

Newsy Notes of Pendleton

Fire Chief Granted Vacation.
Fire Chief Ringold was last evening granted a two weeks' vacation dating from September 1. He has been on the job for nine months with only a 12 hour layoff.

Oscar Not Carl Newquist.
An unintentional error on the part of a printer led to the printing of a report yesterday to the effect that a daughter had been born to Mr. and Mrs. Carl Newquist. Mr. and Mrs. Oscar Newquist were the parents.

Milton Stand for Round-up.
The Milton band was yesterday engaged by the Round-up directors to play for the three-day performance. This band is one of the best city bands in the northwest and this will be its first appearance in Pendleton. Large crowds are expected this year out of the Walla Walla valley just as in past years.

Inspecting Septic Tank Site.
Acting Mayor Dyer and several of the councilmen are this afternoon inspecting the proposed site for a septic tank just below the city. The council is now considering installing this tank in the near future for the sanitary disposal of the city sewage. It is believed a site can be secured free of charge in return for the water which will be available for irrigation purposes.

Repeater Gets Ten Days.
A recurrent spree is fatal to liberty as Jacob Kellerer discovered this morning when he was brought into police court for the third time in three days on a charge of being drunk. On the first occasion he paid a five dollar fine but within six hours was in again. He served most of his three day term, was released yesterday and was back in jail again by night. This morning Judge Fitz Gerald gave him ten days in jail without option.

Returns to The Azores.
Domingos H. Costa, who has been in the restaurant business here, left this afternoon for his old home in the Azores Islands where he hopes to recover his health. He had been in the hospital for some time suffering from lung trouble and it is upon the advice of his physician that he is returning to the land of his nativity. He will sail from Boston. He expects to return to this coast when he recovers his health as he has grown to like it during his nine years residence here.

To Extend Cooperation.
The co-operation between the federal forestry service and the officials of the state game service is to be extended even further as a result of a conference between government forestry officials and the state game commission. Marion Jack of this city, one of the commissioners, is to be a member of the special committee to confer farther with the forestry men. In the past years there has been a cooperation between these departments with the result that rangers have acted as rangers in the protection of the forests. Supervisor

50 MILES TO BUY A WATCH ON THE JITNEY PLAN

The old adage, Distance lends enchantment, etc.

It isn't only the man who passes our store everyday who sees the opportunity offered him in buying a watch through the Jitney Club, but from the mountains near Meacham comes one of our customers who heard of the Jitney Club and he thought hard upon the subject of buying a watch on the easy plan.

He wanted a watch. He wanted to select it himself and he wanted to ask if we would sell it to him on the same plan as we do to folks living in Pendleton.

We told him so long as the payments came promptly each week that he could become a member of the club the same as people right here in our town.

He selected a watch and went back home a contented and happy man.

"I live far out" he said, "and need a good watch. I can't depend on a cheap one."

If you need a watch and are not a member of our Jitney Watch Club you should come in at once.

Think of it, a Jitney or so down and a Jitney or so each week.

"THE DEVIL'S DAUGHTER" With Theda Bara at The Pastime Today

Her kiss, is death; her love, red has wrought her spell and filled flame, her oath; That scorches like a white-hot she triumphs to see her fools rot there; But lurks lightning in her eyes The Devil's Daughter takes cruel toll; Where blasted live, like hollow Her blood-red lips are sugared skulls, lies; Lie whitening on the sun-bit sand. That lull her fools in her white arms; Her paths are milestoned wickedly, And mock them in their parting breath; By sunken souls that cry despair; And laugh to see their fell work done; But hers the glance that breathes delight; As cursing, dupes go down to death; The Devil's Daughter, passing fair, death.

We Lead Others Follow

Cryder of the Umattila forest reserve states that his understanding of the extension of the cooperation is that forest supervisors will supervise all of the streams not only in their reserve but in the same vicinity with a view to stocking them with the proper number and variety of fish.

Cowgirl is Coming.
Lola Beach, a cowgirl who was prevented from riding in the contests last year on account of a broken arm, will be here this year. She writes: "We have just returned from a visit to our old home near Kallispell, Montana, and find that even there the people are quite enthusiastic over the Pendleton Round-up."

No Longer Instructor at Pool.
The management of the public natatorium announced today that "Jimmy" Fulton who has been giving private swimming and diving lessons at the pool since its opening, is no longer connected with it. Some friction arose between him and the management resulting in a dissolution of the arrangements made when the pool was first opened.

Prizes for Indians.
W. L. Gadwa, local leather worker, today proved himself a Round-up booster by putting up two prizes for the Indian contingent of the big show. He will put up an appropriate trophy to be awarded to the best mounted Indian and one for the best mounted squaw. Roy T. Bishop, director of Indians, reports there is more interest than ever before in the Round-up among the Indians of the reservation and promises a gorgeous and spectacular turnout.

Attended Bar Meeting.
S. D. Peterson, Milton lawyer, returned this morning from Portland where he attended the joint meeting of the Oregon and Washington bar associations. He states there was a very strong program, two notable addresses being by ex-President Taft and by George H. Turner of Washington. Yesterday the lawyers were taken on a trip over the Columbia Highway. Other lawyers attending the meeting from this county were Judge G. W. Phelps and Will M. Peterson.

Hasn't Learned of Purchase.
Roy T. Bishop of the firm of Bishop Bros stated today that he had not been apprised of the purchase of the Washougal mill. A proposition was made to them, he states, several weeks ago and his brother, C. M. Bishop, left a few days ago for Portland and Washougal. He may have consummated the deal, Mr. Bishop says. The Washougal mills went into the hands of a receiver about three years ago and the Bishops leased them. The principal creditors have compromised their dispute which threatened a long lawsuit and recently offered to sell to the Bishops. Mr. Bishop states that the deal, if put through, includes the millsite and property at Union, Ore., as well as at Washougal.

Vivian Rich in "Peggy Lynn Burglar"

This is an unusually interesting burglar story with Vivian Rich as the star.

MOTOR BOAT BANDITS

Majestic Drama.

"THE MOLLYCODDLE"

A Good Comedy.

"Strathmore" Sunday & Monday

The Alta Theatre TODAY ONLY

Charming and Captivating Marie Doro In her Grestest Triumph

"The Morals of Marcus"

The development of the plot unfolds one of the most delightful love stories that the stage has produced in years. The element of comedy is predominant, but there are many moments of pathos in the play, that effectively prove the truth that all wisdom is folly, save only that which has germinated in trials and sufferings.

TOMORROW: Myrtle Stedman, one of the five most beautiful women on the screen, in "WILD OLIVE."
