## Library News

The following new books were placed on the shelves of the library today.

**Bacon—Beauty for Ashes.** "A side from the literary charm of its vivid and ingenious narrative 'Beauty for Ashes' commands attention. Its importance is urged not only to those actually interested in social service, but to everyone who has felt even the vaguest impulses to help the poor. Mrs. Bacon tells the story of her evolution as a housing reformer. She was one of the sheltered women, engrossed in her own family affairs and serenely ignorant of conditions outside her own doors. Like many another she knew of the evils far away, in New York and Chicago, while she remained blind to conditions in her own city. The city happens to be Evansville, Indiana, but the book has a lesson for dwellers in all other small cities and towns, for it shows that the slum with its evils of disease and poverty and vice is not confined to large centers. In the course of her story the author describes the fight that resulted in Indiana's model housing law."

**Beard—Woman's Work in Municipalities.** "In grasping with the problems of education, public health, the social evil, recreation, the assimilation of races, housing, social service, corrections, public safety, civic improvement, government and administration, the author records woman's achievements, as represented in urban communities in various parts of the United States, not alone in the large cities. Suggestive and inspiring to individuals and clubs."

**DeQuincey—Confessions of an Opium Eater.** "Since the new laws have been in force restricting the sale of opium and other harmful drugs interest is again being aroused in De Quincey's 'Confessions of an Opium Eater' in which is so well portrayed the struggle he made in overcoming this habit."

**Eastman—Work, Accidents and the Law.** "A work that has grown out of an investigation of five hundred deaths resulting from accidents among railroaders, miners, mill workers and other wage earners. The book is important not only because it

is the first systematic and comprehensive attempt that has been made in this country to measure the economic loss society bears by reason of preventable accidents to workmen and to apportion the responsibility for that loss, but also because of the spirit in which the work has been done."

**Faber—Social Life in the Insect World.** "Another excellent selection from the writings of this able French scientist, whose keenness of observation, power of interpretation and fascinating style make him a master-expositor of the insect world."

**Fitch—College Course and the Preparation for Life.** "Friendly, sympathetic, and uplifting talks to undergraduates on the problems which confront them, such as personal recognition, the fight for character, the difficulties of belief, the place of learning and of the beautiful, informed with a keen idealism, and presented with a candor and directness which must appeal to young men. They are just friendly talks of one man with some younger men. They are intended not so much to edify and instruct as to interpret and reveal."

**Hale—What Women Want.** "An earnest, sane, tolerant book by one who has had wide experience as a worker in the woman movement both in England and America, as an actress and lecturer, and as mother. An interpretation of the feminist movement, discussed under the awakening of women, signs and symbols as revealed in the drama, fiction and art, the present problems, and the future vision. The author believes that feminism has been an outgrowth of democracy and will find increasing expression in love and service for humanity."

**Hovey—The Modern City and Its Problems.** "This is an essentially new, comprehensive, and interesting outline of city problems in America and actual accomplishments at home and abroad, in convenient form for study or reference. There are historical chapters, others on municipal home rule, and on administration abroad, but the emphasis is on physical and social features."

**Jordan—The Unseen Empire.** "A study of the plight of nations that do not pay their debts."—Sub-title. Dr. Jordan draws on many resources of information to reveal the extent and power of the "Unseen Empire" finance, which holds in bondage all civilized nations through the test of war and of standing armies. A unique addition to peace literature which will appeal to thinking men and women."

**Sampson—Studies in Milton and an Essay on Poetry.** "Discursive studies written by a careful Milton scholar in a spirit of enthusiastic appreciation for the pure quality of poetry, as far as possible removed from ordinary dry-as-dust criticism. Mr. Sampson, in our judgment, has safely made his way between the sand hills of aridity and bogs of fatuity. He knows his Milton thoroughly, but he loves him even more thoroughly."

**Warren—Thoughts on Business.** "A collection of more than two hundred editorials which have been contributed to leading newspapers and have been called good by prominent business men the country over. The general captions are: Starting points. Self improvement. About methods. Developing the workers. With the Manager. Buying and selling. Words by the way, and Gleanings."

**White—Autobiography of Andrew D. White.**  
Wiley—Foods and their adulteration.  
Wright—Pictorial practical rose growing.

## Events in the War One Year Ago Today

The battle on which the fate of Paris rests is raging along a front of 150 miles, the Germans apparently attacking in greatest force on the French right. In the Marne valley the French have driven back the Germans. Nancy vigorously attacked by Germans.  
German forces are within ten miles of Ghent. Their attack on Antwerp has been delayed, through fear of assault by the remnant of the Belgian army, it is believed.  
The Austrian resistance is reported broken and the Russians are in pursuit between the Vistula and the Bug. Russians are encompassing Przemyśl.

