AUTUMN DAYS.

O the pleasant days of Autumn,
Purple of the grape and plum,
Softly gray with seeding grasses,
Drowsy with the insects' hum,
Morning mysteries on the mountain,
Noon-day dreams adown the dell,
Sisles pattering through the greenwood,
But they never, never tell
Where the Monk of Len is hid—
Thee 't's very well they know—
Mind we not, today is heaven,
How the winds tomorrow blow.
—San Francisco Star.

ACCESSORIES IN THE STEAL

IN its report of the Portland wheat market the Oregonian asserts that with ship charters at 100 shillings the Portland wheat prices are three cents above the export market.

There is a differential of 81 cents between the top price for wheat in Liverpool and the top price in Portland. If that great spread is due to the actions of the shipping combine what apology has the Oregonian to make for the sup-

port and encouragement that paper gave the old guard filibusterers when they held up the administration's shipping bill last winter, thus preventing the passage of a measure that would have prevented such robbery of the producers of the northwest.

SANITY THE BEST POLICY

PRESIDENT WILSON'S declaration he will vote for equal suffrage at the New Jersey election has caused joy among the suffragists who have been relying on sane common sense methods for advancing the cause.

Dr. Anna Howard Shaw, president of the National American Woman Suffrage Association, on hearing of the president's action said it is now certain New Jersey will go for suffrage.

"This shows the essential soundness of the historic non-partisan tradition of the National Association," says Dr. Shaw. "If the suffragists of America had followed English advice and aligned themselves against the democratic party, do you think we would today have the support for state suffrage of the dominant political party? No, we would face the same stubborn masculine opposition as that which confronts Mrs. Pankhurst and her followers in England."

Some suffragettes in Portland would do well to heed the words of this national leader. There is an organization in that city expending thousands of dollars on a propaganda for congressional action. With Oregon already in the suffrage column they waste their energies here and would be better occupied helping New Jersey women obtain the ballot.

MUCH WORTH PRESERVING

LOCAL people who visited the exposition at San Francisco enjoyed the fine arts display and the Proctor bison standing guard will be interested in the fact a move is underway to preserve the fine arts palace.

The directors of the exposition have set aside Saturday,

October 16, as Fine Arts Day, and have agreed to turn over to a Preservation Fund 75 per cent on all above the average Saturday receipts. Everybody who desires to see any part of the exposition preserved for the future pleasure of the people or as an attraction to its visitors, should be present at the exposition grounds on that day. A record-breaking attendance will launch the movement with such strength that the Preservation Plan will be certain of success.

The day ought to appeal to the sentiment of every person who has enjoyed the exposition and would like to see some of its glories perpetuated.

CARRANZA'S CHANCE

ON the part of certain Tories in this country there will be words of scorn over the recognition of Carranza by the Pan-American conferees. In the tory view the only estimable men Mexico ever had were Diaz and Huer-

ta. Neither man had education or respect for the constitution of the republic. Each believed in blood and bayonets never in the ballot.

As to how Carranza will succeed time will tell. It is improbable he was entirely satisfactory to the conferees or he would have had recognition sooner. But it was necessary to deal with the situation as it existed not with ideal leaders made to order. Carranza seemed the most forceful, reliable and consistent man for the Mexican presidency. So he is to be given a chance with the benefit of official recognition from the leading countries of the western hemisphere.

If Carranza proves able to restore peace in Mexico and give that troubled country a government for the benefit of the Mexican people with fairness to foreigners the problem will be solved.

It will be solved—not by intervention and war—but by watchful waiting.

ON THE COAST OF MAINE.

O the lonesome reach of the barren beach
That stretches mile on mile;
The wild waves sigh as night falls nigh
And swifter still the pile,
In a smother of spray on the sands they play
And lash a lather white,
Like an army mad in pale plumes clad
They doof from out the night,
Like whirling snow the foam clouds blow
From off each tossing crest
And they hurl away in steamers gay
To muntle the ocean's breast.

O the hollow roar as the waters pour
And crash upon the sand;
Like the muffled sob of some motely mob
It throbs o'er the dreary land,
—Arthur Inman.

BAKER VOTES BONDS FOR WATER IMPROVEMENT

BAKER, Ore., Oct. 12.—By a lead of 57, the \$118,000 city water extension bond issue won today. The vote was 296 for and 147 against. The

election was unusually quiet and the 253 voters represented only a little more than half the registered taxpayers of the city.

The work of getting the bonds on the market will be started at once. Surveys will be made this winter and

active extension of the water supply lines will be started early in the spring so the system will be ready for use next summer. The entire bond issue will be used for the extension that is to preclude any water shortage.

SOCIAL : DANCE

GIVEN BY THE KNIGHTS OF COLUMBUS

Eagle-Woodman Hall

Tuesday Oct. 12

Evening (Columbus Day)

ALL FRIENDS ARE CORDIALLY INVITED.

A Good Time Assured All.

ADMISSION 75c.

AMERICAN MARINES IN HAYTI

The picture shows marines for the U. S. S. Washington, ashore near Port Au Prince, Hayti, where they are still in charge of the affairs of the "black republic." It is probable that in view of the present turbulent state of affairs in the island, the American occupation will continue adherents are still in Hayti showing for some time. Dr. Bobo, leader of the revolutionary force is now in Cuba, where it is said, he is fostering another revolution. Some of his resentment at the American occupation.

DODGE BROTHERS ROADSTER

A roadster designed to be all that a roadster should be.

A car capable of carrying two people in continuous comfort.

You can see better than we can tell, how beautiful it is.

Modeled in clay, when it was first conceived, it was re-modeled, again and again, till the last harsh line was eliminated.

The body is built of steel, with the usual useless framework entirely eliminated.

As a result there is extraordinary storage space at the rear—more than sufficient for all the luggage two might take on a long tour.

A light car, with all the advantages which that lightness adds to the powerful motor—but a stout, staunch, strong car, and a steady one as well.

Pendleton Auto Company
