COTTON EXPORTS OF U. S. IN WAR TIMES GREATER THAN 1914

FIRST FIVE MONTHS OF CONFLICT IN EUROPE SEES IMMENSE SALES.

Since War Began Much Discussion of Cotton Crop Has Been Taking Place Without Full Knowledge of the Facts—Exports of Ensuing Months Will Be Even Larger.

WASHINGTON, Aug. 12.—Contrary to general belief, our cotton exports for the first five months of 1915 (war time), exceeded exports for the corresponding period in 1914 (peace time).

Since war began much discussion of the cotton crop has been and is taking place without full knowledge of the facts, which are:

The 1914 crop was 15,873,000 bales, with 1,328,860 bales left from 1913 and 363,460 bales imported, making a total visible supply of 17,509,600 bales on hand. June 1, 1915, 12,582,000 bales had been exported or used here, leaving 4,947,000 bales.

The total bales exported from Aug. 1, 1914, to June 1, 1915, is 868,000 bales less than for the same period of 1913; but for the first five months of this year 5,180,363 bales were exported as compared with 3,139,987 in the same period of 1914.

It seems likely the exports for the ensuing months will be even greater. During the last few weeks principal factors affecting the Liverpool cotton market seem to be the following:

(a) Abundant stocks at Liverpool and elsewhere.

(b) Deliveries at Liverpool in excess of speculative contracts.

(c) The lack of full revival of normal trade conditions in manufactured products.

(d) The good condition reported for the new cotton crop in the south. (The cotton acreage has not yet been reported.)

Minor factors which seem to have affected the Liverpool and other cotton markets are:

(a) Uncertainty as to the duration of present conditions.

(b) The quantity and disposition of prize cotton in England.

(c) The entrance of Italy into the war.

(d) The disturbance of shipping both of belligerent and neutral countries.

The domestic consumption of cotton has been about as much as was anticipated, the export of cotton much larger than was anticipated, and the price received higher than most people would have been willing to predict last fall.

A system of accounts for small farmers' co-operative selling organizations has been worked out and may be obtained on request from the department of agriculture.

Half a million free injections of tubercin for cattle are sent out annually by the department of agriculture. Any county, city or state may obtain a supply free by promising to report to the government the result of its use.

Powdered hellebore mixed with water and sprinkled in and around garbage cans and like places where the larvae is deposited, will keep millions of houseflies from hatching, says the department of agriculture. Hellebore is cheap and does not endanger livestock or crops.

THE BLOW THAT LANDED. Mrs. Scads (five seasons) vs. Mrs. Gotlots (nine seasons). Three-round bout in popular cafe.

Mrs. Scads enters, looking fresh and well under three seconds. She is accompanied by three seconds.

Mrs. Gotlots follows. She looks a bit overtrained. She has two seconds and a Dalmatian.

They take corner tables. Odds of 3 to 2 are offered on Mrs. Scads. Their eyes meet.

Round 1. Mrs. Scads spars for position. She supports chin on right hand, showing seven diamonds. Mrs. Gotlots rests in easy position, with left hand toward chandelier, showing 12 diamonds. Mrs. Gotlots exposes left thumb, with large diamond. Round ends without advantage.

Round 2. Mrs. Gotlots opens with a rush, with sunburst flashing. Mrs. Scads swings out black pearl necklace, at same time bringing left hand, with 18 jewels, to view. Mrs. Gotlots comes back with gold fan, set with 28 gems, carelessly on edge of table. Mrs. Scads spars for time. Round slightly in Mrs. Gotlots' favor.

Round 3. Mrs. Scads shows solid gold shoe buckles with 12 jewels. Mrs. Gotlots caresses Dalmatian, bringing jeweled collar in sight. Salvation Army lassie enters. Mrs. Scads opens purse and gives girl a quarter. Mrs. Gotlots faints and is carried out. Some talk of a foul, but bets are declared good.—Puck.

Power Site Fight Ends.

OLYMPIA, Wash., Aug. 12.—The city of Seattle has lost its fight for the overflow rights for a power site on the Skokomish river, near Lake Cushman, wanted to develop auxiliary power for the city's municipal service. The state land commission has granted the overflow rights to George H. Tilden of Seattle against whom Seattle must bring condemnation proceedings if it wants to build the plant. The grant ends a three-year fight.

Bullet in Brain a Week.

LOS ANGELES, Aug. 10.—After living a week with a bullet wound in her brain, Mrs. Violet Norris is dead. From the instant she fired the shot with suicidal intent, Mrs. Norris was conscious only one minute.