## S. S. S. Greatest Blood Remedy Gives Results When Others Fail

Nature's Remedy For Blood Troubles. The purifying and curative properties of Nature's great remedy have made "S. S. S. for the Blood" a household saying. Thousands today enjoying perfect health owe their recovery from blood or skin diseases to this universally used blood purifier. S. S. S. is made entirely from roots, herbs and bark, which possess cleansing and healing ingredients. You cannot be well when your blood is impure; you lack strength and energy natural with health; your complexion becomes pale and sallow; your vitality is weakened. When waste or refuse matter, which Nature intends shall be thrown off, is left in the system, it is absorbed into the blood and boils, pimples, rashes, blotches and other eruptions of the skin appear.

S. S. S. goes into the circulation and removes every particle of blood taint or poison of every character. All skin diseases and eruptions pass away, and the smooth clear skin, glowing with health, shows that the body is being nourished by rich, pure blood. Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, all are deep-seated blood disorders, and for their treatment nothing equals S. S. S. Get S. S. S. at any drug store. If you are a peculiar case write S. S. S. Co., Atlanta, Ga.

**Biliousness and Constipation.** It is certainly surprising that any woman will endure the miserable feelings caused by biliousness and constipation, when relief is so easily had and at so little expense. He receives exactly the same treatment as his humbler fellow workers and sleeps his just sleep in a single room near the factory.

## HOW TO HEAL SKIN-DISEASES

A Baltimore doctor suggests this simple, but reliable and inexpensive, home treatment for people suffering with eczema, ringworm, rashes and similar itching, burning skin troubles. At any reliable drugstore get a jar of resinol ointment and a cake of resinol soap. These will not cost a bit more than seventy-five cents. With the resinol soap and warm water lather the affected parts thoroughly, until they are free from crusts and the skin is soft-smooth. Dry very gently, spread on a thin layer of the resinol ointment, and cover with a light bandage—if necessary to protect the clothing. This should be done twice a day. Usually the distressing itching and burning stop with the first treatment, and the skin soon becomes clear and healthy again.

## A HINT FOR SHAVERS

If you want a refreshing shave, with a thick, creamy lather, try a resinol shaving stick. It contains the soothing, healing resinol medication which makes it especially welcome to men with tender faces.

## INDIAN RESERVATION TO BE REPRESENTED AT THE STATE FAIR

EVERYTHING IS BEING DONE TO MAKE UMATILLA EXHIBIT A SUCCESS.

Head-work and Basketry Will Be Displayed—Canned Fruits and Jellies Will Also Be Included—Umatilla Indian School Will Send Specimens from School Farm.

The Umatilla Indian reservation is to be represented at the state fair to be held at Salem, September 27 to October 2, 1915.

The commissioner of Indian affairs has directed each of the four superintendents of the Indian reservations in Oregon to interest the Indians in this fair with a view to having as large a display as is possible from his reservation.

Last week Mr. Swartzlander and Mr. Barbour spent several days among the Indians interesting them in the display to be sent from this reservation, and they are very enthusiastic in making the Umatilla exhibit a success. From the interest already shown, it is believed Umatilla will have a large exhibit, one which will be a credit to the Indians, considering the short time in which they have for preparation.

There will be a large collection of Indian handwork, such as bead-work and basketry, as well as the more up to date embroidery and other fancywork. Some of the old Indian foods, roots and dried salmon will be exhibited in addition to canned fruits and jellies of all kinds, which would indeed do credit to the white housewife. From the Indian farmers will come exhibits of grains and such vegetables as are maturing when. The Umatilla Indian school will send some specimens of products

grown on the school farm on the dry farming system. One of the Indians has shown a great genius in the taxidermy line and will have several skins of animals, killed by himself, which he has prepared and made into furs and rugs.

While the other reservations will undoubtedly have fine exhibits, the display from the Umatilla reservation will be of a different nature, and there is no reason why Umatilla should not have as good an exhibit, if not better, than the other reservations. No efforts are being spared to make this the best Indian exhibit at the fair. This is a new departure for the Indians of this reservation and the first time Indians have taken part in the state fair, but next year, with more time in which to prepare, a much finer and larger exhibit will be sent to Salem.

Two employees from the school will accompany the exhibit to Salem and install it at the fair.

To the Public. "I feel that I owe the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy a word of gratitude," writes Mrs. T. N. Witherall, Gowanda, N. Y. "When I began taking this medicine I was in great pain and feeling terribly sick, due to an attack of summer complaint. After taking a dose of it I had not long to wait for relief as it benefited me almost immediately." Obtainable everywhere.—Adv.
