropping of aggressiveness," he said. "The greatest happiness comes to those who live a full life, and the happiest man avoids repression."

He "sincerely hoped that over frankness in sex instruction will not become general," and he believes in sex concealment, for the reason that these instincts can be transmitted in nobler forms. He declares religion arises from the same primary instinct and he asserts that the bible is primarily a love story and one of eugenics.

**Turkish Tension Greater.**  
ROME, Aug. 11.—The tension between Italy and Turkey is declared to be becoming more acute daily. Italy is said to have asked for categorical explanations concerning Turkey's refusal to withdraw its troops from the Smyrna district in Tripoli and Turkey is pursuing what is described as its usual policy of procrastination.

In official circles here the feeling is held that hostilities on the part of Italy against the sultan may commence at any moment.
