Where it Pays to Trade

ENGLAND GOES INTO SECOND YEAR OF WAR WITH ECONOMY IDEAL

SAVING BECOMES NOT ONLY NATIONAL DUTY BUT STRICT NECESSITY.

Government Must Have \$5,000,000,000 a Year to Carry on the Conflict—Premier Asquith Heads Parliamentary War Savings Committee to Promote the Habit.

BY WILBUR S. FORREST (United Press Staff Correspondent.) LONDON, Aug. 19.—(By Mail)—England has entered the second year of war on a strict basis of economy.

Saving is not only a national duty but a bald imperative necessity. The government must have \$5,000,000,000 a year to carry on the war. The government's annual revenue is only \$1,250,000,000. The balance—\$3,750,000,000—must be furnished by the nation—the people.

The answer is: Strict economy—starting right away.

This is the keynote of a stern message to the people from the parliamentary war savings committee, headed by Premier Asquith, Bonar Law and other notables. Assisted by experts on national economy, the committee is telling the people what to save and how to save it.

A booklet for nation-wide distribution, soon to be published by the committee will place the issue before every British citizen, rich and poor, high and low. The language is simple and to the point.

Here is the little problem in arithmetic that the government economists write on the national blackboard for Mr. John Bull:

Eliminate the millions and just suppose that the British government were an every day garden variety of man—John Bull. John has been enjoying a comfortable income of \$11,500 a year. After spending money for household necessities, week-end trips to the seashore and furnishing gasoline for his automobile he has been able to save \$1500 a year. Then suppose, suddenly, he finds himself embroiled in a lawsuit with his aggressive neighbor, Herr Johann Schmidt, of Berlin. To carry on the lawsuit he must spend \$5000 a year. How can he find the money?

He has four alternatives, the government experts say:

1. Sell his investments.
2. Borrow from other people.
3. Draw on money he has in the bank.
4. Save out of the money he usually spends.

But if he employs any of the first three suggestions he will come out of the lawsuit poorer than he went in. There is but one logical suggestion and that is to save—eliminate the luxuries. It means that he'll have to economize, to eat, drink, smoke and dress less expensively; keep fewer servants, travel less, go to the theater less; utilize his garden to grow the flowers that he formerly bought of the florist, and the potatoes and vegetables that he previously took from the grocery; garage his automobile and do without innumerable unnecessary things that eat into the family exchequer.

If John Bull does all this he can keep on with his suit against Johann Schmidt indefinitely and when it is all over he will be no poorer. He can then revert to the original and more comfortable mode of living.

This says the parliamentary economists, is the government's plan in a nutshell. It means to save and scrape to keep up its battlefleet and to the indefinite end and to emerge with unimpaired credit.

It is pointed out to John Bull collectively and individually that to sell stocks and bonds abroad means a poorer England; to borrow from other nations means a greater and heavier national debt; to draw on the prevailing national fund means sending gold abroad and endangering British world-wide banking. The problem that Johann Schmidt's lawsuit puts up to John Bull is the same problem that the government puts up to the people. It means use less and save more, all of which makes it possible for the government to import less and export more.

During the first six months of 1915, England imported \$2,145,000,000 worth of goods from other countries and sold them only \$1,175,000,000 worth. Duly subtracted and divided these figures show that England bought from other countries at the rate of \$5,000,000 daily more than she sold them.

In normal times, normal British business supplies the deficit, but now that there is war, the element of trade and commerce that supply the difference are being used for war. Thus, say the government economists, is shown the imperative necessity for thrift. And the only solution of the problem is a revolution of national habits.

The government thrift campaign is to enter every British kitchen and garden.

"Each community will elect its committee and outline its individual thrift campaign," said H. E. Morgan, chairman of the parliamentary committee today. "Everyone wants to help his country at a time like this. Flower gardens and lawns must go. Vegetables must take their place. Every lawn must become a potato patch."

SIDEWALK IS ICY; MAN FALLS AND IS INJURED

LEADVILLE, Colo., Aug. 31.—Samuel Thomas, blacksmith at the Yak tunnel and chaplain of the local lodge of Elks, fell on an icy sidewalk in front of his home here a few nights ago, spraining his hip. He was removed to a hospital.

