HOW TO KEEP WITHIN "DRY" LAW
 (Continued from page 6.)

Q. May common carriers accept any package of liquor for shipment?
 A. No. The package must be clearly marked in plain English letters of large size in a conspicuous place with the name of the consignor, the name and address of the consignee, the quantity and kind of intoxicating liquors contained in the package, and the place from which the liquor is shipped.

Q. What if such liquor not so marked is shipped?
 A. The common carrier is liable for accepting it for shipment, the consignor is liable for shipping it, and liquor so shipped may be proceeded against before a justice of the peace, city recorder or circuit judge, and ordered destroyed.

Q. May intoxicating liquors be sent through the U. S. mails?
 A. No, this is contrary to postoffice regulations, and will be punished by the government.

Q. Can a bill of lading or shipping order be transferred from one person to another?
 A. No, and no common carrier shall deliver any liquor on any transferred bill of lading or shipping order; and if he does so may be punished by a fine of not more than \$500 or by imprisonment in the county jail not more than 90 days.

Q. Can the law be avoided by having sight drafts attached to bills of lading of liquor shipments?
 A. No; for banks, individuals and associations are prohibited from handling or having anything to do with such drafts under pain of fine of not less than \$25 or more than \$500, or imprisonment in the county jail not more than 90 days.

Definite information regarding the whereabouts of Villa in this part of Mexico, although reports in Mexican circles south credited him with having left Chihuahua City, apparently on the way to the American border.

Weather Hampers Italians.
 ROME, Dec. 25.—Snow, rain and fog are bitterly hampering operations of the Italians but they are nevertheless bravely continuing. The office told of a surprise attack in which the Italians captured an Austrian trench in the Monte San Michele region.

When You Wake Up Drink Glass of Hot Water

Wash the poisons and toxins from system before putting more food into stomach.

Says inside-bathing makes any one look and feel clean, sweet and refreshed.

Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do.

For every ounce of food and drink taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste material is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed or sucked into the blood stream, through the lymph ducts which should suck only nourishment to sustain the body.

A splendid health measure is to drink, before breakfast each day, a glass of real hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons, gases and toxins from the stomach, liver, kidneys and bowels; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

A quarter pound of limestone phosphate costs but very little at the drug store but is sufficient to make anyone an enthusiast on inside-bathing. Men and women who are accustomed to wake up with a dull, aching head or have furred tongue, bad taste, nasty breath, sallow complexion, others who have bilious attacks, acid stomach or constipation are assured of pronounced improvement in both health and appearance shortly.
