THE PEOPLES WAREHOUSE

WHERE IT PAYS TO TRADE.

SOCIAL AND PERSONAL

Additional Social and Personal News on Page 5.

Last evening the patients of the Eastern Oregon State Hospital were given a real Christmas entertainment with illuminated trees, a Santa Claus and a splendid program as the principal features. The big auditorium was appropriately decorated in evergreens and two big fir trees sparkled with lights in the foreground. The program was made up of numbers contributed by Pendleton people.

The United Orchestra attended and played the overture and later on another enjoyable selection. Vocal solos were rendered by Mrs. Roy Alexander, Miss Edna Zimmerman and Walter Rose. W. K. Livingston and Zoe Carney put on a comedy sketch. Miss Gaynell Baldwin contributed a violin solo, Jack Coleman and Sandy Anderson sang Scotch songs and danced Scotch dances. Mrs. Walter Rose gave a dramatic reading, Miss Mae Poulson played a piano number, Messrs. Rose, Peters, Boyden and Bishop sang quartet selections. Santa Claus sang as he appeared to distribute the presents and the grand finale found an audience of happy patients.

The Phi chapter of Lambda Sigma fraternity added more laurels in a social way to its record last evening by the annual ball given by the alumni of the organization. The affair was held in the Eagle-Woodman hall and was attended only by members their ladies and a few friends.

The decorations were both seasonal and different. An illuminated Christmas tree formed the center piece of the big hall and overhead from the four walls festoons of evergreen sprays set off by brilliant point-lights led to the tree, making a very pretty artificial ceiling. A hedge of evergreens was very artistically arranged in front of the orchestra. Subdued lights added to the effect of the decorations.

Music of excellent quality made the program of one-step, waltzes and three-steps all too fleeting. Refreshments were served during the evening. The patronesses of the event were the mothers of the active members, Mrs. James W. Maloney, Mrs. Thomas Boylen, Mrs. Frederick E. Judd, Mrs. John B. Dickson, Mrs. Ida Fowler, Mrs. Elmer A. Snyder, Mrs. Charles Greulich, Mrs. H. Struve, Mrs. W. S. Imley, Mrs. E. J. Murphy, Mrs. W. C. Minnik, Mrs. David Gordon, Mrs. C. S. Wilkes, Mrs. William Duff, Mrs. M. J. Carney, Mrs. J. C. Woodworth and Mrs. John Selbert.

Interest this evening centers in the annual concert of the University of Oregon Glee Club at the Oregon theater. The college boys have sung themselves in good grace in Pendleton many times and their return is always anticipated each Christmas vacation. Notices from other cities where they have appeared this season indicate that the club has reached the same high standard as in former years.

At 5:30 Sunday evening at the Presbyterian parsonage, the Rev. J. E. Snyder officiating, E. J. Graham and Miss Edith Pittman were joined in matrimony. A few invited guests were present. Mr. Graham is a son of W. G. Graham, a wealthy stockman of Rush Springs, Oklahoma, and the bride is the oldest daughter of S. C. Pittner, a well-to-do farmer east of the city.

23 Sample Stores. 745 MAIN ST.

Mr. and Mrs. Graham are spending a few days in Portland after which they will go to Ritter, Grant county, where Mr. Graham owns a large stock and grain ranch, which he recently purchased from Mr. Pittner. The young people have the well wishes of their many friends here.

ENLISTMENT PLAN DEFINED

Movement for Increasing Fighters Launched by Defense Society.

WASHINGTON, Dec. 28.—Quick enlistment of volunteers for service in the army and navy in case of war, through the medium of a publicity committee composed of advertising men, is the object of a movement launched by the American Defense Society.

Philip J. Roosevelt is in charge of the development of the committee. Posters and worded appeals to be inserted in newspapers and magazines is said to be the plan of campaign outlined. The recruiting committee, it is announced, will have the status of an unofficial government reserve.

Replies from a number of letters sent out to advertising men advise that the membership of the committee be limited to 10, those to represent all sections of the country. Aid to the new committee to be formed will be given by a staff of authors who form the publicity committee of the American Defense Society. Rex Beach is chairman. Formal presentation of the plan adopted by the organization, it is understood, will be made to the United States government, along with names of the men chosen for emergency recruiting.

WANTON KILLING IS DONE.

Wisconsin Hunters Leave Does and Fawns Just Where Stagn.

SPOONER, Wis., Dec. 28.—W. Whitehead of this city, is back from the Tamarac river, where he left a party of deer hunters. He says that in one day while there he found 11 does and five fawns lying in the brush where they had been shot by hunters. Nearly every returning hunter tells of finding many does and fawns dead in the woods. The so-called "buck law" is being widely condemned. One old-time hunter remarked it would take at least five years of a closed season to replenish the deer that will be left dead in the woods this season.

That the law will protect hunters is denied. They say that being allowed one buck hundreds of hunters stay for days after they would have left for home if they could go out with a doe. Consequently only a few are returning.

They are banging away trying to get a buck and are killing does by the hundreds and leaving them where they fall. "No man no matter how well he may be acquainted with the life of a deer can tell a doe from a buck at five rods in the brush" is the statement of one experienced hunter.

Turks Take Much Booty.

CONSTANTINOPLE, Dec. 24.—Routing the British forces at Savva and Avil Burna, the Turks have pushed their lines through to the sea, capturing immeasurable quantities of booty, an official report announced here. A heavy fog enabled the enemy to withdraw with inconsequential losses.

