Patent.
Wm. P. Crow, 377.75 acres in Sec. 17, T. 6 N., R. 32 E., W. M.

Own Guns Work Havoc.
NEW YORK, Nov. 18.—An interesting and important disclosure in the accounts by eyewitnesses of the latest Zeppelin raid on London, was that a considerable part of the damage then inflicted on the city was done by the shells fired from the ground to bring down or drive away the ruthless invaders.

That is one of the difficulties, and one of the most serious, that are created by an attack of this sort. Defensive operations against an airship overhead constitute an addition to the danger of the people below. A missile that rises to near the enemy craft and misses it, as the great majority do, comes down with much of the power to kill and destroy that is possessed by the bombs intentionally dropped.

The ideal solution of the problem, of course, would be not to let the Zeppelins reach the city at all, but that requires the use of an enormous number of guns, placed on the circumference of a vast circle. The French seem to have managed to defend their own capital in this way, but the task of the British is a harder one, both on account of London's greater extent and of the fact that most of the route followed by the Germans in their case is over water instead of land.

Paris has better weather, too, than London.

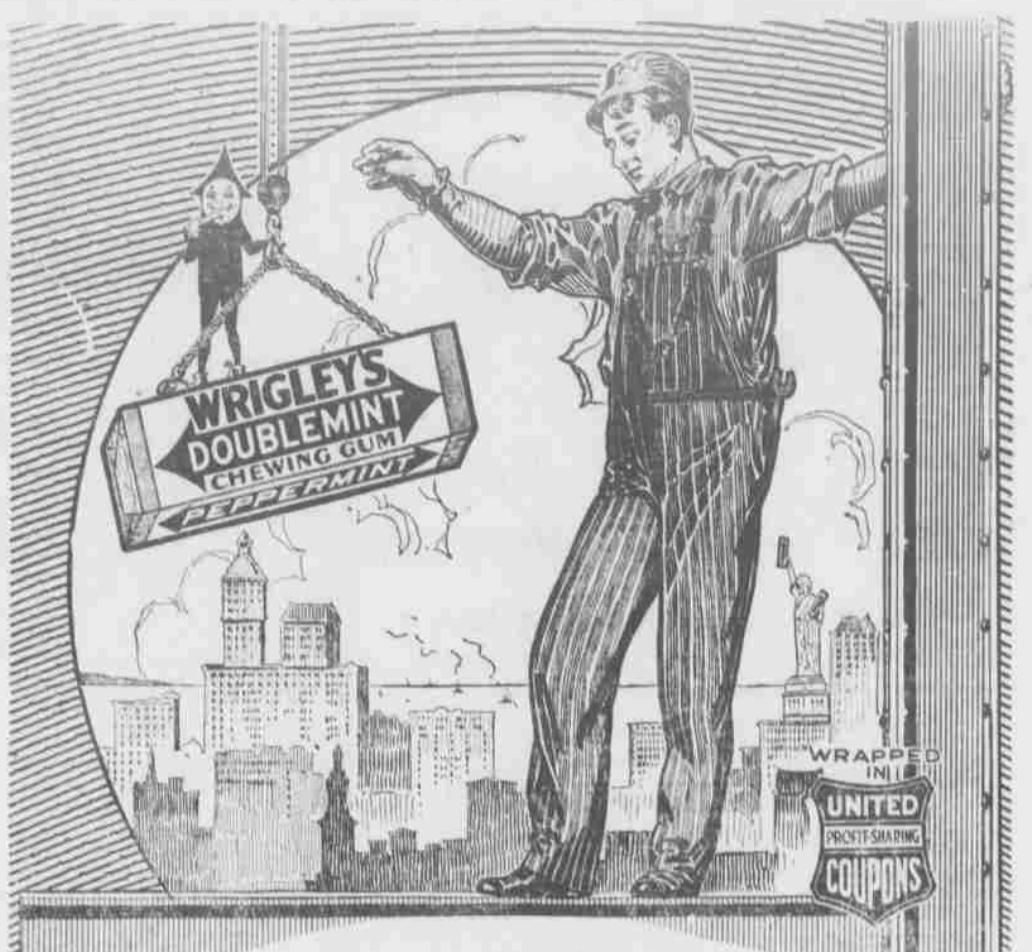

Farmers Will Play Host.
CHEWALIS, Wash., Nov. 18.—The executive committee of the Lewis County Farmers' Extension School, which will be held in this city November 29 to December 1, inclusive, met here to perfect arrangements for the session. It was planned to name a joint committee of 15, including the executive committee, whose duty will be to arrange for a big basket dinner of the old-fashioned kind to be served on Tuesday of extension school week, with the farmers attending the school as hosts.

A year ago the Citizens' Club of Chewalis offered a cash prize of \$10 to the Lewis county schoolboy or girl who attended the farmers' school here and wrote the best report. This year the club has renewed the offer.

Impressment—the sending of men for the British navy—was practiced for centuries and did not become obsolete till just before the Crimean war. Sometimes the crews were taken from foreign ships on the high seas.

The British are reported to have erected a \$120,000 laundry at the rear of their lines in France. The building is said to be substantial, and is taken as one of many indications of a long struggle with little prospect of the Germans breaking through.

