PHILADELPHIA, Oct. 12.—Harry Hooper gave Boston another world's championship with two runs into the centerfield bleachers. The Californian came to bat in the ninth with the score tied, four and four, and sent the 1915 series into history with a terrific clout which cleared the fence on a bounce by three feet.  
It was the fourth straight victory for Boston and the third which was won in the ninth inning by one run. The Philadelphia batters lost the championship, after the poorest hitting in any world's series. The Phillies suddenly found their eyes in the last game and bombarded Foster for nine hits, including a double and a home run.  
Today's game was the first real championship game of the series. It was replete with dramatic moments, terrific hitting in pinches and clever fielding.  
Philadelphia scored in the first. Bancroft singled, Paskert singled, Luderus doubled scoring both. Boston scored one in the second. Gardner tripled scoring on Barry's single. Boston tied the score in the third. Hooper homed, Philadelphia got a two run lead in the fourth. Luderus homed, Niehoff singled, advanced on Burns single, and scored on Hooper's error. The fifth, sixth and seventh were scoreless. Boston tied it in the eighth. Gainer singled, and scored when Lewis homed. Boston won the world's championship by scoring one in the ninth when Hooper homed.

## DON'T SUFFER WITH WINTER ECZEMA

This irritating and exasperating malady can be relieved with S. S. S.

Winter Eczema, sometimes called TETTER, is one of the many varieties of the irritating and tormenting disease known as Eczema. A deep-seated blood disease that is so often confused as a Skin Disease. Don't think that you can rid yourself of it by washing with medicated soaps or medicated lotions. You will save both your time and money by leaving them alone. Winter Eczema is seemingly dead during the hot months, but with the advent of cold weather it comes to life with renewed vigor. The head, feet and hands are the parts most often attacked, though it sometimes appears on other parts of the body, the skin hardens, cracks open and bleeds, while the itching and burning is at times almost unbearable. Scratching only makes it worse, sores and scabs forming where the skin is broken.  
In this form of Eczema brownish white crusts sometimes form which scale off in fine particles, leaving the skin raw and inflamed. It is especially painful and severe when confined to the hands, which often become so badly affected that the sufferer is unable to perform the lightest work. This, like all other types of Eczema, is due to the acid poisons in the blood and not to local causes. The trouble is more than skin deep, and washes, soaps, powders and salves nor anything else applied to the surface cannot possibly do more than soothe the burning and itching or relieve temporarily the inflammation and pain.  
It is the acids thrown off by the blood and which are forcing their way through the pores that cause the skin to harden, crack and bleed, and produce the irritation and soreness. S. S. S. neutralizes these acid poisons and cleanses the blood of all irritating substances and humors, and does it promptly and effectually. Beware of imitations—refuse substitutes.  
S. S. S. purifies and invigorates the thin acid blood, and builds up the entire system; then the unsightly eruptions heal; the skin becomes smooth and soft, and all signs of the Eczema disappear. Get S. S. S. from your druggist, and write for our special book on skin diseases—free. Write the Swift Specific Company, Medical Department, Room 17, Atlanta, Ga.
