

2 MEN INJURED AT OPENING OF ROUND-UP HERE

MOTION PICTURE OPERATOR KNOCKED DOWN BY RUN-AWAY HORSES.

Other Hurt is One of Performers Who Tries to Ride Bucking Burro—Both Men are in the Hospital With Broken Bones But They Will Recover From Their Injuries.

The first exhibition of the Round-up yesterday was marred only by two accidents that sent two men to the hospital with broken bones. In the stage coach race, always fraught with danger, the lead team of the Jim Roach coach broke loose at the first turn and raced madly around the track. J. G. Hill of Portland, head of the moving picture concern which has the exclusive concession, in his eagerness to record the scene on his films set up his machine in the middle of the track near the west turn and directly in front of the oncoming horses. He kept his position too long. The horses struck him and knocked man and camera to the ground with great violence. Hill suffered a fracture of the elbow and a fracture of the cheek bone.

The other accident occurred at the very beginning of the show in the usually harmless pastime of riding bucking burros. Hurt Purdin was thrown from a burro in such a manner that his collar bone was fractured. Both men are in the hospital and are recovering from their injuries.

KHAKI EQUIPMENT FOR 200,000 MEN IS READY

LONDON, Sept. 23.—(By Mail).—Some idea of the number of soldiers England has equipped or now is equipping may be gained by a survey of the work of the great British textile districts which shows that khaki to equip 200,000 men weekly is now being produced.

Two hundred miles of this yellow material, 16 inches wide, are woven and dyed every seven days throughout the network of industries centered in Leeds and other Yorkshire cities. Government contract tailors on the various scenes are not far behind the mills in putting the cloth into uniforms.

For the past three months the difficult government problem of producing enough khaki to gear the latest recruits has been solved. The textile mills are still turning out their weekly quota and have not yet received a "slow down" order from the war office.

From Manchester comes the huge quantities of cotton thread, lining and trimming materials for the soldier's uniform. Birmingham furnishes carloads of buttons, buckles and other metal pieces.

The number of persons engaged in this work is a small army in itself.

Race in Air Saves Date.

ST. HELENS, Ore., Sept. 24.—When P. C. Morton, a Portland traveling man, missed the boat here Tuesday on his way to an important engagement at Rainier he engaged Professor Stromer's hydroplane and made the trip in 20 minutes, a distance of 18 miles, and beat the boat to his destination.

Mr. Morton is president of the Traveling Men's Protective Association.

Loss of Appetite is commonly gradual; one dish after another is set aside. It is one of the first indications that the system is running down, and there is nothing else so good for it as Hood's Sarsaparilla—the best of all tonics.—Adv.

Fire Cause Course Urged.

MONTEREY, Cal., Sept. 24.—Fire prevention should be taught in every public school. Rufus M. Pitts, insurance superintendent of Illinois, declared here before the national convention of insurance commissioners.

A True Tonic

is one that assists Nature. Regular and natural action of the stomach, liver, kidneys and bowels will keep you well and fit, and this action is promoted by

L. W. Minor And His Famous Ride on "Angel" at 1912 Round-Up

One of the most remarkable rides ever made at the Round-up was the championship ride of Lou Minor of Wallowa on "Angel" in 1912. In the finals "Angel" did some wonderful bucking and Minor rode with such class and easiness that he was accorded the championship honor. The Proctor statue of "The Buckaroo" follows somewhat the bucking style of "Angel" as shown above.

In each state, Mr. Potts said, also there should be published for free distribution a plainly written book detailing the causes of enormous annual losses and the means of fire prevention, and this book should be used as a school text.

Dog Is Industrial Hazard.

OLYMPIA, Wash., Sept. 24.—Dog bites are part of professional hazards of a meter reader, ruled the industrial insurance commission, allowing the claim for compensation of Joseph O'Connell, a Spokane meter reader.

EXTRA SESSION OF U. S. SENATE ON OCTOBER 18

WASHINGTON, Sept. 24.—President Wilson has practically decided to call an extra session of the senate October 18, it was authoritatively learned. Subjects for consideration will be limited, however, to proposals for amendment of the cloture rules and discussion of treaties bearing on central and south American relations.

The president is now convinced that there is no danger that America will be drawn into the world war. He believes that American jingo speeches and inflammatory resolutions in the upper house will not endanger neutrality as it has been firmly established.

An extra session, however, depends on international developments in the next fortnight. If the German submarine controversy is satisfactorily settled and no new crisis looms, the administration believes the extra session is then desired by the senate. There will be no session of the house, however, until it meets regularly in December.

Senator Kern, majority leader of the upper house, favors an extra session unless war developments prevent.

ACRES OF TIMBER ARE DESTROYED BY FIRE

SITUATION IN BAKER IS RECOMMENDING ALARMING—MANY FIGHT FLAMES.

BAKER, Sept. 24.—The forest fire started in this vicinity is becoming alarming. With every available man from districts 1 and 2 of the Minam national forest, Supervisor Barnes had just checked a bad fire at Shanzhal gulch, which destroyed several

hundred acres of valuable timber, when another fire was reported on East Eagle creek by Bennett peak lookout. This report came in Wednesday evening, and Fire Warden Palmer, though the fires are outside his territory in the national forest, is ready to move immediately if outside help is needed.

