

Only Two More Days of My August Clean-Up Sale is Left

Gen. G. O. Farther

I told The Peoples Warehouse when I started this sale that it would be a hummer and I was right. I have done all and more than I agreed to and for extra full measure I am going to make Friday and Saturday the biggest days of the sale, and I am asking you personally to come and help boost the sales.

I'll pay you mighty well for your time by giving you the biggest bargains of the season.

Monroe Street to be Graded

Monroe street, north of Jackson, is to be graded at once, the city council last evening having accepted a proposition from property owners to secure this improvement. The city will establish the grades and the property owners will pay for the grading. The proposition was submitted in a petition signed by J. E. Mullinix and George A. Hartman.

An ordinance was passed last evening providing that all sidewalks built on the west side of Cottonwood street between Webb and Railroad shall be at least ten feet wide.

Upon motion by Councilman Montgomery, a warrant for \$300 was ordered drawn in favor of the Civic Club to assist in the maintenance of the parks during the summer. The appropriation was made several months ago.

The revised plat of Irvington Heights, showing the streets as they are now laid out, was adopted at the meeting. An application from C. P. Strain for the establishment of grades on South Lilloeth street was acted upon favorably.

U. S. AGREES TO TAKE PAYMENT FOR THE FRYE

WASHINGTON, Aug. 12.—The American reply to the last German note regarding the sinking of the American ship William P. Frye was cabled to Berlin and probably will be given out for publication Saturday.

While the original position of the state department that the Prussian-American treaty of 1823 was violated by the destruction of the vessel is reaffirmed, it is understood that the United States now agrees to accept payment for the Frye under the condition suggested in the last German note, obviating an appeal to arbitration at The Hague.

Treaty Rights Not Waived.
Germany stipulates that payment shall not involve admission of a treaty violation; the American note is said to stipulate that no treaty rights are waived by acceptance. The amount to be paid will be fixed by two commissions, one appointed by each government.

The German position, as outlined in the last note, is that payment of indemnity for ships destroyed is all that the treaty contemplates. The United States contends that any American ship, even if laden with contraband, is protected from destruction by article 13 of the treaty, although it is not contended that a contraband cargo would be so protected.

German View Rejected.
Germany has held that since the sinking of ships is not specifically

FRENCH APPOINT NEW HEAD AT DARDANELLES

GEN. MAURICE SARRAIL.
PARIS, Aug. 12.—General Sarrail, who at the outbreak of the war was in command of the Sixth army corps at Chalons-sur-Marne, has been named commander of the French forces at the Dardanelles to succeed General Gouraud. General Sarrail is 55 years old. He won distinction with the foreign legion in Algeria. General Gouraud was appointed to head the Dardanelles forces in May. On July 3 it was announced that he was wounded and the amputation of an arm was necessary to save his life.

Olympia Lighted Again.
OLYMPIA, Wash., Aug. 12.—Children of Olympia sat up, rubbed their eyes and blinked when they observed the sputtering of newly lighted street lights, which have been turned off since the legislature adjourned last March, but which were ordered turned on again.

Hikers Leave Hood River.
HOOD RIVER, Ore., Aug. 12.—Could a pioneer have seen the party of hikers who left this city bound down the Columbia river highway, he might have been made to recall the days of the prairie schooner and the trip across the plains. Estee Brouss, seated on heaped-up baggage in a one-horse wagon, led the pilgrims.

The following pedestrians brought up the rear: Mr. and Mrs. C. H. Henny and Louis J. Bronaugh, of Portland; Misses Kitty and Frances Bragg, Miss Florence Brouss, Ray and Lester Murphy and Jack Stanton of this city.

After a week or two of leisurely hiking they will reach Portland.

Man Trained 200 Miles Arrested.
NORTH YAKIMA, Wash., Aug. 12, Benton county is asked to turn over William Stone, who was arrested on a charge of horse stealing just as a Yakima officer arrived after trailing the fugitive more than 200 miles.

Oil Ship Is Released.
WASHINGTON, Aug. 12.—The American steamer Llama, one of two Standard Oil ships taken by German submarines to Swinemunde to a dispatch to the state department from Ambassador Gerard at Berlin.

The dispatch does not say whether the Llama's cargo of petroleum was detained and makes no mention of the steamer Wico, taken with her.

