### WIDOWS' DAY IS OPPOSED.

Chicago Proposes to Let Women Select Gifts for Necessities.

CHICAGO, Dec. 11.—Chicago will have a "widow's day" for its dependent widows if a resolution adopted by the city council recently is signed by Mayor William Hale Thompson.

The widows will do their own shopping and retain all money collected, according to the plan. The tags will be distributed among the various aldermen, who shall issue the necessary credentials to dependent widows. If, through ill health, the widow is unable to participate in the "tag day," she may name some one to take her place.

Charitable organizations of Chicago began active opposition to the order Wednesday night moving out to veto on the ground that it would promote beggary and expose to jokes and insults women who appeared on the streets labeled "widows" and soliciting funds.

How many widows there are in Chicago is not known, but the city directory, it is said, contains the names of 22,700.

### GERMAN SCORES WILSON

Declared Insult to Men Who Showed Love for Fatherland.

BERLIN, Via London, Dec. 11.—The Morgenpost, commenting on the address of President Wilson, makes a violent attack on the president, saying that it has long been known that he was anti-German, but that he never before had given rein to his hatred in this fashion.

"This neutral government's head has hardly a word of reproach for the shameless incitements of the Buge press against Germany. But he insults as traitors, anarchists and dishonorable persons those men in whom love for the old fatherland lives, and who rise up against the despicable things done them daily."

## CHILD LABOR CAMPAIGN GOES ON DESPITE WAR

NEW YORK, Dec. 14.—In spite of the war, the campaign against child labor made progress in this country last year, according to the annual report of Owen R. Lovejoy, general secretary of the National Child Labor Committee, just published in the quarterly Child Labor Bulletin. Twenty states legislated against child labor last year, while only five states defeated attempts to improve their laws, and one passed a distinctly reactionary act. Investigations were carried on by the National Child Labor Committee in 19 states and members of the committee's staff were present at the legislative sessions of 19 states. The committee's exhibits were shown in 49 cities in 21 states.

All these activities were made possible by the fact that 77 per cent of the members of the committee reduced their subscriptions and almost 200 new members were secured. As Mr. Lovejoy puts it: "The persistence of our contributing members at a time when other calls are urgent, and their determination to see a solution of this problem, are the most gratifying contribution to the success of our work."

The Child Labor Bulletin calls attention to the fact that the federal child labor bill is the chief interest of the committee this year and urges active support of the bill on the part of its members and friends. The Bulletin contains besides the annual report an article by Nathan William MacChesney of Chicago on the constitutionality of the federal child labor law, and a number of editorials on the work of the committee.

### WOMAN TO REGAIN VOTE.

SAN FRANCISCO, Dec. 11.—Mrs. Ethel Coope McKenzie, born in California, whose right of suffrage was taken from her by the supreme court of the United States on the ground that as the wife of a British citizen, Gordon McKenzie, she was disenfranchised, is to have the vote after all.

stolen Tin Cup Returned. NEENAH, Wis., Dec. 10.—Fifty years ago a little girl, 10 years old, took a tin cup from the store of Ignatz Trilling, a Menasha hardware man.

The woman, aged 50 and living 2000 miles from where the theft was committed, recently made inquiries at relatives if Trilling were still living.

On learning that H. H. Trilling, a son, was still in the same business, she sent 60 cents to him with a letter of explanation, telling that she had, in later years, deeply felt the wrong she had done and that the 60 cents covered the cost of the tin cup which was 10 cents, with interest.
