King Constantine Risks Revolution in Greece by His Determination to Dissolve Parliament.

TRYING TO MAKE COMPROMISE

Plan Appears to be to Get Members of the Opposition to Accept Places of Minor Importance in New Cabinet—War Party, However, Hopes to Win the Election.

LONDON, Nov. 6.—King Constantine of Greece has risked precipitating a revolution Athens dispatches state that he is determined to dissolve parliament rather than turn the governmental power back to Venizelos, and that he will ask Premier Zaimis to retain control pending a general election. It will require at least two months to prepare for an election. It is believed, Zaimis will attempt to reconstruct the cabinet with the same ministers who resigned, with the probable addition of two Venizelos supporters, in an effort to unite the factions. It is probable that Venizelos himself will be asked to accept a post.

Young Farmer is Attacked by Mad Dog; Kills Beast

FINIS KIRKPATRICK IS RECEIVING TREATMENT—DOG ATTACKS HOGS.

Bitten by a mad dog, which he later killed after it had run amuck and become a real menace, Finis Kirkpatrick, son of R. E. Kirkpatrick, is now receiving treatment to counteract any danger of the development of the dread disease through the laceration. Young Kirkpatrick was attacked by the dog Thursday afternoon at his father's ranch on the reservation north of the agency. The animal, a female Airedale, had come to the ranch twice during the morning and had acted strangely. During the afternoon it came back and savagely attacked the hogs and chickens on the ranch. Several of the hogs were bitten and then the frenzied dog attacked and killed two shepherd puppies and bit their mother and another dog savagely. Kirkpatrick came to the rescue of his dogs, lacerated and it was while trying to pull the mad brute away that he was bitten on the arm. He went at once to the house, secured a rifle and shot the animal.

District Attorney Steiner had gone out to the Kirkpatrick ranch upon hearing that a mad Airedale had showed up there, thinking it might be one of his dogs. He brought the animal's head into the city and turned it over to Dr. E. O. Parker. Dr. Parker sent it at once to the state health officer and received word back last evening that an examination had shown the presence of Negri bodies which prove that the dog was suffering from rabies. They wired at once to Detroit, Mich. for some of the Pasteur serum and expect it here not later than Monday. The wound has been cauterized and the physicians do not anticipate any serious consequences providing the serum comes through on schedule time.

The dog would also probably have bitten Frankie Carr, 8 year old son of Mrs. E. Carr who cooks on the Kirkpatrick ranch had it not been for the protection he received from another dog. Snapping and growling, the mad beast made for the little boy but one of the house dogs sprang to his rescue and, in the conflict, received wounds which will probably mean its death.

Will Speak Here

Richard P. Holston, the "Hero of the Merrimac," and who has later attained prominence as a congressman from Alabama and who introduced in congress the constitutional amendment for national prohibition, will be in Pendleton on Tuesday, Nov. 16, and that evening will conduct a national prohibition rally in the high school auditorium. He will be assisted by Dr. Edwin L. Stearns of New York who is one of the most noted anti-saloon lecturers in the country. Arrangements are Being Made Here for League Game

ADVANCE REPRESENTATIVE OF STAR PLAYERS IS NOW IN PENDLETON.

Heralding the coming of the National and American League All-Stars, who will play here a week from today, W. E. Gorman, official advance representative of the ball players, arrived in Pendleton this morning and today has been conferring with the local Commercial club committee and completing arrangements for the first big league game ever staged in this city.

Mr. Gorman, who has been an advance agent for many years, having represented such theatrical stars as Sarah Bernhardt and Mrs. Patrick Campbell, is very much pleased over the enthusiasm manifest here over the game and over the preparations which have been made for the entertainment of the players. The baby Round-up, which will be staged right after the game, he declares will be as much of a treat to the all-stars as their game will be to local people.

Political Battle on Defense Plan Seems to be Near

BRYAN'S OPPOSITION TO WILSON WILL BE CARRIED BEFORE THE PEOPLE.

WASHINGTON, Nov. 6.—What promises to develop into one of the greatest political battles in the modern history of the United States has been fairly launched. With Bryan's open declaration of war on the president's preparedness program, the issues between the Wilson and Bryan factions are now before the country. In less than a month, congress will reconvene. Then a struggle will be precipitated in earnest. The contest will be between principles and not personalities. Both the president and Bryan are determined to avoid even the appearance of a personal breach. It is freely predicted that each leader will carry the campaign "into the country."

NISH IS CAPTURED BY BULGARS AFTER 3 DAYS SHELLING

Official Announcement of Victory at Berlin Causes Great Joy Among People—Way to Constantinople Will Soon be Opened.

Allies Reported to Have Won Victory in Macedonia

French, British and Serbs Said to Have Driven Bulgarians From Prilep After Several Days of Fighting.

BERLIN, Nov. 6.—Nish, Serbia's war-time capital, has fallen before the three days pounding of the Bulgars. The official announcement today of this important victory caused great jubilation here, and led to the belief that before long the Germans and Bulgarians will sweep triumphantly to Constantinople to aid the Turks. At the same time it was announced the Germans had captured Varavrin. This leaves only 25 miles to complete the rail connection across Serbia, since the Bulgarians hold a line from Nish southeastward to the frontier, though possibly the Serbs are between Varavrin and Nish, and probably are trying valiantly to escape the closing jaws of the German-Bulgar trap.
