GARRY STOMACH JOY IN YOUR VEST POCKET

Tallman & Co. Have such Fifth in This Dyspepsia Remedy That They Guarantee It.

One of the greatest successes in the sale of medicine has been achieved by Mi-o-na, the standard dyspepsia remedy, and its sale is increasing so rapidly that Tallman & Co., the popular druggist, has had work to keep a stock on hand. It is very popular with bankers, ministers, lawyers and others whose business or profession keeps them closely confined, while those who have brought on indigestion through irregular eating, worry or other causes, have found relief in this reliable remedy.
Mi-o-na comes in tablet form and is sold in a metal box especially designed for convenience in carrying the medicine in the pocket or purse. It is pleasant to take, gives quick relief and should help any case, no matter how long standing. This remedy has been so uniformly successful that Tallman & Co. will in future sell Mi-o-na under a positive guarantee to refund the money if it should not prove entirely satisfactory.

HOW "WORMWOOD" SWAYED AMERICAN LEGISLATION.

In a recent interview concerning "Wormwood" her greatest work visualized as a notable screen drama by William Fox, Miss Corelli said: "I am glad that, as a distinguished American statesman recently wrote me my book 'Wormwood' has resulted in the prohibition of the green poison, absinthe, into America. This is a great thing to have accomplished, to have saved a noble nation from one of the most malignant curses of modern times—the most crying evil that exists in France. I have reason to love America for the sake of the many friends my writings have won for me there. Friends whose faces I have never seen, but who correspond frequently with me and whom I seem familiar to know through the kindly written expression of their thoughts. With regard to the present story, which I trust may help to rouse public attention to a pernicious evil which is gradually spreading all over the world, I believe most intelligent Americans who have visited Paris will read it with more or less anxious interest. It was, I think, a famous American senator who quite recently wrote a long and exhaustive practical account of inestimable mischief wrought by the poison-craze whose dire effects on one individual have attempted to depict, and one of more leaders among thinkers, physiologists and scientists would raise their voices to aid in denouncing this fatal brain-degradation and bringing it well before the consideration of those who are the heads of authority in France. It might be checked in its destructive progress, and with a little earnest and decisive work, be stamped out altogether, as a disease is stamped out by perfect sanitation. In this hope I have written 'Wormwood.' In this spirit I trust it may be received.

MOTHER! DON'T TAKE CHANCES IF CHILD'S TONGUE IS COATED

IF CROSS, FEVERISH, SICK, BILIOUS, CLEAN LITTLE LIVER AND BOWELS.

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish, stomach sour.
Look at the tongue, Mother! It coated or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailments give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this complicated poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well-playful child again. A thorough "inside cleaning" is oftentimes all that is necessary. It should be the first treatment given in any sickness.
Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."

Will Fight Submarines.
LONDON, Nov. 15.—English experts may go to Italy to direct the anti-submarine campaign against the Austrians, it was reported. The English are anxious for the safety of their transports bound to the near east as well as for the security of Italian ships.

What Every Mother Knows.
Every Mother knows that during the trying period before baby comes the use of Mother's Friend, a dependable external remedy obtained of druggists, is absolutely necessary so as to avoid the pains caused by undue tension upon the cords, ligaments and muscles resulting from muscular expansion. Under the surface is a network of fine nerve threads and by applying Mother's Friend all these are soothed and helped. Expansion is natural and pains are relieved. In many cases nausea, morning sickness and other distresses are avoided.
