NEWS OF PENDLETON

Child is Ill.

The little child of Mr. and Mrs. Walter McCormick is reported to be quite ill with pneumonia.

Ill With Tonsillitis.

Archibald Blakey, little son of Deputy Sheriff and Mrs. J. A. Blakey, is confined to his home with a severe case of tonsillitis.

Attended Trap shoot.

A number of Pendleton men went down to the Walden Rhea ranch on Butter Creek yesterday and attended the turkey shoot held there. They report a very successful shoot.

Judgment is Given.

Judge Phelps has handed down an order in the case of Laura D. Nash vs. Mrs. Addie Smith et al. foreclosing a mortgage and giving plaintiff judgment for \$1350.29, interest, costs and attorney fees.

Judge Has La Grippe.

Judge Thomas Fitz Gerald, city recorder, is one of the latest victims of the la grippe epidemic. He had a severe attack Saturday and while he had the fever broken this morning he was unable to conduct police court this morning.

New Reos Arrive.

The Pendleton Auto Co. has just received a carload of the new 1915 Reos—fours and sixes. In design and lines they are a new departure from anything shown here before at or near their price and are creating considerable comment on the streets.

Riverside Drive Being Paved.

Paving operations are now under way on Riverside Drive by the Warren Construction Co. The preliminary work was started last Friday and is now well under way. The work will be rushed to completion before the cold weather sets in.

Light Snow Last Night.

A light snow mixed with rain fell during the night and this morning there was a sleety coating over Pendleton. The foothills east and south of the city are white with snow and the cold wind that swept from them yesterday made overcoats and warm fires necessities for comfort yesterday.

To Entertain Woolgrowers.

The Commercial Club is making arrangements for the entertainment of the members of the Oregon Woolgrowers' association who will gather here in convention on Friday and Saturday of this week. The 1914 convention was held in Pendleton and the woolmen liked the accommodations and entertainment so well that they accepted the invitation to return. A big convention is anticipated.

Estate is Appraised.

Joseph Bagwell, L. E. Penland and Claude Penland as appraisers have filed their reports on the estates of William H. Bond, deceased, and of Royal Bond and Ronald Cushman, minors. The estate of Mr. Bond, who died in California leaving a quarter section of farm land in this county, is appraised at \$9000, that of Ronald Cushman at \$1679.76 and that of Royal Bond at \$2311.11.

George Fletcher in Trouble.

George Fletcher, well known colored cowboy, is in trouble again. Deputy U. S. Marshall Dave Fuller who has been here for several days, served upon him a bench warrant issued by the federal court of Portland and also served one upon Irene Oliver a mixed blood Indian woman. The two are accused of illegal cohabitation and will be taken to Portland for arraignment.

Held to Federal Jury.

Joe Hayes, local Indian and Oscar Anderson, white, were this morning bound over to the federal grand jury by U. S. Commissioner S. A. Newberry on a charge of selling liquor to a Nez Perce Indian. The two men who were arrested recently by the police are accused of having furnished one Andrew Red Duck with liquor. They will be taken to Portland by U. S. Deputy Marshal D. E. Fuller.

Takes Boy to Reform School.

Deputy Sheriff J. H. Estes left yesterday for Salem with the older of the Food boys who recently committed a series of petty burglaries. The boy was a parole out of the state reform school and will be recommitted there. The younger boy will be given another chance. Deputy Sheriff Estes will go on to Eugene to secure H. H. Williams, wanted here for larceny by bailer.

Seven Keys to Baldpate.

In the play by the above name given here last evening at the Oregon by a well balanced company headed by William Wagner, Pendleton was treated to one of the most unique productions ever on the road. It is a play that strikes a surprise note for the audience. It is one of the "six best sellers" in action and grips

the attention from start to finish. The author of popular novels is given a night's experience in what he takes to be real life and not until the end does he know he has been an unconscious actor in a made to order melodrama for his benefit.

Veteran Engineer Insane.

Charged with insanity, "Dad" Moon, the veteran engineer who pulled the first steam train into La Grande, will soon be tried before the proper court and if his mind is found affected as it is believed to be, the old railroad man will probably be sent to Pendleton's hospital for the insane, says the La Grande observer.

The charge was made this morning following a night which must have been one of terror for Mrs. Moon and the other members of the family. Mr. Moon labors under the hallucination that there are millions of volts of electricity playing around him. He believes the earth is charged with dangerous current and he frequently urges someone in his imagination to turn off the power and stop the current.

For more than a week this condition has existed, but until last night it was not deemed essential that the old man should be cared for in a state institution.

After being employed here for over a dozen years as regular engineer on the main line, he was given the easy run to Elgin in the days that city was the terminus. When the line was extended the trip was too strenuous and he was then transferred to Pendleton where he had an easy run for a time but eventually became too aged to take care of his work, and he was then pensioned. He has been idle for two or three years on that account.

ADOPTING CHILDREN BECOMING A FAD WITH RICH PEOPLE.

MRS. PARKER SEDGWICK.

NEW YORK, Nov. 29.—Adopting children is fast becoming a fad among the wealthy. The adoption of a boy by Mr. and Mrs. Finley Shepard brought to light the fact that many other wealthy couples have taken homeless waifs to rear.

Mrs. Parker Sedgwick is giving a course of lectures at one of the leading hotels under the auspices of the Sigma Alpha Delta Sorority and the proceeds are to be used to provide for a little orphan girl to be adopted by the society.

Mr. and Mrs. Warner Leeds have adopted two children. Mr. and Mrs. Robert Erskine Ely have adopted four. Miss Ethel Lloyd Patterson is playing mother to a little boy and a little girl. Miss Lucy Bancroft, daughter of the historian, has found homes for many orphans and has personally cared for many and several other well known society people are administering to little mites who have been left alone in the big world.

GLASSES MARITAL ARMOR. Wife Fears Special Law, or She's Force Hobby to Support Her.

PITTSBURGH, Nov. 29.—The only reason for bringing her husband into court to have him legally reprimanded was that he wore glasses and to "smash" a man wearing glasses with one's fist is a penitentiary offense, was the explanation made to Justice Kennedy by Mrs. Elmer Slaybaugh, when she appeared with her husband before his honor this morning.

"I want you to make him support me, your honor," said Mrs. Slaybaugh. "If he did not wear glasses, I would not ask this favor of you—I'd make him do it myself, but every time I feel angry enough to hit him he declares it's a penitentiary offense to hit a person wearing glasses. I've let him strike me just because I was afraid to hit him back, for fear of the law."

"Ah I want you to do it to make him support me as he should. Maybe the legislature will repeal that statute some day, and then it will be my turn. And then he'll need some support."

Electrical Prosperity Week

ELECTRICITY has always rightly been regarded as a business stimulator—a speeder-up and a money-maker.

Electrical Prosperity Week, November 29 to December 4, is an Event dedicated entirely to boosting, extending the use and knowledge of electricity in the home, the office and factory.

In any section of the country where electricity is well known and widely utilized, you will find modern-thinking, modern-acting, prosperous communities.

If you now share in the benefits which electricity has bestowed on the world, show your approval of it by resolving to do more things in the electrical way—by passing the good word along to your unelectrified neighbor.
