WESTON REAPS COIN BY FINING AUTOISTS ON WAY TO ROUND-UP

SPEED ORDINANCE VIOLATED WHEN MACHINES TRY TO MAKE STEEP HILLS.

Reports received here today show that the town of Weston is making a Round-up harvest by fining autoists passing through the place. The Weston speed limit is 12 miles and it is said a speed of 14 miles an hour is necessary to make the hills in and out of the town. C. P. A. Loneragan, manager of the Warren Construction company, was one of the unfortunate victims this morning. There are reports of the arrest of a half dozen or more and it is presumed all are "captured" who show any signs of speed above the 12 mile limit. A fine of \$25 is imposed upon each autoist and the fine must be paid or bail money given.

There is indignation among the autoists over the action of the Weston marshal and it is suggested a warning sign should be posted so as to protect autoists from what is considered unjust arrest.

BANK IS ROBBED BUT GUNS BRING DOWN BANDITS

looked on. They knew, however, what he was after and so did he. A strap had been tied about the horns of the steer and a reward of ten dollars had been offered for the cowboy removing it. When Massey left so his hold, he waved the strap aloft in token of his triumph.

There were two comedy stunts in particular that caught the fancy of the crowd. Both were silent. The one was the amputation of the legs of a wounded man. In everyday life, the "bad man" is a cattle buyer who has suffered the loss of both legs at the knee. With saw and hatchet the frontier surgeon performed his operation and the patient hopped off the table and stamped his way through the crowd. The other mirth-maker was a simple one. It consisted of two men from the country, much the worse for liquor, driving leisurely up to a saloon, purchasing a new supply of wetgoods and driving off again.

Bucking Is Exciting

Three bucking horses, one the cake-walking Hotfoot," were mounted in the pavilion last evening and two riders were projected into space much to the delight of the throng. Red Parker, champion of last year, put up an exciting ride on the back of the third, the plunging animal threatening for a time to tear down the town. Bonny McCarroll mounted a bucking steer again and made a pretty ride before she was thrown and her much-muscled husband again withstood the attempts of two horses to pull his folded arms apart. The bucking burros, the rescue of the tenants of the Stagger Inn, the Indian attack and dance and the other features were equally good and the whole was what some would call immense.

When the crowd was turned loose into the Red Dog Saloon and the big dancing pavilion, the real merriment began. Sheets of buck bills were soon put in circulation and the games were played with feverish interest until the doors closed in the early morning hours. Hundreds of couples circled about the dancing floor to waltz and two-steps and the "bar-tenders" were kept busy dispensing their liquid wares.

something more daring than the other, they kept the grandstand in continuous applause.

It was Cuba Crumfield, champion of all trick ropers, however, who stood forth pre-eminently. His frothing, hissing, spinning rope encircled his body, rose and fell in the air and, under his control, seemed a thing alive. Roy Jones, Ben Corbett and Jaun Montana, too, did feats with the rope that no ordinary cowboy can do.

Dispute to Reorganize

WILMINGTON, Del., Sept. 24.—Announcement was made recently of a plan involving the sale of the entire properties of the E. I. DuPont de Nemours Powder company to a new company to be known as E. I. DuPont de Nemours Co., which will be incorporated under the laws of Delaware. The purchase price is to be \$120,000,000 payable partly in cash, partly in debenture stock and partly in common stock of E. I. DuPont de Nemours & Co., which company will have no bonded indebtedness or other fixed charges.

The natural growth of the powder industry has led the DuPont interests into allied and diversified industries, among which may be mentioned the manufacture of fabricoid and the acquisition of nitrate of soda properties in Chile, South America. Nitrate of soda is one of the principal ingredients used in the manufacture of explosives.

It is officially announced that the personnel of the directorate and the management of E. I. DuPont de Nemours & Co., of Delaware, will be identical with that of the present company, of which Pierre S. DuPont is president; Alexis I. DuPont, secretary, and John J. Raskob, treasurer.

Germany Releases Mail

BERLIN, Sept. 24.—The Overseas News Agency says:

The Norwegian minister at Berlin has telegraphed his government that all the mail carried by the steamer Haskov VII was already on the way to Norway. The mail pouches were opened and searched for contraband letters.

\$5.50

If you want a watch bad you want it good. Watch buyers of experience are finding it expensive to buy pocket clocks for timekeepers. One man said, "I'm tired of buying those tin watches; gimme a good one." To those who cannot afford a good watch we recommend the \$5.50 Elgin which is a standard watch.

LONDON, Sept. 24.—The body of Mrs. Josephine Brugler, an American victim of the Arabic torpedoed, was washed up on the coast of Ireland.

Liner Is Sent Down. LONDON, Sept. 24.—A submarine sunk the Harrison liner Chancellor. Part of the crew was rescued. Boats are now seeking the missing.

C. U. Wins from Japs. TOKIO, Sept. 24.—The Chicago University baseball team defeated the Waseda University, five to three.

Prince Frederick Killed. VIENNA, Sept. 24.—Prince Frederick of Thurn and Taxis was killed in the Galicia fighting on Monday, it was announced.

Employees Defer Strike. PITTSBURGH, Sept. 24.—The Westinghouse Electric company workers were at their tasks as usual today, having decided to defer action until Thursday on the question of striking. This course was agreed upon at a mass meeting last night.

Pythian Reserve Plan. FRENCH LICK, Ind., Sept. 24.—The uniform rank, Knights of Pythias, has a trained membership of 750,000, which is greater than the standing army of the United States.

Why not make this an effective reserve force for the defense of the Nation, suggested Brigadier S. Young, of Ohio, commander in chief of the uniform rank. The joint encampment of Indiana and Illinois was in session here recently.

Mr. Young's plan is to get the cooperation of the war department for the establishment of military schools in every city having 500 or more membership in the uniform rank.

Train Hits Girl and Doll. CONSHOHOCKEN, Pa., Sept. 24.—Toddling to the Reading Railway here, little Ethel Iselbrecht, with doll in her arms, sat down on the rail and was watching it "go to sleep," when there was a shriek of a locomotive whistle.

She was too young to realize that it meant a warning for her, and never looked up from her sleeping toy baby.

Thus the engine of an express train struck and hurled her to death. Her mother had heard the warning whistle and arrived almost before the

train. She was unnerved at sight of the mangled baby.

Oregon to the Front. OAKLAND, Sept. 23.—California, Oregon and Washington lead all states in the country in progressive road building, according to James H. McDonald of Connecticut, before the Pan-American road congress, in convention here.

Samuel Hill will ask the congress to enforce the proposed government appropriation of fifty million dollars for an ocean view highway from Mexico to British Columbia.

Girl Prisoner Uses Pin. VANCOUVER, Wash., Sept. 24.—When Sergeant L. E. McCurdy, of the night shift was locking up a girl believed to be Pearl Graham of Portland, he was attacked by her with a hatpin.

She was wanted in Portland on a charge of larceny and was picked up at the ferry as she landed. The officer grasped her wrist just in time to keep from being stabbed.
