ADVANCE FORCED FOR ORE LAMBS

(From Wednesday's Journal.) Advance of 15c was forced for lambs in the local market today. Sales were shown at North Portland this morning at \$7.15 as compared with previous tops at \$7.

How's This? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligation made by his firm.

There was only a limited supply of tutton and lambs available in the yards this morning and these were from the Willamette valley. On the basis of these sales it is believed that extreme quality lambs would bring at least an additional dime.

Eastern markets were steady to lower for mutton and lambs this morning. General mutton market: Choice spring lambs... \$7.15

Hogs Are Steady at \$8.60. There was a steady tone generally in the hog trade at North Portland with \$8.60 again as the top. There was a fair run reported in the yards overnight. No change was shown in the sentiment of the trade.

Reports from Idaho indicate that there is fair shipping of hogs from there to points east of the Rockies. Eastern markets were mixed in character today, but were still very high as compared with the coast.

General hog market: Best light... \$8.60

Cattle Trade Nominal. There were practically no arrivals noted in the cattle trade overnight at North Portland. Trend of the trade is showing no change from Monday; top not being available and the demand for off grade is stagnant except at very low prices.

General cattle market range: Select steers... \$6.75-\$6.85

Livestock Shippers. Hogs—B. Morgan, Goldendale, Wash. one load; Grant, Bunnell, Maryhill, Wash. one load; George Houghton, Wash. one load; R. Glassco, one load; W. L. Bishop, Dayton, one load; J. D. Proffitt, one load; F. B. Decker, Gervais, two loads direct to Union Meat company.

EASTERN BUYERS ARE STILL AFTER WHEAT

(From Wednesday's Journal.) The market for wheat is showing a very slight increase in activity at country points. Eastern interests are again reported operating on a small scale in the interior and some of the exporters with ships to fill are likewise going after supplies in a quiet way.

Exporters continue to talk about prices being above an export basis but it is nevertheless a fact that they are giving orders to their agents in scattered districts to purchase at these quotations, in fact a fraction more has been paid.

position among producers to help the exporter out of an alleged hole than was shown some days ago. Flour market is gaining in activity but no change in price is announced. In the meantime millers are watching the wheat market with great interest.

Quarnberg, ex-horticulture inspector of this district. This famous tree is almost 90 years old and produced a fair crop of apples this year.

The department will make reproductions of these apples in size, shape and color, and these will be returned and later turned over to the Washington and Oregon Historical Societies, with photographs of the old tree and its history.