LORD HIGH ADMIRAL OF THE BRITISH NAVY

Admiral Jackson

This is the first posed photograph of Admiral Jackson, who succeeded Lord Fisher as Lord High Admiral of the British navy at the time of the political crisis when there was a shake-up in the cabinet.

prohibited in the treaty principles of international law must govern each case, the treaty being satisfied by payment. The new American note is understood to reject this view.

A German prize court in July held the Berlin government liable under treaty for payment for the Frye. The amount was not fixed, as the United States had entered no specific claim for damages.

Wood Used in Explosive.

LONDON, Aug. 12.—Details of a new process developed by German chemists for the utilization of wood pulp as a substitute for cotton in the manufacture of explosives are given by the Chronicle, which says the substitute is being used successfully at three large factories in Mannheim.

The great difficulty in using wood pulp, according to the Chronicle, was the necessity of removing all impurities such as resin and oxycellulose. The process in its early stages is the same as in the manufacture of paper. Wood is ground, cooked, changed into liquid form, then carefully cleaned by the new process and rolled into sheets. Then it is ready for the process of nitration, which converts it into a high explosive.

The timber used is chiefly ash, pine and birch. For some purposes, says the Chronicle's informant, the new explosive is even more effective than that made with cotton.

Train Has "Hoodoo" Day.

COTTAGE GROVE, Ore., Aug. 12.—Last Thursday was hoodoo day on the Oregon, Pacific & Eastern Railway. Three accidents happened on that day during the trip from here to Bujada and return.

Just the other side of the Walden bridge a Greek, who had been working at Bujada and was coming into the city on a hand car, ran into the Oregon, Pacific & Eastern engine head-on. He apparently had not seen the train at all. Man and car were thrown off the track. The man was not injured and the train did not stop. At Wildwood a cow duplicated the performance of the handcar, and its life was the price paid. The train did not stop.

The third accident was the breaking of one of the springs on the engine. The train did not stop for this either, and the round trip was completed without further accident.

Aerial Attacks on Riga.

PETROGRAD, Aug. 12.—A Zeppelin bombarded Fort Ust-Dvinsk, at the mouth of the Gulf of Riga.

German aeroplanes are attacking Riga daily.

Cut This Out—It Is Worth Money

Cut out this advertisement, enclose 5 cents to Foley & Co., 2535 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing:

(1) Foley's Honey and Tar Compound, the standard family remedy for coughs, colds, croup, whooping cough, tightness and soreness in chest, grippe and bronchial coughs.

(2) Foley Kidney Pills, for overworked and disordered kidneys and bladder ailments, pain in sides and back due to kidney trouble, sore muscles, stiff joints, backache and rheumatism.

Sold Everywhere.

Safe Milk for Infants and Invalids HORLICK'S THE ORIGINAL MALTED MILK The Food-Drink for all Ages Rich milk, malted grain, in powder form. For infants, invalids and growing children. Pure nutrition, upbuilding for whole body. Invigorates nursing mothers and the aged. More healthful than tea or coffee. Unless you say "HORLICK'S" you may get a substitute.

ALLIES MAKING BIG GAINS IN FIGHTING AGAINST THE TURKS

AREA HELD BY ONE LINE HAS BEEN TREBLED DECLARES REPORTS.

50,000 Men Are Landed at One Point—British Commander Reports Victory in Hard Battle—Casualties Are Heavy—French Battleship Silences Guns in Shore Battery.

LONDON, Aug. 12.—General Sir Ian Hamilton reports from the Dardanelles that the area held by the entente allies in the Anzac zone on the Gallipoli Peninsula has been nearly trebled. Five out of six guns in the Turkish Asiatic batteries are reported to have been put out of action by the French battleship St. Louis.

The announcements were made in an official statement given out which read:

"The latest report from Sir Ian Hamilton says that severe fighting continued yesterday in the Gallipoli Peninsula, mainly in the Anzac zone and in that to the north. The positions occupied were slightly arched in places, but the general result is that the area held at Anzac has been nearly trebled owing chiefly to the gallantry and dash of the Australian and New Zealand army corps.

"While to the north no further progress has yet been made, the troops have inflicted heavy losses on enemy, and the French battleship St. Louis is said to have put out of action five out of six guns in the Asiatic batteries."

CONSTANTINOPLE, via London, Aug. 12.—The following official communication was issued:

"On August 9 we again repulsed an attack by the enemy north of Ari Burnu, inflicting heavy losses on them.

"More to the north we drove the enemy back by a vigorous attack, making prisoners of four officers and 50 men and capturing two machine guns, a quantity of arms and telegraphic and telephonic apparatus.