Leadville has an altitude of 10,200 feet, and has been visited by a series of early frosts, accompanied by freezing.

NOTICES

Miss Lela Cole has arrived home from Denver where she spent the past three months. She is a popular high school girl.

Mr. and Mrs. George Beddow and children have returned from an outing at Lehman Springs.

Mrs. Rhoda Johnson arrived home today after several weeks spent at Lehman Springs.

Miss Louise Knight left last evening for Walla Walla.

Mr. and Mrs. Alvin P. Knight and baby, Mr. and Mrs. James Wryick and Mr. and Mrs. Fred Bloch left yesterday for Bingham Springs for an outing at that pleasure resort.

Mr. and Mrs. D. Turner and Mr. and Mrs. Frank Wheatstone have returned from a three weeks outing at Lehman Springs.

Mr. and Mrs. Howard Stephens, who recently sold their beautiful home on Jackson street to Mr. and Mrs. J. J. Hamley, have taken apartments in Brown Hall. The Hamleys are now moving into their new home.

Mr. and Mrs. Omer E. Smith, who have occupied the Dickson home on South Main street during the summer, have moved into rooms in the Colesworthy residence on High street. Mrs. J. R. Dickson, Mrs. Westbrooke Dickson and little Mary Louise Dickson arrived home last evening from a summer in Portland.

Miss Mary Ritner of Portland arrived today to spend a week with her sister, Mrs. W. A. Storie. She is returning from a visit to the exposition in San Francisco.

Mr. and Mrs. Clarence G. Knight and baby of San Antonio, Texas, have arrived for a visit at the home of Mr. Knight's parents, Mr. and Mrs. G. W. Knight.

Miss Nancy Meek of Indianapolis is a guest at the home of her sister, Mrs. Lester Hamley.

Mrs. Ross Carney and mother, Mrs. J. M. Scroggs, have returned from a summer vacation spent at Seaside, Astoria and Portland.

Prepare for Rough Weather.

PENSACOLA, Fla., Aug. 31.—Members of the coast guard along the Gulf have been ordered to report at their stations for storm service. The complete guard will go on duty tomorrow and remain through the rough weather until early spring.

SAVES TWO FROM DROWNING WITHIN WEEK

MISS MARY KOELLING

MISS MARY KOELLING

HOBOKEN, N. J., Aug. 31.—Friends of Miss Mary Koelling, a fifteen year old high school girl of this city are contemplating applying for a Carnegie hero medal for the young lady. She has the proud record of having saved two persons from drowning at Greenwood Lake, New York, where she is spending her vacation. Both rescues were made within a week. Charles Avalo, Jr., was seized with cramps while in swimming and Miss Koelling, who is a remarkable swimmer dove in and pulled him to shore, after fighting him to break his hold around her neck. Two days later she rescued Miss Alice Dupree who had fallen overboard from a row boat. Miss Dupree had sunk beneath the surface twice before Miss Koelling reached her side.

HERMISTON PEOPLE HAVE SHARE IN TWO LARGE WATERMELONS

UMATILLA PROJECT FRUIT PROVIDES EATING FOR MANY RESIDENTS.

Melons are the Largest Grown on Patch of Thomas Haddock—Were Placed on Display as Examples of What Can be Grown on Irrigated Districts—Other News Notes.

(Special Correspondence.)

HERMISTON, Ore., Aug. 31.—Two of the largest watermelons from the patch of Thomas Haddock, melon king of the Umatilla Project were on display in the Herald office the latter part of the week and were given to the best guesser of a number in an envelope placed in front of the larger melon.

The friends of Dr. J. A. Campbell shared the larger melon for the doctor guessed the exact number, 229. Alfred Groom guessing 233 was the next closest and was awarded the second prize. In spite of the fact a large crowd had gathered for the Saturday night dance nearly everyone on the street was supplied with a generous slice of red melon.

The regular monthly meeting of the Civic Club was held at the residence of Mrs. H. G. Newport, Friday afternoon. Plans were made to serve lemonade and cake at the school house on Campus Day, Monday, September 6th.

Miss Laura Boynton was hostess to a number of her young friends Friday evening at the home of her parents on Locust avenue.

Dan Roberts left last evening for his home in Spokane, having spent the summer with brothers, W. T. Roberts and John R. Roberts.

