Writing for the Portland Oregonian from the Panama-Pacific exposition Anne Shannon Louros has the following to say about the travelling of the bronze "Bickaroo" done here by A. Phinney Proctor.

Two events made one Oregonian building interesting Monday, in spite of the rain, the first in seven months. The bronze figure "The Bickaroo" by A. Phinney Proctor, was unveiled in the art gallery, the program being directed by N. T. Moore of Coquille. Mr. Moore delivered the main address on sculpture in general, and called attention to the artist's other works exhibited, he two last-minute pieces that give the south entrance to the Fine Arts Gallery. Miss Hatch, custodian of the art room, gracefully drew away the American flag from over the buckaroo and it was greeted with appreciative applause. Mr. Cronin, of Pendleton, told about the Bickaroo and the leading bronzes and Miss Hatch talked on the art room.

**Sculptor's Work Remarkable.**  
Mr. Proctor is one of the most notable sculptors in America, having worked a great deal abroad and traveled the world over in his study of subjects. His great success has been with animals, his particularly with western subjects. He has lived in the west—In California and other places—and from the rugged, rawness of new scarpers and the strength and sinuous beauty of wild animals in their native haunts. His plans include trips—already nipped out in detail—into the most animal-inhabited wilds of Africa and of India. That he may know animals in the untouched and untrammeled and make it live again in bronze for all of us to know.

A couple of years ago he was attracted by the Pendleton Round-up. It was an opportunity to see the native western horse and the horsemen in attitudes that belong to the range and the cattle life so rapidly passing into history. He came—he was considered; he went to New York for his family and he has been here ever since with no immediate prospect of leaving. He is interested in becoming in Oregon that he has acquired a ranch in Harney county where he means to make a home for himself and his family.

**Oregon Is Artists' Country.**  
Long long ago when I first traveled over Oregon, I said: "This is an artist's country. It is the natural haven for creators." I know other writers and artists in the east who have their eye on a ranch in Oregon; the coming of the Proctors to be one of us to be but the beginning. Oregon will some day be better known through her sculptors, painters, writers and playwrights than she ever will be through her boomers and boosters.

## LOOTERS BURN WRECK OF THE SANTA CLARA

MARSHFIELD, Ore., Nov. 12.—The wreck of the Santa Clara, which went ashore on south spit a week ago Tuesday with loss of 12 lives, has been on fire all night and the steamer is burned to the waterline. The wreck was set on fire about 11 o'clock last night, presumably by some of those who have been looting. There was still some freight in the hold which could not be reached, and the plan evidently was to burn off the top, let the sea wash away the debris and leave the hold open for further search. There was a quantity of crude oil floating in the hold, and this quickly ignited.

**Wrecked Masses of Flames.**  
At midnight the vessel was a mass of flames. At 3 o'clock the oil tank of the boat exploded, and dense black smoke shot up in the air for 200 feet. It is probable that what freight and express was left in the hold is ruined.

Many have been going on the wreck searching for more plunder, and whether any were caught there when the fire was started is not yet known.

It is said several postoffice department secret service men are here looking into the rifling of the mail sacks. A representative of a wrecking company was expected here to look into prospects of salvaging machinery, which is probably now ruined.

**Looters' Profits Small.**  
None of the organized bands looting the ship profited much, as a great amount of goods was stolen by others after the goods had been taken from the boat.

J. Simon of Simon Bros. wrecking company of Portland, arrived here today. He will try to save the machinery of the Santa Clara. He will examine the wreck before buying it. Loot from the vessel was sold here on the streets. Shoes, shoe blackings and other articles were offered at reduced prices.

One wagon load of plunder was dumped out on a side street, where the holder tried to dispose of it. One lot of goods stored in a warehouse was robbed by someone who took most of the valuable stuff.

**Masked Men Get \$200.**  
GATMAN, Ariz., Nov. 12.—Four masked men held up the Oasis cafe and escaped with \$200.

## GIRLS! HAVE WAVY, THICK, GLOSSY HAIR FREE FROM DANDRUFF

SAVE YOUR HAIR! DOUBLE ITS BEAUTY IN A FEW MOMENTS—TRY THIS!

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. Its destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fatten, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25-cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

**A Rainbow Lizard.**

## PROVEN SWAMP-ROOT AIDS WEAK KIDNEYS

The symptoms of kidney and bladder troubles are often very distressing and leave the system in a run-down condition. The kidneys seem to suffer most, as almost every victim complains of lame back and urinary troubles which should not be neglected, as these danger signals often lead to dangerous kidney troubles.

**Dr. Kilmer's Swamp-Root** which soon heals and strengthens the kidneys is a splendid kidney, liver and bladder remedy, and being a herb compound, has a gentle healing effect on the kidneys, which is almost immediately noticed in most cases by those who use it.

A trial will convince anyone who may be in need of it. Better get a bottle from your nearest drug store, and start treatment at once. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Bingham, N. Y., for a sample bottle. When writing be sure and mention the Pendleton Daily East Oregonian.

## BERT PIXLER, TIRED OF PRISON, SEEKING TO REGAIN FREEDOM

WRITES TO DISTRICT ATTORNEY SAYING HE HAS REFORMED.

His Whole Soul and Spirit is Changed. Does His Thoughts Turn to Unguarded Pastures—He Has Taken Up the Cross, He Says.

Bert Pixler, many times a convict and who is just now marking the passage of time in the Oregon state penitentiary, has reformed. His whole soul and spirit is changed, he says on himself. No longer do his thoughts turn to unguarded pastures and the opportunities they offer. He has taken up the cross, he says, and will follow it to the best of his ability, providing the powers that be see fit to give him his liberty. For, he it known, Bert has six years more to serve before his sentence has run its course.

Bert will be remembered as the cattle rustler who was pardoned by Governor West just about two years ago and who, a few days after his return, proceeded to replenish his exchequer by butchering some Indian cattle. Having served two terms from Union county and one from here before, Judge Phelps had little consideration for him when he was convicted again. He gave him eight years straight.

The following letter just received by District Attorney Stelwer reveals the change which has come over the cattle thief.

Mr. Frederik Stelwer,  
Dear Sir:—You remember that you made me a promise that after doing a couple of years you would lend me your assistance toward obtaining my freedom. I have thought that matter over carefully and have come to the conclusion to ask for permission to leave the state as soon as I am free and ask for your cooperation. My whole heart and spirit is changed, it is more in harmony with truth, love and righteousness, have no ill will toward any man and hope and pray that you have none toward me. Your promise is mine with the Lord. I will repay. After all there is none of us perfect, we all come short of the glory of God and for this I do Christ die on the cross, which cross I have taken up and will follow to the best of my ability by His help. I hope and pray that you will recommend my release upon the condition that I leave the state. I am looking forward to an early and favorable reply. Very respectfully,  
BERT PIXLER.

## BELGIANS ARE SENTENCED.

Many Imprisoned for Defusing to Work for Germans.

AMSTERDAM, via London, Nov. 12.—A Belgian correspondent of the Telegram reports that the German military governor of the Belgian province of Hainault has announced that an engineer named Lenois had been sentenced to five years in prison for refusing to resume work under compulsory direction of the Germans. It is also reported that for the same reason several other engineers have been sentenced to terms of four to 12 months, and 87 workmen to terms of eight to 24 weeks.