Farm Topics Attract.
WENATCHEE, Ore., Nov. 18.—The agricultural campaign of the Great Northern Railway in Okanogan county, headed by Professor Shy, assisted by County Agricultural Teacher, continues to attract large crowds at the meetings. Large and successful meetings were held at Pritchard, Grand and Abnott, on Wednesday and Friday, and the morning meeting.

Steady!

Whatever our toil—indoors or out—on big jobs or little: we need patience, tranquil nerves, strength of body and presence of mind.

We need keen appetites and good digestions. We need to keep mouth and throat moist and refreshed, the teeth clean and breath sweet. In other words, we need WRIGLEY'S!

For there's where this wholesome, flavor-lasting, impurity-proof refreshment is worth its weight in gold. Yet it costs but a mite.

YOUNG GIRL RESCUES FIVE IN BURNING HOME

ABERDEEN, Nov. 18.—One by one Mrs. John Barech and her three children were carried down a ladder from the second story of their home to safety by Miss Hilja Hopla, who was staying at the Barech home while Mr. Barech is in Seattle in search of work. All other avenues of escape were blocked by the flames.

Percy Kelshaw, the 13-year-old son of Mrs. Barech, died in the attempt to make his way through the flames in the lower part of the house and fell almost within sight of the rescuers. Mrs. Barech is in a critical condition from burns that she sustained before she was taken from the building.

All efforts to reach Mr. Barech failed.

Denmark yearly produces 271,000,000 cigarettes in 21 factories.

BOY, 14, GOES TO COLLEGE

Lad Prepared for Entry by His Own Mother.

MADISON, Wis., Nov. 18.—The 14-year old son of Professor E. A. Ross, of the University of Wisconsin is the youngest student ever entered in the Madison university.

Young Ross is fond of all sports, and plays tennis and football well. He is entered in the college of letters and science as a freshman. He is especially good in mathematics and has a leaning toward foreign languages. Because he thinks the South American countries will have an influence on the United States in the future, he is taking up Spanish. He also studies German.

The young man received his early training at home. Instead of going to school, he spent three hours daily under the tutorage of his mother. The rest of the time he spent in playing.

Tired, Nervous Women Need the Help of

Tired, nervous women need the help of a natural tonic which will build up bodily strength, help the nerves, increase the appetite and improve the digestion. When women find themselves in a tired, nervous condition, or suffer from sick headache, biliousness, and loss of appetite, it shows that the system is run-down and unable to respond to the demands which Nature imposes on it. Every woman should know what these conditions mean, and that the way to find quick and sure relief, is to take

BEECHAM'S PILLS

at the first warning which tells that anything is wrong, for these pills quickly make everything right. They are a remarkable combination of remedial herbs, which act favorably on the organs, and are so mild that they cause no discomfort or disagreeable after effects. They remove impurities from the blood, stimulate the liver, regulate the bile, and have a gentle and thorough laxative effect which removes constipation.

Beecham's Pills are a great boon to women whenever they feel tired, nervous and depleted, for they carry strength and life to body, blood and nerves.

Directions of special value to women with every box.

They Carry Strength and Life to Body, Blood and Nerves

ONE OF THE FRENCH "BLUE DEVILS"

FRENCH "BLUE DEVIL" - INTERNATIONAL FILM SERVICE

By the queer costumes some of the French infantrymen at the front have earned the sobriquet of "Blue Devils" in their uniforms. The German command they are met by during their attacks and retreats are

equipping themselves instead in steel helmets, goggles, anti-gas masks, revolvers and formidable knives. As a result the modern French soldier presents anything but an inviting picture and resembles a movie highwayman.

DIVORCE PLEA IS UNIQUE

Woman Says Cruelty Made Her Lose 30 Pounds.
WASHINGTON, Nov. 18.—Weight of plaintiff at time of marriage, 118 pounds.

Weight of plaintiff at time of filing divorce suit, 88 pounds.

Loss of weight due to alleged cruelty of plaintiff's husband, 30 pounds.

This was the unique argument used by Amelia E. Heath in filing suit yesterday in District Supreme Court, for limited divorce from Clifton C. Heath, an employe of the Patent office, said to receive a salary of \$75 a month.

"At the time of marriage," read the petition, "the plaintiff weighed 118 pounds, but the cruel treatment to which she had been subjected and the distress and anguish of mind occasioned thereby have so reduced the plaintiff physically that she now weighs 88 pounds."

"They were married here December

17, 1912, and have no children. The wife says her husband deserted her October 19, 1915. She requests permanent alimony. Edward L. Giles is her attorney.

Woman Slayer is Sane.
SEATTLE, Wash., Nov. 18.—Mrs. Martha Kawata, white wife of Japanese, who shot and killed a negro (George Grant), here last spring and who was found not guilty by reason of temporary insanity, was discharged as sane by a jury in Judge Everett Smith's court.

Broom corn is being grown in Panama.

THE great impending fact about the two world famous CALIFORNIA EXPOSITIONS is that the opportunity to visit and enjoy them will soon be gone

READ THAT AGAIN—IF YOU HAVE NOT SEEN THEM. Don't say "I can't go." You can go—if you will. You will go, if you realize what the trip means.

Historically, geographically, educationally, from point of art, science or philosophy—they are the greatest you will see. But you will have to GO RIGHT AWAY if you see them.

We will plan the trip for you. Fares, information, expert travel service our pleasure. ASK US.