R. W. Fletcher of Pendleton, was an overnight visitor in town Saturday.

Mr. and Mrs. Jack Robb left today for Glacier Park and an extended trip to the east.

Win Snyder, who has been in Pendleton during the summer months was an overnight guest of Thomas Campbell, Jr. Mr. Snyder is on his way to Eugene where he will resume his studies at the university.

Chas. Hoskins of Echo, was a business visitor here Friday.

Mrs. H. M. Strow and children returned home yesterday afternoon from California where they visited relatives at different points.

Fruit Experts Gather.

BERKELEY, Cal., Aug. 31.—The annual convention of the Society for Horticultural Science convenes at the University of California. The subjects considered today included such general topics as orchard heating, co-operative fruit marketing and nut industry, citrus experiments and temperature versus citron fruit growing.

Save The Baby Use the reliable

HORLICK'S ORIGINAL Malted Milk

Upholds every part of the body efficiently. Endorsed by thousands of Physicians, Mothers and Nurses the world over for more than a quarter of a century.

Convenient, no cooking nor additional milk required. Simply dissolve in water. Agree when other foods often fail. Sample free, HORLICK'S, Racine, Wis. "No Substitute is Just as Good" as HORLICK'S, the Original

WOMEN ENGAGE IN DUEL FOR LOVE OF MEXICAN

LOS ANGELES, Cal., Aug. 31.—Struggling fiercely in a dimly lighted room while several women looked on, Loretta Jones and Mrs. Mary Gonzalez, young Mexican women, fought a prearranged duel with knives here. Surgeons at the Emergency hospital, where the women were taken, said both would probably die from their wounds.

According to the story told the police officers who were attracted to the scene, the women decided on the duel to determine which should receive the attention of a young Mexican.

Midnight was selected as the hour for the struggle and 10-inch knives as the weapons. Women friends were invited as witnesses.

Much Rubber Required. JACKSONVILLE, Fla., Aug. 31.—Thousands of feet of sheet rubber for Uncle Sam's second dirigible are being turned out here. The rubber, which is of unusual tensile strength will be shipped by the Connecticut company building the huge balloon.

THE KIND OF FOOD ATHLETES EAT

YOU SHOULD FOLLOW THEIR EXAMPLE OF DIET.

Everyone admires a well rounded out athlete. His muscles are like iron and he fairly glows with vim and vitality. He could not reach this high state of health were it not for his diet. His main food invariably consists of Whole Wheat, for it contains all the vital elements he must have. That is why so many athletes eat "FORCE"—the whole wheat food—it builds brain and brawn, bone and sinew, muscle and nerve, sustains health and strength.

Not only is food made from the whole wheat nourishing, it is delicious. You doubtless recall some occasion—possibly in your younger days—when, in passing through a wheatfield, you plucked a head of wheat which you rubbed between your hands (blowing away the chaff) and then ate it.

Do you recall the delicious sweet flavor of the ripe wheat? That is just the flavor you get in "FORCE," scientifically cooked and blended with barley malt, then toasted and flaked. You don't get this flavor in other cereal foods. Couldn't expect it. Whole wheat—that's the answer. Put up in air-tight, dust-proof packages, "FORCE" comes to you fresh and crisp. Ask your grocer.

Stories From the War Zone

BY WILBUR S. FORREST (United Press Staff Correspondent.) LONDON, Aug. 18.—(By Mail)—The finest traveling hospital in the world is somewhere in France today.

Known as the "Princess Christian Hospital train," it was built from subscriptions solicited by the sisters of the late King Edward, who provided a similar equipment, though smaller, during the Boer war.

Every requirement necessary for the care of 400 desperately wounded soldiers is provided in eight coaches of the 700 foot conveyance. Six additional carriages provide lounging quarters for the sick and slightly wounded on their way to base hospitals from the front. Several coaches are equipped with beds, a kitchen, lockers, hot and cold water and electric and gas appliances including illumination.

Another affords sleeping accommodations for nurses and doctors while another is a complete operating room. Hundreds of details throughout the moving hospital are supplied from the latest knowledge of hospitals and surgical supplies. If necessary it can be sidetracked at an isolated station near a battle front and be employed as a stationary hospital.

A joint committee of the leading railways of France and England superintended the construction of the train at Birmingham.

