No Fires in Umatilla Forest.

The Umatilla national forest is enjoying almost absolute freedom from fires this season, according to the local officials, not a single fire of any consequence having occurred within its boundaries. The system of look-out towers, fire finders and telephones combined with the campaign of educating campers against endan-

gering the forests has proved very effective. Supervisor W. W. Cryder has been personally supervising the forestry work during the month, having been absent from his office on a trip over the forest since August 5.

Thermometer Climbs Again.

One degree hotter today than yesterday. So says the official thermometer and the sweating populace will not gainsay it. The mercury this afternoon climbed until it kissed the 102 mark. The weather forecaster promises cooler weather tonight and tomorrow and local prophets declare they await an electrical storm accompanying.

Round-up Horses in Fine Shape.

Word has been brought in that the Round-up bucking stock, which has been kept on the McComas ranch on McKay creek for the past six months, is in fine condition, every horse looking sleek. Livestock Director S. R. Thomson will go after the animals soon and bring them into the Round-up corral to give the finish to their condition. "Angel" and "Rambling Sam," the two outlaws that were lost for two years, are now at the corral and are in perfect trim. The herd of Mexican steers are up in the "Horse Heaven" country of Washington and will also be returned soon. The try-outs of bucking stock will commence about two weeks before the show.

Russian Preferred Gun to Pist.

Tony Cooper, an O-W. R. & N. section foreman is a Russian and he doesn't know much about the American and English art of self-defense. Therefore, after he had suffered once the indignities of a clenched fist full in the face and heard that his assailant was figuring on "prizefighting" him again, he secured for himself a revolver and carried it in his pocket. When the other, whose name is Huff, heard of this he had the Russian arrested for carrying a concealed weapon. A trial was held this morning before Justice of the Peace Parkes. Cooper admitted he carried the gun and admitted it was loaded. He carried it for self-protection only, he said, and was accordingly let off with the minimum fine, \$10.

Pistol in Pieces Not a Weapon.

A revolver is not a concealed weapon when it is in pieces was the theory of Buck Coffee, of Freeewater, Ore., and George Sherman, of North Yakima, who were arrested yesterday by the Salem police. The boys carried a small calibre revolver which they took to pieces upon nearing a town and each carried half of the parts. They did this, they said, so they could not be "pinched" for carrying a concealed weapon. The Salem officers arrested them as suspects however, and will hold them while they communicate with the Washington reform school to find out if they are escapes. Both boys are 17 years old and Young Coffee says his father is A. L. Coffee and resides at Freeewater, and Sherman said his father's name was E. C. Sherman and resided at North Yakima.—Salem Capital Journal.

Runaway Cow Furnishes Fun. CHICAGO, Aug. 24.—A runaway cow entertained the pedestrians in the loop, dodging traffic policemen and passing automobiles. ATLANTA MAYOR CRITICIZED OVER LYNCHING.

MAYOR JAMES G. EDWARD

Mayor James G. Edward of Atlanta has come in for a great deal of adverse criticism for his approval of the lynching of Leo Frank. The following statement was given out by Mayor Woodward before the California State Assessors' Association: "People throughout the United States have obtained their ideas of the Frank case from a poisoned and subsidized press. There is not a member of the jury that tried Leo M. Frank who would change his decision if put to the test again. "Georgia's people cannot be classed
