M'ADOO STARTS TRIP IN SUPPORT OF SHIP MEASURE

Official Announcement Made on Administration's Plan for Relief of Commerce.

GOVERNMENT, ONLY HOPE

Ship Purchase Necessary for Naval Reasons and for Relief of Trade—Private Capital Cannot be Relied Upon in This Emergency.

WASHINGTON, Oct. 13.—The first official announcement of the administration's merchant marine bill was made by Secretary of the Treasury McAdoo today in a United Press interview in which he detailed plans for building up a naval reserve to be operated through a corporation in which the government is sole stockholder. The statement was made on the eve of his departure for a western trip in which he will speak on behalf of the measure. The chief factors are the necessity for an auxiliary fleet for the navy. The necessity for immediate relief of American commerce. The helplessness of private capital to come promptly to the relief of American foreign trade. The fact that the government is the only agency of sufficient strength to give the quick assistance necessary. McAdoo said he hoped and believed the president will recommend the passage of this legislation at the coming session of congress.

VARSITY FRESHMEN ARE DUCKED IN MILL RACE

EUGENE, Ore., Oct. 13.—The freshman class numerals in green paint appeared upon the student-seated senior bench upon the university campus this morning. This noon virtually every freshman, particularly those in the fraternities houses, was ducked in lieu of the actual offenders. Some were dropped in the mill race; others went in the fraternities bathtubs.

The painting was the first offense of its kind for several years, following an effort to eliminate an undesirable practice of daubing class numerals each year on every surface about the campus.

This morning the green figures appeared, not only on the senior bench, but on the campus walks.

The freshmen were gathered during the noon hour, marched to the campus, armed with turpentine, and forced to use their green oils in cleaning off the figures. Considerable turpentine was scattered upon the upper classroom during the cleaning process, and ducking followed.

The downtown merchants had many calls for caps following the episode.

Von Jagow Says Greece Treated Worse Than Was Belgium by the Kaiser

BY CARL ACKERMAN. (Copyright 1915 by United Press. Copyrighted in Great Britain.) BERLIN, Oct. 13.—The world's storm of indignation against Germany for invading Belgium is "cant" or "schwindel," declared Foreign Minister Von Jagow in an interview given the United Press concerning the action of the allies in landing troops at Salonika. I asked if the final decision in the Balkans brought about another psychological peace movement. Von Jagow replied: "You must ask Germany's enemies." "I infer Germany continues willing to consider peace if the allies make first overtures. It is my impression further that the people believe not only has the cause for England's entrance into the war been removed by the landing in Greece, but the reasons for the allies' prolonging the war is also removed. Von Jagow's statement regarding the Salonika landing in part was: "Certainly the violation of the neutrality of Belgium by Germany and of Greece by England and France, cannot be compared, for in the first instance the question revolved itself about the threatened French advance through Belgium, threatening the existence of the German empire. The landing of the entente troops at Salonika was not founded upon any such distressing emergency. It was based entirely upon the ground of political and military opportunity."

AUSTRO-GERMANS SEEK JUNCTION WITH BULGARIA

Teutons Wage Attacks Along Danube Save and Drina, Drive Serbians Before Them. VIENNA, Oct. 13.—Pushing their way into the near east, the Austro-Germans are attacking all along the Danube and Save rivers and on the Drina east bank. It is officially stated. The hills about B's grade are in the invaders' hands. The enemy advanced in the face of an admittedly heavy resistance. The Austrians captured Mount Lipa, east of Belgrade, while the Germans are driving the Serbians before them from Belgrade in the direction of Posarowitz.

PLAN TO DOUBLE AMERICAN NAVY IN NEXT FIVE YEARS

WASHINGTON, Oct. 13.—Fifteen to twenty fighting ships of the dreadnaught and battle cruiser type, with a proportionate number of seagoing submarines, coast submarines, scout cruisers, destroyers and auxiliaries—enough to make a new American fleet—is contemplated by Secretary Daniels for recommendation as a five-year building program for the United States navy.

President Wilson and Secretary Daniels have discussed informally the needs of the navy and are agreed that in order to be adequately prepared for defense the present strength of the fleet must be almost doubled in the next five years, with the addition of many of the latest type of fast and powerful fighting craft.

Details as to number have not yet been finally worked out, but the idea of fixing the ratio for a continuing program over a period of five years is the basic principle upon which the general board of the navy and Secretary Daniels now are planning their recommendations. Another conference between the president and the secretary will be held Friday at which the total number probably will be fixed.

The five-year naval program when completed would add in addition to dreadnaughts and battle cruisers nearly a hundred submarines, about seventy destroyers and several scout cruisers and a proportionate number of fuel and hospital ships.
