Have your tires been 99% satisfactory during the past two years?

If in 1914 and 1915 you have used ten tires and one has "gone bad," you have only been 90% satisfied. If two have "gone bad," your score is reduced to 80%.

In 1914 and 1915, out of every million Diamond Squeegee Tread Tires, 990,000, or 99% have made good.

Was your percentage that high?

If nine friends and yourself had between you, in 1914 and 1915, bought 100 Diamond Squeegees for your cars, but one tire out of the whole lot would have required adjusting.

If it takes you 15 years to use up 100 tires yourself, in all those years only one Diamond Squeegee will cause you any trouble.

These are facts based on the law of averages—upon which billions are invested in the life insurance business.

Start using Diamond Squeegees. You can't beat "99% satisfaction" in the tire business.

LOCAL LODGE EAGLES HAVE BIG TIME LAST NIGHT; MANY PRESENT

AFFAIR IS INFORMAL SMOKER AND EXCELLENT PROGRAM IS GIVEN.

Sporting Events Wind Up Program Which Is Enjoyed by All—Roy Alexander Acts As Chairman of the Evening—Musical Numbers Furnish Enjoyment to All Present.

The local lodge of Eagles held "high jinks" last evening in their hall and a large number of friends enjoyed a genuine good time. The affair was in the nature of an informal smoker with a program and refreshments completing the evening.

The closing part of the program consisted of sporting events. A 9-ga. no-finish cock fight between "Tommy Smart" and "John Dyer" furnished plenty of amusement and the four round boxing contest between Buddy Stevens and Jack Carpenter was a good one. Young Dogier and Kid Kopp also put on four lively rounds.

Roy Alexander acted as chairman of the evening and was particularly good as the kangaroo judge before whom were brought many offenders by Marshals Estes and Gibson. His own father, R. Alexander, was one of the prisoners led up to him, and announcing to the audience that this was the first opportunity he had ever had of getting even with the man who had given him the dickens all his life, he proceeded to impose a stiff fine upon him.

Aside from the sporting events the following very enjoyable program was given.

BIG GOLD STRIKE REPORTED.

Greenhorn Mine Owners Expect to Reel \$10,000 in 3 Months.

BAKER, Ore., Nov. 12.—One of the richest strikes in the Greenhorn district in years has been reported to William Barker, of this city, who has received samples from the Petty & Ables property in that section, showing a high content of free-milling gold.

What was thought at first to have been merely a pocket in the mine was struck some time ago, but recent developments have shown a vein averaging nearly 1000 to the ton, and although it has been opened up for 60 feet, neither end has been located. One pan of dirt taken out six feet below the surface ran 1400, and four tons of ore milled yielded 13000. The mine is at the head of Olive creek, two and one-half miles east of Greenhorn. AUTO AND STEER HAVE FIGHT FOR SUPREMACY

MT. VERNON, Nov. 12.—Gasoline power triumphed over mere "beef" near here a few days ago in a strange duel which was fought out between a small auto and a large steer on the road between Mt. Vernon and Dayville.

R. J. Stockdale, G. W. Reynolds and their families were in the car and were progressing at a moderate rate of speed when the animal which had been browsing at the road side, suddenly challenged their right to the highway, taking the center of the road. His bellow of defiance disregarded, the belligerent rammed a horn into his opponent's radiator, but was thrown to the ground, the front wheels of the machine passing over him.

None of the occupants of the car were hurt and the damage to the machine was slight.
