THE GOOD JUDGE FINDS A MERCHANT WHO KNOWS.

THAT LITTLE BIT OF W-B CUT GIVES ME FULL TOBACCO SATISFACTION.

YES, JUDGE, SOME MEN ARE JUST FULL THEIR FACES FULL AND THEN SAY IT'S TOO STRONG. I TELL 'EM TO TAKE A SMALL CHEW AND NOT GRIND ON IT.

THAT'S RIGHT.

OBSERVE the way W-B CUT users handle their tobacco; notice how small a chew they take; how little they spit—that's because W-B CUT chewing is rich tobacco.

Your dealer sells it. Tell him you want W-B CUT Chewing—the Real Tobacco Chew, new cut, long shred. 10 cents a pouch.

BLAZE AT AMERICAN BREWERY IN BAKER CAUSES HEAVY LOSS

BUILDING AND MACHINERY DAMAGED TO EXTENT OF \$10,000.

BAKER, Ore., Jan. 3.—A loss estimated at \$10,000 to \$12,000 resulted from a fire caused by defective electric wiring at the plant of the American Brewing company. The fire department had a hard fight for over three hours to control the blaze and save the main building. The bottling works where the fire originated, was entirely destroyed. In addition to a loss of \$7,000 to \$8,000 on the building and machinery, \$3,000 worth of beer in vats will be a total loss. "We will have to pour it out, I guess," said Manager Charles Bodeau "for fire destroyed our bottles and barrels as well as all bottling machinery." He intended to start bottling tomorrow preparatory to shipping all beer left on hand, out of the state. It is possible the burned plant may be rebuilt as the company is considering manufacture of near-beer and other temperance drinks. The ice plant in connection will still be operated.

JUSTICE LAMER OF THE SUPREME COURT DIES AT WASHINGTON

MEMBER OF HIGHEST TRIBUNAL OF U. S. SUCCEEDS TO LONG ILLNESS.

WASHINGTON, Jan. 3.—Justice Lamer of the United States supreme court died here last night. Justice Lamer was taken ill early in October, his physicians announcing that he was suffering from an attack of high blood pressure, which centralized in the arteries of one arm, causing painful inflammation. At that time he was confined to his bed for several days, being permitted to talk with only one person a day outside the family circle. This was really a stroke of paralysis and the beginning of the illness which caused his death. Joseph Rucker Lamar was born at Ruckersville, Ga., October 14, 1857. He matriculated from the University of Georgia and graduated from Bethany (West Virginia) college in 1877. He attended the law school of Washington and Lee universities. He was admitted to the bar in 1879 and practiced at Augusta, Ga., 1879-1903. He was appointed associate justice of the supreme court of the United States December 12, 1910, by President Taft and assumed his duties January 3, 1911. He was a member of the Georgia house of representatives 1888, 29; commissioner to codify the laws of Georgia, 1895; was appointed associate justice of the Georgia supreme court in 1901 to fill a vacancy and elected to the same position in 1902 resigning in 1905 to resume his private practice. Justice Lamer was married to Clara Huntington of Bethany, W. Va. in 1879. The really remarkable thing about the prodigal son is that he did not return to his father's house accompanied by a wife.

SAYS WOMAN WEEDLED HIM OUT OF \$10,000

INDIANAPOLIS, Jan. 3.—How a beautiful woman is alleged to have received property worth \$10,000 in exchange for a smile, a cigar, a glass of beer and \$1 was told in circuit court here today when the civil action of Hugh E. Hogan vs. Mrs. James Rhode opened. Mrs. Rhode of social consequence in Newcastle, Ind., was a sister to Hogan's wife. When Mrs. Hogan died Hogan deeded the property to Mrs. Rhode and now Hogan wants the property back. In preliminary testimony given by Mrs. Rhode she tells of many years spent as a trapeze performer and contortionist with various circuses. German army surgeons have to have sold for many jobs of law patching. Among the articles being melted down for the material are old wedding rings, English coins and even fillings from the teeth.

WORKMEN WHO WIRE or do other electrical work always prefer that their materials and appliances should come from here. That precludes all possibility of their being anything but right, obviates the necessity for testing everything before using. All our electrical supplies are tested before we sell them. Better buy that kind than the uncertain sort.
