

Join the Jitney Club

10c down and 10c additional each week until your watch is paid for. You carry the watch while you are paying for it.

There is to be but 25 members in the club. You choose any watch that you wish. Any man, woman or child in Pendleton can own a watch on the Jitney plan.

"Goodbye Tin Watch"

Those are the words used by the first man who joined our Jitney watch club yesterday. He aimed at the waste-paper basket with his tin watch and with all the pride which he had pent up for years he pocketed his gold timepiece and went forth a proud man.

"I have always wanted a good watch," he said, "but I never thought I could stand the pressure."

The Jitney club made it possible for Mr. Denning to get a new watch and he won't have to blush with shame when he consults his time-piece before his friends.

Come in and let us explain the Jitney plan to you.

Newsy Notes of Pendleton

Undergoes Operation.

Ernest Briggs of this city underwent an operation at St. Anthony's hospital this morning. The operation was of a minor nature.

Marriage License Issued.

A marriage license was issued yesterday to Percy G. Ripper and Oris Laughery. The bride is under 16 years and her parents consent was necessary.

Laundry Employees Invited.

Manager Frank Downey of the Cozy theater has invited the employees of the Domestic and Troy laundries to be his guests today at the exhibition of the Keystone comedy, "Dirty Work at the Laundry."

One Less Battlehawk.

While returning from Bingham Springs Sunday in his big auto truck, D. B. Waffle killed a large rattler. The snake was coiled in the road and Waffle ran one of the front wheels of the truck squarely over it. It was almost three feet long and had nine rattles.

Bootlegger Gets 20 Days.

Frank McVeigh, the bootlegger arrested yesterday on a charge of selling liquor to Indians, received the usual sentence of 20 or 25 days and is now a member of the street gang. Seven drunks, five of which paid their fines, were in court this morning.

Bertholet Is Back.

Conductor Gus Bertholet, veteran and popular conductor, on the N. P. run between Pendleton and Pasco, brought the forenoon passenger in today for the first time in two months. Mr. and Mrs. Bertholet have been on an extended trip east during which they visited with their son, Frank Bertholet, who is a cadet at West Point. They were there three weeks and enjoyed the visit greatly.

Returned Empty Handed.

Teddy Hauswirth, C. E. Roosevelt and Chris Stangier arrived home on No. 17 today from a two days hunting trip in the mountains near Duncan. They took to the back streets for there was no prouful bulge to their pockets. They found very poor shooting, the birds being both scarce and wild. Reports are that the hunters who went out from Bingham Springs found the best sport of all.

Bowers Wins Rifle.

C. W. Bowers is the proud possessor of a new 30-30 rifle, which he won at a shooting contest Saturday in the Prize Shooting Gallery on Main street, operated by C. Nadeau. Bowers and J. F. Nippo tied with a perfect 50 score and in shooting off the tie each got a 46. In the second shootoff, Bowers scored another 45, while Nippo fell down to 43. Another contest will be put on in the immediate future.

Saw Deer; No Bullets.

Report is brought in that Albert Humphrey met with some luck while out hunting Sunday such as would disgust any nimrod. While looking for grouse and with cartridges loaded only with birdshot, he was confronted with a large buck deer which made as nice a target as a man would want. Humphrey is said to have rushed to camp for bullet-loaded cartridges and to have spent the balance of the day trailing the deer without success.

"There's a Reason."

L. G. Frazier, Fred Earl and Ray Crystal returned yesterday from a grouse hunt on the forks of the Walla Walla river. They had been told by a friend living there that the grouse were plentiful and that hunters very rarely got into that country. They learned the reason for the hunters passing it up. They declare it to be so rough that it is almost impossible to travel and, after a half day of weary climbing they returned to camp. They got 13 birds but they shot every one of them within 200 feet of the road. Yesterday they spent at Bingham Springs.

Hermiston Men Boos Candidate.

A party of prominent Hermiston men, including F. B. Swayze, Carl McNaught, E. P. Dodd and John D. Watson, waited upon County Judge Marsh yesterday to present the name of George Cressy for consideration in the naming of a successor to the late Commissioner H. A. Waterman. Mr. Cressy is a prominent and successful farmer of the project and the Hermiston men feel that he has the highest qualifications for the position of commissioner. They feel, too, that inasmuch as the deceased commissioner lived in their community they are entitled to recognition in the naming of a new man.

