WAR UPON PAIN!

Pain is a visitor to every home and usually it comes quite unexpectedly. But you are prepared for every emergency if you keep a small bottle of Sloan's Liniment handy. It is the greatest pain killer ever discovered. Simply laid on the skin—no rubbing required—it drives the pain away. It is really wonderful.

Mervin H. Soister, Berkeley, Cal., writes: "Last Saturday, after tramping around the Panama exposition with wet feet, I came home with my neck so stiff that I couldn't turn. I applied Sloan's Liniment freely and went to bed. To my surprise, next morning the stiffness had almost disappeared, four hours after the second application I was as good as new." March, 1915. MANY CHILDREN HAVE WORMS

Worms are a common childhood ailment. They make children irritable, nervous and restless, besides robbing the body and mind of proper nourishment. Watch your child. Examine the stools and at first signs of worms give your child a treatment of Kickapoo Worm Killer. They kill the worms and act as a laxative and expel the worms and poisonous waste. Tone the system and help restore your child's health and happy disposition. Only 25c. at your druggists.—Adv.

Grateful Mothers Tell Experiences

Mrs. T. Neureger, Eau Claire, Wis., writes: "Foley's Honey and Tar Compound cured my boy of a very severe attack of croup after other remedies had failed. Our milkman cured his children of whooping cough. I recommend it to every one, as we know from our own experience that it is a wonderful remedy for coughs, colds, croup, and whooping cough."

Mrs. D. Gilkeson, Youngstown, O., writes: "My little girl had a severe cold and coughed almost continuously. I tried lots of cough remedies, but she didn't get any better. My sister recommended Foley's Honey and Tar Compound to me. The first dose I gave her relieved the inflammation in her throat, and after using one bottle the cough left her."

This sterling old remedy has been in use for years and is just as efficient for adults as for children. It gives relief for irritated and tickling throat, tight and sore chest, grippe and bronchial coughs.