Much has been said of the famous American hospital of Paris but little is known of the "American Hospital of London."

In the Duchess of Connaught's Canadian Red Cross hospital at Clivedon Wood, on the Thames, scores of nurses and 42 doctors from Canada and American cities care for the Canadian "Indians" as they come wounded and torn from the battlefields across the channel. There are tennis, golf, billiards and quills for the convalescent and the true Canadian idea of food, fresh air and laughter to condition the wounded men again for the ever-raging struggle from which they came. Patients are fed on fresh eggs, plump chickens and jam and biscuits direct from Canada. They are given the open air treatment as soon as possible, and most any day can be found a fleet of rolling beds flanking a football field nearby, where simon pure Canadian football is the order.

The new hospital, which is being enlarged to care for 500 patients, is regarded as a model of hospitals in England. It is equipped with light, airy operating rooms, medical and surgical stores, laboratories and x-ray rooms, embracing all the latest in medical science.

"It makes you homesick for Canada," said one Canadian recruit today. He got it in the leg in France and with two crutches he was playing football, his chief desire being to kick the ball with his injured leg.

Mail advices from Ghent, Belgium, tell that Germans sentenced Countess Dejongh Dardoye, aged 16, to three months imprisonment recently.

She was walking in Ghent with her

grandmother and both were wearing medals with King Albert's picture. A German officer tore the medals from them, saying "Away with that king without a country."

The young Countess picked up the medals, and answered hotly: "We Belgians prefer a king without a country to an emperor without honor."

She was immediately arrested and subsequently sentenced by court martial.

WARSAW, Aug. 8.—(By Mail)—"Small arms and bullets are playing no role in the present war. The rifle is the infantryman's toy. The infantryman does not fight. When the big guns have finished the infantryman merely scrambles into the trenches they have won and occupies them."

This is the statement of Surgeon-Major Leshintseff, who has just returned from the scene of the big battle in Galicia.

"Seven eighths of the wounds are from shells, half of these from big calibre shells and the rest from field howitzers and field guns."

The shell that the Russians fear is the Skoda 42 centimetre projectile weighing 2300 pounds. They are known to the soldiers as "Pilseners." The normal projectile of the Skoda gun is 4 1/2 miles high and in soft ground the shells penetrate 30 feet before exploding. The "Pilseners" are howitzer guns and the projectiles except in diameter do not represent the famous Krupp 42 centimetre shells, also used by the Germans.

Describing the effect of a "Pilsener" shell, the surgeon said: "It kills everyone within 150 yards and kills others who are further off. The mere pressure of gas breaks in the partitions and roofs of bomb-proof shells. Scores of men, who escape metal fragments, stones and showers of earth, are killed, lacerated or blinded by the pressure of gas. Men who are only a short distance away are torn asunder. Sometimes only the clothes are stripped off. Of men close by not a fragment remains the clothes disappear and only small metal articles are found. If the shell is very near the explosion melts rifle barrels as if they were struck by lightning. Men who disappear in such explosions are often reported missing, as there is no proof of their death."

ANOTHER PLOT TO BLOW UP PLANT DISCOVERED

GARY, Ind., Aug. 31.—The finding of a derailed switch on the Wabash railroad led to the circulation of the story that it was planned by persons unknown to wreck a sun-cotton train and blow up the city and mills of the Aetna Powder Company as a furtherance of the Kaiser murder plot. Little credence is placed in the story by the police and officers of the company.

ITALIAN RESERVISTS INSANE THROUGH WORRY

NAPLES, Aug. 31.—Nineteen Italian reservists, aboard the liner Canopic, arriving here, went insane during the voyage. The vessel was returning them to their home country. Worry over their possible fate on the firing line is supposed to have unbalanced their minds. The men are now being cared for in an asylum.

America is the Greatest Country in the World Because

there are more homes owned in America than in any other country.

The man who owns his own home makes the best citizen. The boy who grows up in his own home makes a better man than one who is dragged from pillar to post. He has more self respect and more respect for his parents.

It isn't so hard to get a home as it used to be nor as hard as some people think it is. We have been in the home furnishing business a long, long time and we can make home owning easy for those who want to try. Don't wait until prices go up, see us now.

"WE MAKE IT RIGHT."
