

WITH THOUGHTS OF PEACE, MEN SHOULD BE TRAINED IN WAR

JOHN A. LAPP ADVOCATES VOCATIONAL EDUCATION IN THE ARMY AND NAVY.

This system and the National Institute should go hand in hand in this war and the Nation should be an Adequate Force Without Waste of Human Energy.

INDIANAPOLIS, Sept. 13.—The Indiana State University, Indiana, is the first to have a school where a few hours a day can be spent in preparation for the arts of peace.

TURN HAIR DARK WITH SAGE TEA

IF MIXED WITH SULPHUR IT DANGERS SO NATURALLY NOBODY CAN TELL.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grand-mother's treatment, and folks are again using it to keep their hair as soft, even color which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Newdays though, we don't have the troublesome task of gathering the sage and the messy mixing at home. All drug stores sell the ready-to-use product called "Wreth's Sage and Sulphur Compound" for about 30 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears; but what delights the ladies with Wreth's Sage and Sulphur is that, besides beautifully darkening the hair, after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive; besides, prevents dandruff, itching scalp and falling-out hair.

Lapp declared that the six-month enlistment term would be an effective cure for unemployment because it would offer both a job and schooling. "Undoubtedly this nation is in a perilous position," said the educator. "We are the only world power not engaged in conflict. As a great neutral we have become the object of envy and hate by all the warring countries, and this will increase as we wait idly from world trade at the expense of our old-time rivals."

Lapp called attention to the fact that the nation always has had for large bodies of men with training for war and said he believed the scheme outlined would give no ground for such fear.

Vocational education and national defense should go hand in hand, said Lapp. "The way only he said, can the nation maintain an adequate standing force without tremendous waste of human energy and without providing a menace to our democracy."

"We are now trained for war but these thoughts are of peace," said Lapp. "We are not people up the two and know making men efficient for industry was making them also efficient for war."

There is no reason, he said, why the army and navy should not do a large part of the work needed for their support. "Around every army post the government should own large tracts of land for cultivation where the sciences of agriculture, forestry and animal husbandry in all their phases would be taught and from which the troops could be supported," said Lapp.

Lapp suggested that arrangements could be made to give the carpenter, plumber or machinist who joins the army supplementary education along these lines so that he would become a better carpenter, plumber or machinist.

To get the broadest benefits from such a scheme, different periods of enlistment would be necessary, he said. Enlistments for from four years down to six months could be allowed, and vocational training in lines requiring greater or less training could be provided as the case might be.

Mascott to Start Training for His Bout With Jockey

BANTAMWEIGHTS WILL HAVE RETURN GO HERE ON SEP. 21.

Bill Mascott, who is scheduled to go 20 rounds with the veteran Jockey Bennett here on the evening of September 21, is scheduled to arrive in Pendleton today to complete his training. He will work out every afternoon in the Commercial gymnasium.

This will be a return bout between the two bantamweights and should be a hot one. In the previous go, which was a draw, the fans saw one of the cleanest and cleverest exhibitions seen here for some time and they have been eager to see the Portland boy return.

Mascott has learned a great deal since his first battle with Bennett. That battle was the first one he had ever fought over four rounds and he did not know a great deal about fighting that distance. Since then, he has had a great deal of experience and expects to win from Bennett.

Jockey is working out daily in the gymnasium and declares the bout will not end in a draw. "I'll either beat him before 20 rounds or he will beat me. I will force a pace that is bound to bring a decisive victory to one or the other." Bennett's big asset is his long experience. He knows how to take advantage of every slip of his opponent and how to save himself from punishment. It should be a great fight.

Wrestler Anxious to Arrange Match

WALTER ARNDT IS WILLING TO TAKE ON ANYONE—CHALLENGES LOCAL BOY.

Walter Arndt, the welter-weight wrestler who is with the Campbell carnival in this city, wants a match while here and he is going to have one if he has to ship in an opponent. Having heard that Lawrence Duff is in Pendleton, he is today issuing a challenge to him and, if it is not accepted, he will send for Ralph Snyder of Dayton, who wants to meet him. Snyder weighs 165 pounds, whereas Arndt tips the scales at 145.

Arndt has had a great deal of experience on the mat. In the east and on the coast he figures he has had 300 matches. He has worked out with Dr. B. F. Roller, met William Demitry, the Greek champion, John Berg and many other leading wrestlers. Seven times he has gone on in preliminaries to matches of the champion of all champions, Frank Gotch. He bars no one at his weight and hopes to secure a worthy opponent here in Pendleton.

All cigarettes are pure, but—

It must be cool and friendly to your throat and tongue. And it must leave you feeling fine after smoking all day.

Fatimas are not the only cigarette that measure up to all these requirements. There are other sensible ones.

But Fatimas seem to have a big margin in their favor on their good taste. Otherwise they could not outsell all other cigarettes costing over 5c.

You can't tell whether they will just suit your taste until you try them.

At the same time, you can easily prove how sensible they are by these two tests.

Most men who try Fatimas say "Good Bye!" to all other cigarettes right away. That's why Fatimas sell so fast.

Why don't you try Fatimas today?

Clip out these tests and try them on Fatima