The Eagle fire is in one of the best timber belts in the county and once well started possibilities of damage are almost unlimited.

Outside the national forest another bad fire was reported from Catherine creek over the line in Union county.

Word from La Grande is that State Warden Williamson is on his way to take charge there.

Barnes believes the situation is more serious than for several years. Campers are believed responsible for all fires.

Eastern Man Probable.

ALBANY, Ore., Sept. 24.—An eastern man in all probability will be chosen president of Albany college to succeed H. M. Crooks, who has resigned to accept the presidency of Alma College, at Alma, Mich.

It is said that President Crooks' successor probably will not be chosen for at least two weeks and possibly longer. In the event that no one is selected before President Crooks leaves Albany on November 1 it is probable that Dr. Wallace Howe Lee professor of education, will be made acting president.

German Author Wounded.

BERLIN, Sept. 24.—The Tagliche Rundschau says that it hears that Ludwig Ganghofer, the German author, has been severely wounded in the trenches. The report is that he lost his left eye.

Herr Ganghofer, despite his age, has been following the operations on

the fronts as a guest of Emperor William. His battle stories have been appearing in the German newspapers. He adapted himself to the task of a correspondent with all the enthusiasm of a young man.

WAR ODDITIES.

LONDON.—One result of the submarine war is that Grimby, a British east coast fishing city, has been obliged to import fish, the Grimby trawlers feeling safer in port.

LONDON.—Because of the necessity for Sunday harvest work, due to scarcity of labor on account of war, the rector of Thornham Magna, Suffolk, first conducts brief Sunday services in the fields and then lends a hand to the work.

LONDON.—A mother at Sudbury, Norfolk, learned of the death of her two soldier sons in Northern France, killed by the same shell.

MANCHESTER.—One of the pontoon with which the Turks made their famous attempt to cross the Suez canal is now doing duty as an ornament in a Manchester park.

CAIRO.—Arrangements are in progress to furnish Egypt with a new coinage to mark its independence of Turkey.

LONDON.—Lord Kitchener has advised British medical students now in their fourth or fifth year not to join the army but to finish their medical education in order to qualify as soon as possible.

ZURICH.—Peasant wood carvers of

WOMEN CAN HARDLY BELIEVE

How Mrs. Hurley Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Eldon, Mo. — "I was troubled with displacement, inflammation and female weakness. For two years I could not stand on my feet long at a time and I could not walk two blocks without enduring cutting and drawing pains down my right side which increased every month. I have been at that time purple in the face and would walk the floor. I could not lie down or sit still sometimes for a day and a night at a time. I was nervous, and had very little appetite, no ambition, melancholy, and often felt as though I had not a friend in the world. After I had tried most every female remedy without success, my mother-in-law advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and gained in strength every day. I have now no trouble in any way and highly praise your medicine. It advertises itself."—Mrs. S. T. HURLEY, Eldon, Missouri.

Remember, the remedy which did this was Lydia E. Pinkham's Vegetable Compound. For sale everywhere.

It has helped thousands of women who have been troubled with displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration, after all other means have failed. Why don't you try it? Lydia E. Pinkham Medicine Co., Lynn, Mass.

SOCIETY

Mr. and Mrs. Ralph B. McEwen and two sons of Athena are visiting in Pendleton during the Round-up.

Mrs. J. J. Roulstone and two daughters, Nettie and Cora, arrived from Walla Walla yesterday and are visiting at the home of W. M. Blackely.

Fred Johnson of Oregon City is visiting his father, Burr Johnson, during the Round-up.

Miss Hester Proctor, Miss Sterling and Miss Jones, friends of Miss Proctor, are guests at the Dr. F. E. Boyden home.

Mr. and Mrs. Jack Vincent are city visitors during the Round-up.

Mrs. Alfred Johnson of Portland returned to her home today after being her to attend her mother, Mrs. C. Straub who has been ill. Mrs. Straub is now on the way to recovery and she has extended her appreciation for the kindness shown her during her illness to the Ladies of the Maccabees, who sent many beautiful flowers.

WHAT TO DO FOR ITCHING SKINS

Eczema, ringworm and other itching, burning skin eruptions are so easily made worse by improper treatment that one has to be very careful. There is one method, however, that you need not hesitate to use, even on a baby's tender skin—that is, the resinol treatment. Resinol is the prescription of a Baltimore doctor, put up in the form of resinol ointment and resinol soap. This proved so remarkably successful that thousands of other physicians have been prescribing it constantly for 20 years. Resinol stops itching instantly, and almost always heals the eruption quickly and at little cost. Resinol ointment and resinol soap can be bought at any druggist's.

CLEARs BLOTCHY SKIN

Try resinol soap for a week. You will be surprised to see how it clears and freshens your complexion, even in that short time. Used for the shampoo, it removes dandruff and keeps the hair live, rich and lustrous. This is because it contains the soothing, healing resinol medication.
