TURKISH SUPPLIES READY FOR GERMANS

BERLIN, Dec. 23, via London.—"Turkey has an abundance of food and other material of all kinds which she can supply to Germany if Germany needs them," said Dr. Nazim Bey, secretary of the Young Turks committee and one of Turkey's most prominent men, in a statement on his arrival in Berlin. "It is only a question of transportation which seems to be in a fair way of solution."

"There is no lack of anything in Turkey. For example we have 300,000,000 kilograms of cotton which Germany can have the moment she solves the transportation problem not to speak of 10,000,000 kilograms of reserve supplies in the shape of raw, tanned and other articles in Turkish homes."

"The same is true of copper. Of this we have at least 49,000,000 kilograms which Germany can have at any time."

Support Is Lost.

LONDON, Dec. 24.—The allies "bullying tactics" have cost the Greek support, Skouloudis is reported as saying in a Chronicle dispatch. Asquith may be questioned concerning the charges. Skouloudis is reported as saying the allies have insulted King Constantine and have lied. He claimed the allies "bought" instead of placating Greece, simultaneously parleying with Bulgaria. He believed Greece will soon become a bloody battleground, but should not resist a Bulgarian invasion.

U. S. to Protest to England.

WASHINGTON, Dec. 24.—Violation of humanitarian and perhaps legal rights is charged against England's embargo on Red Cross hospital supplies destined to her enemies. The seizure of mails likewise is held indefensible. The state department is considering an inquiry. Representatives for a modification of the embargo have been made to Foreign Secretary Grey already.

Serbs and Bulgars Battle.

ROME, Dec. 24.—For three days Serbs and Bulgarians have been battling in the Albanian mountains near Elbasan. Serbian Prince Alexia Karageorgevich, arriving today, told a story of great courage. "Our men are fighting fiercely and though suffering from lack of food, their spirit is unbroken. They would die rather than submit to the Teutonic yoke."

T. R. Booms an Experiment.

NEW YORK, Dec. 23.—The Roosevelt boom was launched as an experiment in the opinion of republican leaders meeting with Hiles, who does not believe the colonel is after the nomination. Cameron, an Arizona committeeman, thinks Roosevelt's friends are trying to convince him that leaders are unfair to Roosevelt. A dark horse may be nominated in the prevailing belief.
