Warning Given England.

LONDON, Sept. 15.—(By Mail).—A remarkable instance of provision relating to the war was cited here today with an extract from a letter written by the famous General Gordon, to a friend in 1882. He wrote:
"Every Briton should think of the future and each one should insist on the government possessing a measure for compulsory universal military training! So far as England is concerned, she need not, for the next quarter of a century, be under any apprehension of serious difficulties arising from any of her European neighbors, but in 1910 or thereabouts, there will have arisen a naval power which may prove mightier than she, and should she (Germany) gain the supremacy, England will become extinct both as a land and sea power, and all her dependencies, including India, will fall into Germany's clutches. You may live to see this. I shall not, but when that time comes, remember my words."

ITALY TO HELP IN WARFARE IN BALKANS

PARIS, Oct. 14.—"Italy will participate fully in the allies plans," Premier Vivaldi today declared in the senate. "She will aid the allies in the Balkans," the Petit Journal's Rome correspondent said on "good authority."

New Egg Record Made.
PHILADELPHIA, Oct. 14.—A new world's record for egg-laying competitions was established when Lady Eglington, a White Leghorn, laid her 237th egg in 320 days at the Delaware college agricultural experiment station, Newark, Del. The best previous record was 284 eggs in 365 days, made last year by a Plymouth Rock. The new champion is an American bird, bred from an English strain at the Eglington farm, Greensbrook, Md. Five birds of this strain have laid 1123 eggs in 47 weeks. The average hen lays about 79 eggs a year.

This is Vera Martin formerly of Holdman, Oregon, now of Drummond, Idaho. Does she look better with glasses or without them? A cross eye, as far as useful vision is concerned, is a blind eye. Her eyes are straight. With glasses she has normal vision in both eyes. The principles of glass fitting that will straighten a cross eye and redevelop the lost vision will give YOU a glass for distant vision that will never require changing.