"Near Ari Burnu, on our left wing, we captured by a bayonet attack part of our trenches, which of late had been occupied by the enemy.

"At Seddul-Bahr, we occupied on the left wing the greater part of a trench situated in an isolated position between ourselves and the enemy."

Berlin Says Bombs Hit.

BERLIN, via wireless to Sayville, N. Y., Aug. 12.—The German airships which raided the east coast of England Monday night and early Tuesday morning, bombarded, with good results, warships on the Thames, the London docks, torpedo boats near

ALEXANDERS

Harwich and buildings on the Humber, according to an official communication issued by the admiralty.

The communication says:

"On the night of August 9-10 German airships attacked fortified places and harbors on the English East Coast.

"In spite of a strong defense, British warships on the Thames and the London dock, torpedo boats at a point near Harwich and important constructions of the Humber were bombarded. It was observed that the shots were good.

"The airships returned from the successful expedition."

Way to Altar Is Rocky.

WALLA WALLA, Wash., Aug. 12.—Carl J. Edward of Wallula, married Miss Margaret LaFou, of Colfax, after several railroad trips and overcoming many obstacles.

He came in Saturday for the license and found he must return home to obtain his mother's consent, as he is a minor. When he appeared with her consent he learned that the presence of the bride was necessary. He caught the train for Colfax and returned yesterday with the girl. When they arrived before the minister a de-

fect was found in the license, which caused another trip to the Auditor's office.

Rates Are Confirmed.

WASHINGTON, Aug. 12.—The Interstate Commerce commission in a second decision concerning the request of the western railroads for a 20 per cent general increase in freight rates, confirmed the increase in some rates but not all. Most of the rates are increased. The ruling will go into effect not later than September 20.

GET RID OF HUMORS AND AVOID SICKNESS

Humors in the blood cause internal derangements that affect the whole system, as well as pimples, boils and other eruptions, and are responsible for the readiness with which many people contract disease.

For forty years Hood's Sarsaparilla has been more successful than any other medicine in expelling humors and removing their inward and outward effects. Get Hood's. No other medicine acts like it.

SHELLS WASTED TRYING TO DISLODGE FRENCH

PARIS, Aug. 12.—Half a million shells have been wasted by the German crown prince's army in the past three days in a vain effort to storm the French works east of Vienna-Chateau and the French Verdun railway. Thickly wooded slopes have been swept clean of timber by artillery fire. An official communique announced the French positions have held, not only at Verdun but elsewhere in the Argonne region.

RECIPE TO CLEAR A PIMPLY SKIN

PIMPLES ARE IMPURITIES SEEKING AN OUTLET THROUGH SKIN PORES.

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus coaxing them to filter the blood of impurities and clearing the skin of pimples. Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia. Here you have a pleasant, effervescent drink which usually makes pimples disappear; cleanses the blood and is excellent for the kidneys as well.

"TIZ" FOR SORE, TIRED FEET--AH!

"TIZ" IS GRAND FOR ACHING, SWOLLEN, SWEATY, CALLOUSED FEET OR CORNS.

Ah! what relief. No more tired feet; no more burning feet; no more swollen, bad smelling, sweaty feet. No more soreness in corns, callouses, bunions.

No matter what ails your feet or what under the sun you've tried without getting relief, just use "TIZ." "TIZ" is the only remedy that draws out all the poisonous exudations which puff up the feet. "TIZ" cures your foot trouble so you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never, never hurt or get sore and swollen. Think of it, no more foot misery, no more agony from corns, callouses or bunions.

Get a 25 cent box at any drug store or department store and get instant relief. Wear smaller shoes. Just once try "TIZ." Get a whole year's foot comfort for only 25 cents. Think of it.

MARRIES NEW YORK BARON IN PARIS

BARONESS DE WARDENER

PARIS, Aug. 12.—Baron Maxwell de Wardener, of New York, and Mile Beula Antoinette Mercier, daughter of an officer in the Legion of Honor and head of the largest French decorator's establishment, were married here.

The two met when the wealthy baron, whose mother was an American, came to Paris with the American ambulance corps. Later he became an interpreter with the British ambulance service and the romance continued, culminating in marriage.

Baron de Wardener is the son of Baron Rudolph de Wardener, who was the son of Field Marshal August de Wardener of Austria. Baron Rudolph married Miss Gabrielle Saporita, a very beautiful woman being longed to one of the oldest New York families.

Baron Rudolph was born in Austria and educated at a military academy. He fought in the battles of Magenta and Solferino, going to America at the outbreak of the civil war and enlisting in the union army. He later became an American citizen.