Walla Walla "Nar" Unlikely.

That the campaign for a public natatorium similar to Pendleton's which is now being conducted in Walla Walla, will not be successful this year is the statement of prominent residents of that city. The committee in charge proposed a bond issue to raise the \$15,000 or \$20,000 necessary and sentiment does not favor bond issues of any kind there. One resident points out that the city faces a \$25,000 shortage in revenue from liquor licenses next year and must also provide \$25,000 for the extension of the water lines. This with other expenses will increase the taxes five mills, it is said. Equally unfavorable would be a public subscription campaign, such as Pendleton conducted, according to Walla Walla inasmuch as a campaign for money with which to rebuild the Catholic hospital has just terminated.

Vernon At Toppenish. "Buffalo" Vernon, well known Round-up performer, is now at Toppenish with John Spain's bunch and

will go from there to Seattle and later expects to attend the Round-up as a contestant according to a letter just received by Vane Sturdevant, night clerk at the St. George.

Asks for Divorce.

Alleging cruel and inhuman treatment, Ida Isabel Davis of this city today filed suit for divorce against her husband, Elma Floyd Davis of Twin Falls, Idaho, and she asks also that her maiden name of Campbell be restored to her. The couple were married in Salt Lake in 1910 and the complaint charges that her husband began abusing her while drunk within six months. W. M. Peterson is her attorney.

Market Editor is Here.

Hymen H. Cohen, market editor of the Portland Journal, and Mrs. Cohen arrived in Pendleton today in their auto from Heppner and will go on to Walla Walla. He is checking up the grain situation to get an accurate estimate of the 1915 yield.

Deer Hunting is Poor.

Deer hunting is a very discouraging sport these first days of the season, according to reports brought back from the mountains by hunting parties. The files are so bad that the deer keep to the heavy brush where it is hard to find them. Hunters do not expect conditions to improve until after the first frost. W. N. Matlock, J. L. Vaughan, Deputy Sheriff J. H. Estes and Thad T. Sweek, who left Saturday for the brakes around Hightway, returned with a report of having seen only one deer and that an old doe. Tracks were very few, they say. Fred House is reported to have bagged a buck but the report has not been confirmed. The report that Teddy Hauswirth had shot a deer was unfounded. Mr. Hauswirth having been out after grouse only. Asa B. Thomson of Echo is reported to have shot a deer and to have trailed it for miles by its blood but to have failed to overtake it.

IS THIS OLIVER OSBORNE?

H.F. GERRY.

NEW YORK, Aug. 17.—The mysterious "Oliver Osborne," who figured in the suit brought by Rae Tanner against former District Attorney James W. Osborne, is again in the limelight. Several of the parties in the case have identified Herbert F. Gerry, ranchman, private detective, soldier of fortune, and exile from Boston as the missing Oliver. Others say that he bears no resemblance to the missing man, who has been sought after ever since the case was opened.

Gerry got in trouble in Boston while he was operating a detective agency. He was sued for defamation of character and later indicted for grand larceny in November, 1914. He left Boston about the time the mysterious "Oliver" arrived in New York. He is now supposed to be in Idaho. James W. Osborne, who claims to have had a visit from Oliver, says that the picture is not that of "Oliver Osborne."

This big busy store is showing a great many new fall goods.

If you are a Golden Rule shopper you know what a saving you have here. If not, you don't know just how much you are losing. LET US SHOW SOME OF OUR EVERY DAY VALUES.

I. W. W. BLAMED FOR THE DISORDER AT VERA CRUZ

WASHINGTON, Aug. 17.—With the situation on the border comparatively quiet, interest in Mexico again centered upon Vera Cruz and Carranza's expected reply to the Pan-American peace proposal. Although reports from Vera Cruz declared the industrial workers of the world were responsible for the recent anti-American demonstrations there, the administration felt no fear of the outcome. The industrial propaganda, it was stated, lacks the support of Carranza and his advisors. The battleships New Hampshire and Louisiana are expected to reach Vera Cruz tomorrow. The ordering of the vessels to the Mexican port is of no significance, according to the navy department, but it is believed the administration may have had private information which resulted in the cancellation of orders for the battleships to proceed to Guantanamo.
