French Remedy Aids Stomach Sufferers

France has been called the nation without stomach troubles. The French have for generations used a simple mixture of vegetable oils that relieve stomach and intestinal ailments and keep the bowels free from foul, poisonous matter. The stomach is left to perform its functions normally. Indigestion and gastritis vanish. Mr. Geo. H. Mayr, a leading druggist of Chicago, cured himself with this remedy in a short time. The demand is so great that he imports these oils from France and compounds them under the name of Mayr's wonderful Remedy. People everywhere write and testify to the marvelous relief they have received using this remedy—one dose will rid the body of poisonous accretions that have accumulated for years and convince the most chronic sufferer from stomach, liver or intestinal troubles. Mayr's Wonderful Remedy is sold by leading druggists everywhere with the positive understanding that your money will be refunded without question or quibble if ONE bottle fails to give you absolute satisfaction.

WE EAT OATMEAL

BECAUSE IT IS AN ADMIRABLE BREAKFAST FOOD.

But Oatmeal must be properly cooked, which takes time, because oats are largely starch, and the starch cells must be broken down by cooking before the digestive organs can take up the nourishment.

One enterprising concern found out a long while ago that few homeseekers went to the trouble of cooking oatmeal properly, and decided to cook it for them. We refer to the H-O Company, of Buffalo, New York.

Comparatively few people know that H-O is the ONLY Oatmeal that is cooked in the mill; the only STEAM COOKED Oatmeal on the market.

After the carefully selected oats are hulled they are placed in sealed "cookers" and cooked by live steam for more than two hours, in a temperature much higher than be obtained at home.

This cooking makes H-O Oatmeal easy to prepare properly, and save your time and fuel. All of the true flavor of oats is retained by this kind of cooking. H-O Oatmeal sells at Fifteen Cents for a large package. On the shelves of good grocers.