In their hounding retreat, however, the allied forces abandoned great stores of rifle and machine gun ammunition, mules, carts, tents and feed, together with several cannon, which were gathered up by the Turks the statement said.

Say Kitchener Will Be Next.

BERLIN, by Wireless to Sayville, Dec. 24.—Lord Kitchener, Great Britain's secretary of war, is soon to retire, according to statements published here by the Overseas News Agency, which declares that is the belief of high German officials.

"French's retirement will not save Kitchener," says the agency. "French followed out Kitchener's orders. There will be a great upheaval in the British cabinet before spring and Kitchener will be among those to go."

Canada Must Have Dyes.

WASHINGTON, Dec. 24.—In notifying the state department that Great Britain would permit the immediate shipment of 4700 tons of logwood for dyestuffs from Jamaica to the United States, the British embassy has indicated that the shortage of the extract of logwood in Canada must be relieved as a condition of the embargo's modification.

In addition, it appears that there is contemplated a much larger movement of this important dye base under certain restrictions.

T. R. NAMED IN PETITIONS.

Mysterious Hunk's Advocate Republican Candidate for President.

LANSING, Mich., Dec. 24.—Blank petitions to place the name of ex-president Theodore Roosevelt on the primary ballot as the republican candidate for president were received by republican leaders here.

The petition blanks were mailed from Flint in plain envelopes and no one here appeared to know the identity of the sender.

HEADACHE STOPS, NEURALGIA GONE

Dr. James' Headache Powders give instant relief—Cost dime a package.

Nerve-racking, splitting or dull, throbbing headaches yield in just a few moments to Dr. James' Headache Powders which cost only 10 cents a package at any drug store. It's the quickest, surest headache relief in the whole world. Don't suffer! Believe the agony and distress now! You can. Millions of men and women have found that headache and neuralgia misery is needless. Get what you ask for.

CHARLES EDISON, INVENTOR, POET, PRODUCER

votes to work in his father's laboratories. He is called the "repair man." His work is much in the nature of an efficiency expert, because his duties are to see to it that there are no imperfections in the manufactured products invented by his renowned daddy.

The remaining third of his time he writes poetry under the nom de plume "Tom Sleeper," and music, and plays the gentleman; and it is said of him truly, that he really has a good time.

Charles Edison is twenty-six years of age, and already has to his credit a valuable patent of his own invention for a part of an electric automobile.

Claim English Losses Heavy.

PERLIN, Dec. 24.—(By Wireless to Sayville)—Reiteration of Turkish claims that the British retirement from Anzac and Savva Bay on the Gallipoli Peninsula was rather a rout than a retreat was made here by the Overseas News Agency. It quoted Constantinople dispatches declaring that the British fled in disorder in their ships abandoning their flag and wounded to the mercy of the Turks.

Six Feet of Water in Hold.

SEATTLE, Wash., Dec. 24.—The barquentine S. N. Castle, which left Aberdeen Saturday for Australia with a cargo of lumber, was reported in distress off Jagged Rock on the Washington coast. The tug Titonah, which is standing by, reported by wireless that the barquentine has six feet of water in her hold.

The United States coast guard cutter Schoonmaker left Nash Bay to assist the Castle.

Tube Out to Beat Cupid.

MADISON, Wis., Dec. 25.—Here are the University of Wisconsin rules on how to beat Dan Cupid, the god of love, how to cause his darts to fall blunted on striking the defense; devised by a professor against the god of love.

"Stay away from the thing, whatever it may be that excites your love."

HEREDITY TEST STARTED.

Philadelphia to Rear Daughter of Japanese Gardener As Own.

PHILADELPHIA, Dec. 24.—Folli Adamson has deep, dark eyes, a well-cut nose, a typical round Japanese baby face. Her cheeks are a rich warm pink.

She doesn't know yet that she is to demonstrate the comparative value of environment and heredity. Even if it were explained that her pure Japanese blood and American training were fighting it out in her small body, she would fail to comprehend.

She is the little daughter of a Japanese gardener on the Villanova estate of Mr. and Mrs. William Hester Adams, whose charges won her father's employer. Her parents finally consented to permit Mrs. Adams to take charge of her upbringing.

She is a new breed for differences of nature she could not be distinguished from any of the American children she plays with. She is as vivacious and bright. She speaks English and German as second nature. Her foster-mother is using her a course in grammar which is expected to make her tall.

Folli is destined to marry late of Dr. Mark. When she reaches her majority she will be given her choice between America and Japan. Mrs. Adams has no fear of the outcome.

"Who should it?" she asks. "The child has become American and in a few years had a trace of the Japanese characteristics will be left."

French Hold Up American.

NEW YORK, Dec. 24.—The American steamer Berenguez arriving here from San Juan, Porto Rico, reported that the vessel was stopped by the entrance of San Juan harbor by the French cruiser Tourville and the junior Wilhelm garde, of Brest, France.

This is the fourth search of an alien vessel which the Tourville has made. More than a week ago the intimation was made from the French embassy in Washington that the admiralty would issue orders against the practice.

In addition to writing music and good poetry, inventing automobile parts and assisting his wizard father with his inventions, Charles Edison, son of Thomas A. Edison, is spending one third of his time this winter operating his little music theatre on Fifth avenue, New York.

Another third of his time he de-

YOUNGEST SOLDIER IN THE FRENCH ARMY

Jacques Veriot, thirteen years old, is the youngest soldier in the French army. He is fighting in the trenches at Sulpes and is said to handle a gun as well as the biggest of his comrades.
