

"How do you make such delicious muffins? Mine are always so dry. And if I make the batter this they fall. How do you do it?"

"I make them about as you do, only I use K C Baking Powder. Mine always turn out well, so it must be the baking powder."

It is the baking powder. To make muffins, cakes and pastry rich and moist, yet light and feathery, a modern double acting baking powder must be used—one that will give off leavening gas in the oven as well as in the mixing bowl.

### K C BAKING POWDER

is really a blend of two baking powders, one of which starts to raise as soon as moisture is added. The other is inactive until heat is applied. This sustains the raise until your muffins, biscuits or cake is done.

K C Baking Powder costs less than the old fashioned quick acting kinds, yet you need use no more and it is superior to them in every way.

Try a can at our risk and be convinced.

### GIRLS! HAVE WAVY, THICK, GLOSSY HAIR FREE FROM DANDRUFF

### SAVE YOUR HAIR! DOUBLE ITS BEAUTY IN A FEW MOMENTS—TRY THIS!

If you care for heavy hair, that glitters with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. Its destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fall out, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25-cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

### W.C.T.U. WILL FIGHT FOR EQUAL VOTING LIKEWISE PROHIBITION

ORGANIZATION WILL NEVER BE OUT OF POLITICAL CAMPAIGNS.

National Gathering Asks Congress to Reimburse Private Citizens for Money Expended in Rescue of Miss Ellen M. Stone.

SEATTLE, Ore., Oct. 15.—The national convention of the Women's Christian Temperance Union began its final day's deliberations with all its more important business except selection of next year's convention city disposed of and devoted the day chiefly to consideration of methods of campaign work. In all the discussion of the convention the officers and speakers have taken the view that women suffrage and prohibition are to be fought for unceasingly in state and nation until obtained and that hereafter the Women's Christian Temperance Union will never be out of political campaigns, so that the organization must adapt itself to changed conditions.

For the next three months the union will battle for woman suffrage and prohibition in the states where these subjects are up for balloting and at the same time there will be a nation-wide effort to bring pressure on congress to pass the national prohibition amendment.

The convention today elected Miss Bary Frances Anderson of Boston, general secretary of the young people's branch of the union, and Rev. Mary Kuhl of Chicago, superintendent of the department which is seeking the use of unfermented wine at the sacrament of the Lord's supper in churches. With these exceptions, all the old superintendents and officers of junior organizations were re-elected.

The convention adopted a resolution urging congress to pass the long-pending bill appropriating \$30,000 to reimburse the private citizens of the United States who contributed the fund for the ransom of Miss Ellen M. Stone. She was captured by Macedonian brigands many years ago and held prisoner until the ransom was paid to them. Miss Stone is attending the convention and is now a national lecturer of the Women's Christian Temperance Union.

### PENDLETON SHARES IN PROVIDING FOR DINING CAR NEEDS

PORTION OF PISHABLE GOODS FOR UNION PACIFIC SECURED HERE.

Diners on One Railroad Use 25 Cars of Potatoes Annually; Butter, 150,000 Pounds; Over Million Pounds of Meat Used Annually.

But few people have any idea of the immense amount of foodstuffs that are consumed upon railroad dining cars in the course of a year. Big terminals like Portland or Omaha get the bulk of this trade but in perishable goods like milk and eggs, Pendleton gets a fair share during the year from the Union Pacific. This system with which the O., W. R. & N. is affiliated, handles thousands of pounds of foodstuffs in a year through its commissary department. An idea of what this will amount to is seen in the following figures compiled by the railroad and made public through its press department:

Potatoes—approximately 25 barrels; flour—12 to 15 carloads. In addition to this 500,000 loaves of bread are purchased; fresh meats—(exclusive of smoked meats) approximately 1,500,000 pounds per year; coffee—approximately 60,000 pounds; tea—5,000 pounds; butter—150,000 pounds; sugar—325,000 to 350,000 pounds; cream—140,000 quarts; milk—175,000 quarts; chickens—150,000 to 175,000 pounds; eggs—1,800,000.

As a matter of general information, the Union Pacific dining cars served last year approximately a million and a half meals and the same number were served at the various eating establishments along the line. At the present time, this system owns 67 dining cars, 28 buffet cars, 14 hotels and restaurants and in addition to this operates all the boarding camp service on the system.
