## HOW TO HEAL SKIN-DISEASES

A Baltimore doctor suggests this simple, but reliable and inexpensive, home treatment for people suffering with eczema, ringworm, rashes and similar itching, burning skin troubles. At any reliable druggist's get a jar of rosinol ointment and a cake of rosinol soap. These will not cost a bit more than twenty-five cents. With the rosinol soap and warm water bathe the affected parts thoroughly, until they are free from crusts and the skin is softened. Dry very gently, spread on a thin layer of the rosinol ointment, and cover with a light bandage—if necessary to protect the clothing. This should be done twice a day. Usually the distressing itching and burning stop with the first treatment, and the skin soon becomes clear and healthy again.

### A HINT FOR SHAVERS

If you want a refreshing shave, with a thick, creamy lather, try a rosinol shaving stick. It contains the soothing, healing rosinol medication which makes it especially welcome to men with tender faces.

### NOTE SENT AUSTRIA.

(Continued from page one.)

#### Treat of Note Given Out.

The text of the note, which was handed to the Austrian foreign office Thursday by Ambassador Penfield, follows:

"The Secretary of State to Ambassador Penfield, Department of State, Washington, D. C., December 6, 1915. Please deliver a note to the minister of foreign affairs, textually as follows:  
"Reliable information obtained from American and other survivors who were passengers on the steamship Ancona show that on November 7 a submarine flying the Austro-Hungarian flag fired a solid shot toward the steamship; that thereupon the Ancona attempted to escape; being overhauled by the submarine she stopped; that after a brief period and before the crew and passengers were all able to take to the boats the submarine fired a number of shells at the vessel and finally torpedoed and sank her while there were yet many persons on board.  
"Many Killed or Wounded.  
"By gunfire and rouding of the vessel a large number of persons lost their lives or were seriously injured, among whom were citizens of the United States.  
"Public statement of the Austro-Hungarian admiralty has been brought to the attention of the government of the United States and received careful consideration. This statement substantially confirms the principal declaration of the survivors as it admits that the Ancona after being shelled was torpedoed and sunk while persons were still on board.  
"The Austro-Hungarian government has been advised through the correspondence which has passed between the United States and Germany of the attitude of the government of the United States as to the use of submarines in attacking vessels of commerce, and the acquiescence of Germany in that attitude, yet with full knowledge on the part of the Austro-Hungarian government of the views of the government of the United States as expressed in no uncertain terms to the ally of Austro-Hungary, the commander of the submarine which attacked the Ancona failed to put in a place of safety the crew and passengers of the vessel which he purposed to destroy. It is presumed, of the impossibility of taking it into a port as a prize of war.  
"Law of Humanity Violated.  
"The government of the United States considers that the commander violated the principles of international law and of humanity by shelling and torpedoing the Ancona before the persons on board had been put in a place of safety or even given sufficient time to leave the vessel. The conduct of the commander can only be characterized as wanton slaughter of defenseless non-combatants, since, at the time when the vessel was shelled and torpedoed, she was not, it appears, resisting or attempting to escape, and no other reason is sufficient to excuse such an attack, not even the possibility of a rescue.  
"The government of the United States is forced therefore, to the conclusion either that the commander of the submarine acted in violation of his instructions or that the imperial

### and royal government failed to issue instructions to commanders of its submarines in accordance with the law of nations and the principles of humanity.

The government of the United States is unwilling to believe the latter alternative and to credit the Austro-Hungarian government with an intention to permit its submarines to destroy the lives of helpless men, women and children. It prefers to believe that the commander of the submarine committed the outrage without authority and contrary to general or special instructions which he had received.

#### Satisfaction is Demanded.

"As the good relations of the two countries must rest upon a common regard for law and humanity, the government of the United States cannot be expected to do otherwise than to demand that the imperial and royal government denounce the sinking of the Ancona as an illegal and indefensible act; that the officer who perpetrated the deed be punished; and that reparation be made for the citizens of the United States who were killed or injured by the attack on the vessel.  
"The government of the United States expects that the Austro-Hungarian government, appreciating the gravity of the case, will accede to its demand promptly; and it rests this expectation on the belief that the Austro-Hungarian government will not sanction or defend an act which is condemned by the world as inhuman and barbarous, which is abhorrent to all civilized nations and which has caused the death of innocent American citizens."  
"LANSING."
