### COULD NOT STAND ON FEET

Mrs. Baker So Weak—Could Not Do Her Work—Found Relief in Novel Way.

Adrian, Mich.—"I suffered terribly with female weakness and backache and got so weak that I could hardly do my work. When I washed my dishes I had to sit down and when I would sweep the floor I would get so weak that I would have to get a drink every few minutes, and before I did my dusting I would have to lie down. I got so poorly that my folks thought I was going into consumption. One day I found a piece of paper blowing around the yard and I picked it up and read it. It said 'Saved from the Grave,' and told what Lydia E. Pinkham's Vegetable Compound has done for women. I showed it to my husband and he said, 'Why don't you try it?' So I did, and after I had taken two bottles I felt better and I said to my husband, 'I don't need any more,' and he said 'You had better take it a little longer anyway.' So I took it for three months and got well and strong."—Mrs. ALONZO E. BAKER, 9 Tecumseh St., Adrian, Mich.

Not Well Enough to Work.  
In these words is hidden the tragedy of many a woman, housekeeper or wage earner who supports herself and is often helping to support a family, on meagre wages. Whether in house, office, factory, shop, store or kitchen, woman should remember that there is one tried and true remedy for the ills to which all women are prone, and that is Lydia E. Pinkham's Vegetable Compound. It promotes that vigor which makes work easy. The Lydia E. Pinkham Medicine Co., Lynn, Mass.

FAMOUS EXPLORER, AFTER 18 MONTHS SENDS WORD THAT HE IS SAFE.

VILHJALMAR STEFANSSON

OTTAWA, Sept. 27.—Confirmation of the report that Vilhjalmur Stefansson, the Arctic explorer, is safe in Banksland, has been received here. Stefansson, whose latest expedition was financed by the Canadian government had not been heard from since April, 1914, until the message from Nome, Alaska, telling of his safety was received here. The message was dated from Baillie Island, Aug. 31, and stated that Stefansson will continue his explorations.

Stefansson was believed lost, after the survivors of the Karluk, the ship in which he and his companions went north, reached Wrangell Island, eighteen months ago. The Karluk was crushed in the heavy ice. Stefansson and his two companions Ole

Anderson and Storker Storkerson had left the Karluk and were traveling northward. They were on a drifting ice floe and it was hoped that they would ultimately touch at Wrangell's Island or Siberia. However, little hope was held out that they had escaped death.

## Yes; S. S. S. Is Purely Vegetable Nature's Safe Blood Treatment

**Known for 50 Years As the Best Remedy for Rheumatism, Catarrh, Scrofula, Skin Diseases.**  
Scientists have discovered that the forest and the field are abundantly supplied with vegetation of various kinds, that furnish the ingredients for making a remedy, for practically every ill and ailment of mankind. Medicines made from roots, herbs, and barks which Nature has placed at the disposal of man, are better than strong mineral mixtures and concoctions. Mineral medicines work dangerously on the delicate parts of the system, especially the stomach and bowels, by eating out the lining membrane, producing chronic dyspepsia and often entirely ruining the health.
