NEW TRIALS DENIED CASHIER CO. OFFICIALS

PORTLAND, Ore., Oct. 12.—The six officials and stock salesmen of the United States Cashier Company who were convicted by a jury in the United States district court last August, after a trial lasting 46 days, of conspiracy to use the mails in a fraudulent stock-selling scheme, are to be sentenced next Monday at 10 o'clock.

Federal Judge Bean set the day for sentence yesterday when he denied motions in behalf of all the defendants for a new trial.

The only hope of the defendants now lies in an appeal to the United States circuit court of appeals.

The six defendants are Frank Menefee, president; Oscar A. Campbell, vice president and director; F. M. Germond, ex-sales manager; O. E. Gilbert, ex-assistant sales manager; and B. F. Bonnell and H. M. Todd, ex-stock salesmen of the company.

In its verdict the jury recommended Mr. Campbell to the leniency of the court.

More than \$1,000,000 was obtained in cash, notes and real estate by the United States Cashier Company. The government charged that the money was obtained by fraudulent representations, while the defense declared that the stock-selling operations were conducted in good faith.

HIGH SCHOOL NOTES

Miss Butler, the domestic science instructor, has had installed in the windows of her department several large flower boxes. She intends to place the flowers in the boxes in a few days and hereafter there will be flowers growing in the windows.

This is the first work done by any of the teachers toward beautifying their rooms and is well appreciated by the students in Miss Butler's department.

Just a few days ago Miss Butler gave her students this statement as a definition of a home: "The home is a place in which a group of persons live in such a spirit of social relations that no individual is handicapped and all are encouraged to reach the highest degree of development of which they are capable. If this be true then each individual of a home is a person who is willing to help someone who needs help and is a person who will give up his or her own pleasures to help the other members of this social group. In this way no one is slighted, no one is prevented from making use of their opportunity to reach the highest development of which they are capable. It is said that all persons are born equal. Then in 'a home' all persons of the social group constituting a home should attain to the same degree of development. In the American home of today this is not the general practice. It is each fellow for himself and so it is easily seen why there is no great number of homes" in the true sense of the word in the world today. The old saying still holds true, "Treat thy neighbor as thyself."