NO HOPE.
The telephone on Jimson's desk tinkled. They always tinkle at the opening of stories like this.

As Jimson listened to the message that came over the wire, a look of blank incredulity overpread his features.

"Heavens," he cried, "It isn't possible."

Assurance evidently came through the instrument that something was possible.

"But, man you're crazy, such a thing hasn't been done for years!"

Let's hold the receiver to our own ears for an instant.

"I tell you I have it right here on my desk, I've sent down to police headquarters for a man to guard it until I can get a safe deposit box."

Jimson mused for a space of two or three minutes. Then:

"You are sure it has the regulation covers, is printed from type on white paper, with half-tone illustrations?"

"Positive," came the reply.

Jimson finally hung up the receiver and turned to his visitor.

"Strange," he muttered, "That poor nut thinks he has found a copy of an illustrated paper without a picture of Mr. and Mrs. Vernon Castle."

—Puck.

Gas Dispeller Simple.
PARIS, Aug. 12.—Hiram Maxim is credited by the London correspondent of the Petit Parisien with having invented a simple and inexpensive contrivance to protect soldiers from the effects of deadly gases employed in battle.

This device is designed to cause the gases to rise and pass over the heads of the men against whom they are directed.

Sand Point Has Big Fire.
SAND POINT, Idaho, Aug. 12.—The Idaho Match Block works near here, sustained a loss by fire amounting to \$70,000. The plant was not damaged, the loss being confined to 3,500,000 feet of selected white pine. A change in the direction of the wind saved 1,000,000 feet in another yard from being burned. The pine, which is used for match sticks, is valued at \$20 a thousand feet.

Fire Rages Near Chehalis.
CHEHALIS, Wash., Aug. 12.—A big forest fire is burning in the Chester Snow Log & Shingle company timber west and south of Chehalis. The fire wardens are fighting the blaze.

Fire started when a bee hunter chopped down a tree and set it on fire to kill the bees. The fire got the wind control and spread into the timber.

Held for Dynamite Plot.
HELLINGHAM, Wash., Aug. 12.—Joe Burke, 35, and Frank McLain, 49, are under arrest here in connection with a plot to blow up industrial plants to drive Japanese labor out of the country. They are also believed to be implicated in the attempted dynamiting of the Blaine reservoir recently. Sheriff Stewart, who made the arrests, says he has collected damaging evidence against them.

Peace Offer Rejected.
LONDON, Aug. 12.—Reuter's correspondent at Petrograd transmits the following:
"The Bessie Gazette learns from an unimpeachable source that the German emperor made an offer of peace to Russia last week through the king of Denmark. The answer to the king said that the question of negotiations could not be raised at the present time."

Wardly Indictment Abolished.
LONDON, Aug. 12.—A bill passed by Parliament abolishes the time-honored wardly indictment against prisoners, which, in the form of a parchment scroll frequently 12 feet long, has for many generations been a feature of the British criminal courts.

The bill requires that a prisoner shall be charged in few and simple words on printed paper, not parchment, not larger than a foot square.

Pass Road Contract Held Unfair.
NORTH YAKIMA, Aug. 12.—Yakima county charges that the state did not deal fairly in the McClellan Pass road contract. In order that the entire state appropriation of \$57,000 might be used, the county undertook the engineering work, expended near-

ly \$1000 and agreed to spend \$10,000 on the highway. The state has let a contract for only 14, instead of the 29 miles or more surveyed, costing only \$27,000.

Insurance Men Arrested.
NORTH YAKIMA, Wash., Aug. 12.—Frank Keller, Sr., and his son, Frank, were arrested in Seattle on a charge of rebating on life insurance premiums paid a Texas company. The complaint was made here by F. T. Houghton of the state insurance department. Mr. Houghton left to suffer with the head of the department regarding further charges against prominent men who are said to have assisted the Kellers in getting business for a share of the premiums.

Estate Given to Schools.
CHICAGO, Aug. 12.—The bulk of the \$1,850,000 estate left by John B. Landgren, late vice-president of the State Bank of Chicago, will go to religious and educational institutions, according to his will, which was approved in court.

Among the beneficiaries are North-western University, Evanston, Ill., the German Missionary Society and the Chicago Home Missionary and Church Extension Society.

The widow, who renounced her dower rights, and a daughter receive annuities of \$15,000 and \$5000, respectively and certain specific bequests.
